MB-335 Download, MB-335 Reliable Test Bootcamp

Now you can pass Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert exam without going through any hassle. You can only focus on MB-335 exam dumps provided by the DumpsFree, and you will be able to pass the Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert test in the first attempt. We provide high quality and easy to understand MB-335 pdf dumps with verified Microsoft MB-335 for all the professionals who are looking to pass the MB-335 exam in the first attempt. The MB-335 training material package includes latest MB-335 PDF questions and practice test software that will help you to pass the MB-335 exam.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q24-Q29):

NEW QUESTION # 24

A Discrete manufacturing company produces speakers. The high-end speaker model uses protective rubber strips on the edges.

Approximately five inches of rubber is consistently scrapped in the production process, regardless of production quantity. Workers manually consume the extra material on the picking list or scrap it in an inventory journal.

You need configure the system to automatically account for this scrap on the Bill of materials (BOM).

What should you do?

- A. Add an additional BOM line for five inches and set consumption to Variable.
- B. Set a Constant scrap of five on the BOM line for rubber.
- **C. Set a Variable scrap of five percent for the rubber BOM line.**
- D. Increase the required quantity of the rubber component by five on the BOM.

Answer: C

NEW QUESTION # 25

A company produces various products using Process manufacturing.

The manufacturer makes two co-products from a formula and rarely produces the primary formula item. The costs of making the co-products are inflated. The manufacturer must update the costs of producing the co-products and change the formula to not produce the primary formula item.

You need to change the primary formula item type.

What should you do?

- A. Change the production type to Bill of materials and recalculate the item cost.
- B. Change the cost of the primary formula item to zero and then recalculate the item cost.
- C. Associate the costs to produce by-products with the items.
- **D. Change the primary formula item to use the planning item type.**

Answer: D

NEW QUESTION # 26

A manufacturer uses route operations and job scheduling. You use a unique calendar for a conveyor line.

The company observes a decrease in the number of hours a conveyor line resource is operational due to breakdowns. You must make a temporary change to the number of hours the resource is available.

You need to adjust the efficiency percentage for the conveyor line calendar.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

□

Answer:

Explanation:

□

Explanation:

□

NEW QUESTION # 27

You are responsible for product and formula maintenance for a paint manufacturer. You create a formula for white paint and add its lines. When the formula size increases or an ingredient changes, the quantity of the pigment ingredient must be adjusted proportionately. You need to set up the formula line for the pigment.

Which formula feature should you use?

- A. Step consumption
- B. Pegged supply
- C. Variable
- **D. Scalable**

Answer: D

NEW QUESTION # 28

You are using the manufacturing execution module in Dynamics 365 Supply Chain Management. License plate labels must be printed

for products in the Report as finished step. You need to use the manufacturing execution functionality that meets this requirement. What should you use?

- A. Production waves
- B. Operations schedules
- C. Job card device
- **D. License plates**

Answer: D

Explanation:

The manufacturing execution functionality that meets the requirement of printing license plate labels for products in the Report as finished step is License plates. Here is the explanation:

License plates are unique identifiers that are assigned to containers, pallets, or individual items in inventory. License plates can be used to track and manage inventory throughout the warehouse processes, such as receiving, put away, picking, packing, and shipping¹. License plates can also be used in production processes, such as reporting as finished and raw material picking².

To print license plate labels for products in the Report as finished step, you must enable the Generate license plate option on the mobile device menu item that is used for reporting as finished². You must also set up a document routing layout and a document routing for license plate labels³. When you use the mobile device to report a production order as finished, the system will generate a license plate for the finished product and print a license plate label to the specified printer². The license plate label can include information such as the item number, batch number, quantity, and barcode of the finished product³.

1: License plates 2: Enable license plate label printing 3: Document routing label layouts

NEW QUESTION # 29

.....

If you buy our MB-335 preparation questions, we can promise that you can use our study materials for study in anytime and anywhere. Because our study system can support you study when you are in an offline state. In addition, Our MB-335 training quiz will be very useful for you to improve your learning efficiency, because you can make full use of your all spare time to do test. It will bring a lot of benefits for you beyond your imagination if you buy our MB-335 Study Materials.
