

Nokia 4A0-113 Formal Test - 4A0-113 Latest Dump

BTW, DOWNLOAD part of TorrentVCE 4A0-113 dumps from Cloud Storage: https://drive.google.com/open?id=1EGdSdma4ww8_t_ah8ldryoiuqa8kmcFC

A second format is a Nokia 4A0-113 web-based practice exam that can take for self-assessment. However, it differs from desktop-based 4A0-113 practice exam software as it can be taken via any browser, including Chrome, Firefox, Safari, and Opera. This Nokia 4A0-113 web-based practice exam does not require any other plugins. It also includes all of the functionalities of desktop 4A0-113 software and will assist you in passing the 4A0-113 certification test.

Our 4A0-113 guide questions boost many advantages and varied functions. You can have a free download and tryout of our 4A0-113 exam questions before the purchase and our purchase procedures are easy and fast. You can receive our 4A0-113 exam questions in a few minutes and we provide 3 versions for you to choose. You need little time to learn the 4A0-113 Exam Torrent and prepare the exam. Our passing rate and the hit rate is very high. After you pass the 4A0-113 exam you will gain a lot of benefits such as enter in the big company and double your wage.

Nokia 4A0-113 Latest Dump - 4A0-113 Dumps Free

Over the past few years, we have gathered hundreds of industry experts, defeated countless difficulties, and finally formed a complete learning product - 4A0-113 test answers, which are tailor-made for students who want to obtain 4A0-113 certificates. Our customer service is available 24 hours a day. You can contact us by email or online at any time. In addition, all customer information for purchasing 4A0-113 Test Torrent will be kept strictly confidential. We will not disclose your privacy to any third party, nor will it be used for profit. Then, we will introduce our products in detail.

Nokia OSPF Routing Protocol Exam Sample Questions (Q82-Q87):

NEW QUESTION # 82

An OSPF ASBR must have at least one interface in the backbone area (area 0)

- A. False
- B. True

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

From Nokia 7750 SR OS Routing Protocols Guide (OSPF ASBR Behavior):

An ASBR can exist in any OSPF area - including stub or NSSA areas.

There is no requirement that an ASBR be directly connected to area 0.

Thus, correct answer: B (False).

NEW QUESTION # 83

Which LSA type is not found in point-to-point only OSPF networks?

- A. Type 5 External LSA
- B. Type 1 Router LSA
- C. Type 3 Summary LSA
- **D. Type 2 Network LSA**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract (Nokia 7750 SR OS Routing Protocols Guide

- OSPF LSA Types and Network Types):

Type 1 Router LSA - always generated, carries router topology info.

Type 2 Network LSA - generated only on broadcast or NBMA networks by DR.

Type 3 Summary LSA - used for inter-area route advertisement.

Type 5 External LSA - used for AS external routes (generated by ASBRs).

Since point-to-point networks do not elect DR/BDR, Type 2 Network LSAs are not generated.

Thus, correct answer: B.

-

NEW QUESTION # 84

Click the exhibit button.

What triggers convergence of the routing protocol when the link between switch 1 and switch 2 goes down?

- A. Convergence will not be triggered because switches cannot run routing protocols between them.
- B. Convergence is triggered when an LSA is sent from router R1 to router R2 to indicate that the link is down. At this point, both routers R1 and R2 re-compute their link state database and send updates to their adjacent routers. Once the process is complete for all routers, the networks have converged.
- C. Convergence is triggered when the switches notify the routers about the link state information. At this point, both routers R1 and R2 re-compute their link state database and send updates to their adjacent routers. Once the process is complete for all routers, the networks have converged.
- D. Convergence is triggered when the physical interfaces between routers R1 and R2 go down. At this point, both routers R1 and R2 re-compute their link state database and send updates to their adjacent routers. Once the process is complete for all routers, the networks have converged.
- **E. Convergence is triggered when the adjacency between routers R1 and R2 drops as a result of Hello timeouts. At this point, both routers R1 and R2 re-compute their link state database and send updates to their adjacent routers. Once the process is complete for all routers, the networks have converged.**

Answer: E

NEW QUESTION # 85

From the list below select the statements that describe the behavior of link state information aging. (Choose 2)

- **A. The age for newly created link state information is set to 0 for OSPF and 1200 for IS-IS**
- B. The age is incremented or decremented only as it is held in the topological database and not as it is flooded router to router.
- **C. The age is incremented or decremented as it is flooded from router to router and as it is held in the topological database.**
- D. The age for newly created link state information is set to 1200 for OSPF and 0 for IS-IS

Answer: A,C

NEW QUESTION # 86

Click the exhibit button.

The following command sequence is executed on router R2:

- A. R2# configure router router-id 10.10.10.66

On router R1, what router ID appears for router R2 directly after these commands are executed?

- B. 10.10.10.99
- **C. R2# configure router ospf router-id 10.10.10.99**
- D. 10.10.10.1
- E. 10.10.10.2
- F. 10.10.10.66

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

From Nokia 7750 SR OS Routing Protocols Guide (Router ID Selection):

"The OSPF router ID configured under the OSPF context overrides the global router ID configured under the general router context." Since "configure router ospf router-id 10.10.10.99" was applied, this takes precedence for OSPF operation, even though "configure router router-id 10.10.10.66" was configured globally.

Thus, router R1 will see router R2's OSPF router ID as 10.10.10.99.

NEW QUESTION # 87

.....

Perhaps you worry about that you have difficulty in understanding our 4A0-113 training questions. Frankly speaking, we have taken all your worries into account. Firstly, all knowledge of the 4A0-113 exam materials have been simplified a lot. Also, we have tested many volunteers who can prove that after studying our 4A0-113 Exam Questions for 20 to 30 hours, it is easy to pass the exam. The results show that our 4A0-113 study materials are easy for them to understand. In addition, they all enjoy learning on our 4A0-113 practice exam study materials.
