So we are looking forward to establishing a win-win relation with you by our 1Z0-771 training engine. In our trade with merchants of various countries, we always adhere to the principles of mutual benefits rather than focusing solely on our interests on the 1Z0-771 Exam Questions. So our aim is to help our customers to pass the 1Z0-771 exam as easy as possible. We have invested a lot on the compiling the content of the 1Z0-771 study materials and want to be the best.

Oracle 1Z0-771 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development.
Topic 2	<ul style="list-style-type: none">Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities.
Topic 3	<ul style="list-style-type: none">Using Themes and Theme Styles: This section tests the abilities of UI Designers in applying visual themes to applications. It involves selecting and customizing themes, using Theme Roller for design adjustments, and creating template components for consistent branding.
Topic 4	<ul style="list-style-type: none">Managing Workflows and Tasks: This section evaluates the proficiency of Process Automation Specialists in workflow management. It covers customizing workflows, using approval processes, and handling unified task lists to streamline business processes within applications.

Topic 5	<ul style="list-style-type: none"> • Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.
Topic 6	<ul style="list-style-type: none"> • Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.
Topic 7	<ul style="list-style-type: none"> • Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.
Topic 8	<ul style="list-style-type: none"> • Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.
Topic 9	<ul style="list-style-type: none"> • Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management.
Topic 10	<ul style="list-style-type: none"> • Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences.

Reliable 1Z0-771 Exam Price, 1Z0-771 Valid Test Questions

Our test bank includes all the possible questions and answers which may appear in the real exam and the quintessence and summary of the exam papers in the past. We strive to use the simplest language to make the learners understand our 1Z0-771 study materials and the most intuitive method to express the complicated and obscure concepts. For the learners to fully understand our 1Z0-771 Study Materials, we add the instances, simulation and diagrams to explain the contents which are very hard to understand. So after you use our 1Z0-771 study materials you will feel that our 1Z0-771 study materials' name matches with the reality.

Oracle APEX Cloud Developer Professional Sample Questions (Q30-Q35):

NEW QUESTION # 30

What happens when you regenerate credentials for Push Notifications in Oracle APEX?

- A. Existing Push Subscriptions for the application will be invalidated.
- B. Push Notifications will be disabled for the application.
- C. A new notification server must be created.

Answer: A

NEW QUESTION # 31

Which two declarative options in Oracle APEX allow you to download BLOB/CLOB content?

- A. Download Dynamic Action
- B. Share Dynamic Action
- C. Download Page Process
- D. APEX_UTIL.DOWNLOAD PL/SQL API

Answer: A,C

Explanation:

Declarative options for downloading BLOB/CLOB content include:

Download Dynamic Action: A built-in action type to trigger downloads of BLOB/CLOB data.

Download Page Process: A process type that declaratively handles BLOB/CLOB downloads from a table.

APEX_UTIL.DOWNLOAD is a PL/SQL API, not a declarative option, and Share Dynamic Action is for sharing URLs, not downloading files.

NEW QUESTION # 32

Which two tasks can be performed by using the Generate Text with AI Dynamic Action?

- A. Draft an email
- B. Invoke a Workflow
- C. Summarize or translate text
- D. Update the underlying database tables

Answer: A,C

Explanation:

The "Generate Text with AI" Dynamic Action uses Generative AI to:

Draft an email: Creates text content like emails based on prompts.

Summarize or translate text: Processes existing text to summarize or translate it.

It does not update database tables or invoke workflows, as it's focused on text generation.

NEW QUESTION # 33

Which two layout modes are available for Page Designer under Utilities?

- A. Four Pane
- B. Three Pane
- C. Two Pane
- D. Single Pane

Answer: B,C

Explanation:

Page Designer's layout modes under Utilities adjust the workspace:

A . Two Pane: Splits into two vertical sections (e.g., tree and properties), ideal for focused editing.

B . Three Pane: Adds a third section (e.g., tree, grid, properties), offering a balanced view for complex pages.

C . Four Pane: Not available; APEX limits to three for usability.

D . Single Pane: Not an option; the minimum is two panes.

Developers toggle these via the Utilities menu to optimize screen real estate based on task complexity.

NEW QUESTION # 34

Which two approaches can be used to create custom stored procedures in SQL Workshop?

- A. Using Data Workshop
- B. Using Object Browser
- C. Using SQL Scripts
- D. Using Quick SQL

Answer: B,C

Explanation:

In SQL Workshop, custom stored procedures can be created using:

SQL Scripts: Allows developers to write and execute PL/SQL code directly to define stored procedures.

Object Browser: Provides a GUI to create and edit database objects, including stored procedures, by defining their specifications and bodies.

Quick SQL is for generating table DDL, not stored procedures, and Data Workshop is for loading/unloading data, not creating procedures.
