P.S. Free & New 300-835 dumps are available on Google Drive shared by CramPDF: <https://drive.google.com/open?id=1hxXk7jQxLSFoe0gjjkhpduGKAhW0XIQL>

Although our company has designed the best and most suitable 300-835 learn prep, we also do not stop our step to do research about the study materials. All experts and professors of our company have been trying their best to persist in innovate and developing the 300-835 test training materials all the time in order to provide the best products for all people and keep competitive in the global market. We believe that the study materials will keep the top selling products. We sincerely hope that you can pay more attention to our 300-835 study questions.

List of Exam Topics

Let's kick off your training with a peek at the exam subjects. The first part lays bare the basics of network programmability, focusing more on common operations for version control, API styles, and Python scripts. Python programming is such a substantial domain that should be highlighted well in your preparation. The next part shows the weight of Unified Communications, most especially the technical tasks related to API and CUCM. One of the sub-areas of this domain talks about constructing API calls to automate CUCM features as well cluster config and dialplan automation. Knowledge of the functionalities of various CUCM aspects, together with IP Phone Services and Finesse REST APIs is another relevant skillset that you have to gain.

The next section strives to deliver the primary attributes of cloud collaboration. To start, you have to distinguish Webex Teams REST API, learn how to manage administrative operations, and construct API calls. Creating a Python script for tasks such as automating Webex Teams and implementing notification is also useful knowledge. Other vital subjects that hold a percentage of the

exam are HTML web app design and conversational bots.

The fourth area discusses the collaboration endpoints. This dwells on creating scripts for room device events and describing the importance of Cisco collaboration via In-Room Controls Editor and Macro Editor. The last part emphasizes the Webex Meetings API, specifically its capabilities, and authentication mechanisms. Additionally, it takes on your skills in using API calls to implement meetings and users as well as to configure the Cisco Meeting Server via the REST API.

The list of topics officially provided by Cisco serves as your study guide. Furthermore, all these are recorded in a downloadable PDF file for easier and convenient access. So, be sure to use this throughout your test preparation.

- A. Display corporate directory information.
- **B. Create new phone devices.**
- C. Authenticate the phone to the network.
- **D. Play multicast messages.**
- E. Upgrade phone firmware.

Answer: B,D

Explanation:

Section: Unified Communication

NEW QUESTION # 53

Drag and Drop Question

Refer to the exhibit. Drag and drop the code snippets from the bottom onto the blanks in the code to construct a cURL command that will create a new space with the name Annual Meeting. Not all options are used.

Answer:

Explanation:

Explanation:

This command creates a new Cisco Meeting Server coSpace named "Annual Meeting".
POST is the HTTP method used to create a new coSpace.
coSpace is the correct API resource for coSpace creation (/api/v1/coSpaces).
-F is used in curl to specify form fields (as multipart/form-data).
name is the parameter used to assign a human-readable name to the coSpace.
Annual Meeting is the name value being set.

NEW QUESTION # 54

What is the primary purpose of the POST /v1/meetings function of the Webex Meetings REST API?

- A. to start an instant meeting
- B. to cancel a meeting
- C. to schedule a new meeting
- D. to join an ongoing meeting

Answer: C

Explanation:

The POST /v1/meetings function of the Webex Meetings REST API is used to create or schedule a new meeting. You can define details such as title, agenda, start time, duration, password, and invitees when calling this endpoint.

NEW QUESTION # 55
