Pegasystems Certified Pega Senior System Architect 23 Sample Questions (Q47-Q52):

NEW QUESTION # 47

A form must support accessibility.

How do you enable a user to specify a date?

- A. Configure a text box to allow date entry.
- B. Provide separate controls for month, day, and year.
- **C. Use a calendar control that displays an entire month.**
- D. Use a calendar control that displays an entire year.

Answer: C

Explanation:

To support accessibility, it's recommended to use a calendar control that displays an entire month. This allows users who rely on screen readers or keyboard navigation to select a date without the need for precise mouse control or having to manually input the date, which can be error-prone. Reference: Pega User Interface Design Guide - Accessibility.

NEW QUESTION # 48

To reduce training requirements for users, a company wants to utilize the existing front end of their application. How can a third-party application use Pega Platform?

- A. By using middleware tools in application servers
- B. By exposing third-party application services
- **C. By using REST calls from the Pega API**
- D. By using database tables for staging the requests

Answer: C

Explanation:

Integrating a third-party application with Pega Platform can be efficiently achieved through REST calls using the Pega API. This allows for seamless communication between the third-party application's existing front end and Pega's backend processes. The REST API endpoints in Pega Platform enable external applications to interact with Pega applications for operations like case management, assignments, and data retrieval, without requiring significant changes to the existing user interface or user experience. This approach minimizes the need for extensive retraining of users on a new system, leveraging the familiar UI of the existing application. References: Pega Community documentation on Pega APIs and integration best practices.

NEW QUESTION # 49

Which three statements about the guardrail score are true? (Choose Three)

- **A. Guardrail scores do not include Pega Platform core rules.**
- **B. The Application Guardrails landing page counts the number of rules with no warnings or caution-level guardrail warnings.**
- C. A weighted compliance score above 90 signifies that an application is ready for general distribution.
- **D. The Application Guardrails landing page counts the number of rules with severe or moderate guardrail warnings.**
- E. Rules with unjustified warnings are not counted in the compliance score.

Answer: A,B,D

Explanation:

A: The Application Guardrails landing page does count the number of rules with severe or moderate warnings, as these can have a significant impact on the application's performance and maintainability.

B: Guardrail scores exclude Pega Platform core rules since these are established by Pega and are assumed to be optimized.

C: The landing page also counts the number of rules with no warnings or caution-level warnings, which contribute positively to the overall compliance score. Reference: Pega official documentation on the Application Guardrails landing page and guardrail scores.
