Our 24/7 customer service is available and you can contact us for any questions about Salesforce practice dumps.

Salesforce Certified Slack Consultant Sample Questions (Q115-Q120):

NEW QUESTION # 115

When presenting Slack to a potential client who is currently using a mix of email, messaging apps, and file-sharing services, which feature of Slack would you emphasize as a key benefit?

- A. The fact that Slack is widely used in many industries
- B. The use of fun emojis and GIFs to enhance informal communication
- C. Slack's capability to integrate various communication and file-sharing services into a single platform
- D. The ability to customize Slack's interface with various color themes

Answer: C

Explanation:

For a client currently using a mix of different tools for communication and file sharing, the most significant benefit of Slack is its ability to integrate these services into one platform. This centralization simplifies workflows, improves team collaboration, and reduces the need to switch between multiple tools.

NEW QUESTION # 116

Which Salesforce component can be used to automate workflows and trigger notifications in Slack?

- A. Salesforce Reports
- **B. Salesforce Flow**
- C. Salesforce Marketing Cloud
- D. Salesforce Lightning Web Components

Answer: B

Explanation:

Salesforce Flow can be used to automate workflows in Salesforce, including triggering notifications and actions in Slack based on certain conditions.

NEW QUESTION # 117

A user is experiencing audio issues during Slack calls, where they can't hear other participants. What is the first action they should take to troubleshoot this problem?

- **A. Check their audio settings in Slack and ensure their speakers or headphones are properly connected and configured**
- B. Replace their computer's sound card as it might be faulty
- C. Assume that Slack's call feature is not functioning and report it as a bug to Slack's support team
- D. Advise them to only communicate via text messages and avoid using calls

Answer: A

Explanation:

The first and most practical step in troubleshooting audio issues during Slack calls is to check the audio settings within Slack. The user should also ensure their speakers or headphones are properly connected and configured. Often, audio issues are related to simple settings or hardware connection problems.

NEW QUESTION # 118

You are designing a Slack grid for a client who has multiple teams working on different projects. Based on the discovery outputs, which approach should you recommend for the grid structure?

- A. Only private channels for each team to ensure confidentiality and avoid information overload
- **B. Separate channels for each project and team, with additional channels for cross-team collaboration and organization-wide announcements**
- C. Randomly assigning team members to channels to encourage diverse interactions
- D. A single channel for the entire organization to streamline communication

Answer: B

Explanation:

Based on the discovery that the client has multiple teams working on different projects, it is best to recommend separate channels for each project and team. This allows for focused communication within teams and projects. Additionally, having channels for cross-team collaboration and organization-wide announcements ensures comprehensive communication throughout the organization.

NEW QUESTION # 119

When consulting with a client about their Slack usage, which question is most crucial to understand their security requirements and compliance needs?

- **A. "What are your current security challenges with Slack, and what compliance standards does your organization need to meet?"**
- B. "Do you prefer using Slack on a desktop or mobile device?"
- C. "How many employees in your organization are currently using Slack?"
- D. "How often do your employees engage in social channels on Slack?"

Answer: A

Explanation:

Asking about current security challenges with Slack and necessary compliance standards helps in understanding the client's specific

security and compliance needs. This information is vital for tailoring Slack's security settings and features to meet those requirements, ensuring that the client's use of Slack is secure and compliant.

NEW QUESTION # 120

.....
