

2026 Perfect JN0-105–100% Free Reliable Exam Voucher | JN0-105 Latest Practice Questions

P.S. Free & New JN0-105 dumps are available on Google Drive shared by TorrentValid: <https://drive.google.com/open?id=1SCpXDunc5Xtrzl5M-eRVbzaS5liMXEt>

The Juniper JN0-105 certification differentiates you from other professionals in the market. Success in the Juniper JN0-105 exam shows that you have demonstrated dedication to understanding and advancing in your profession. Cracking the Juniper JN0-105 test gives you an edge which is particularly essential in today's challenging market of information technology. If you are planning to get through the test, you must study from reliable sources for Junos, Associate (JNCIA-Junos) JN0-105 Exam Preparation. TorrentValid real Juniper JN0-105 exam dumps are enough to clear the JN0-105 certification test easily on the first attempt. This is because TorrentValid Juniper JN0-105 PDF Questions and practice test is designed after a lot of research and hard work carried out by experts.

Our JN0-105 exam questions have been widely acclaimed among our customers, and the good reputation in industry prove that choosing our study materials would be the best way for you, and help you gain the JN0-105 certification successfully. With about ten years' research and development we still keep updating our JN0-105 Prep Guide, in order to grasp knowledge points in accordance with the exam, thus your study process would be targeted and efficient.

JN0-105 Latest Practice Questions & Pdf JN0-105 Version

We provide a guarantee on all of our JN0-105 test products, and you will be able to get your money back if we fail to deliver the results as advertised. We provide 100% money back guarantee for all of us JN0-105 test questions products, and we are always available to provide you top notch support and new JN0-105 Questions. If you are facing issues in downloading the JN0-105 study guides, then all you have to do is to contact our support professional, and they will be able to help you out with JN0-105 answers.

Juniper JN0-105 Exam Syllabus Topics:

Topic	Details
Topic 1	Networking Fundamentals: The topic networking fundamentals covers identifying the concepts and functionality of different fundamental elements of networking.
Topic 2	Routing Fundamentals: This topic discusses pointing out basic routing concepts or functionality for Junos devices. Moreover, the topic also describes configuring or monitoring basic routing elements for a Junos device.

Topic 3	Junos OS Fundamentals: It covers concepts, benefits, and functionality of the core elements of the Junos OS.
Topic 4	Configuration Basics: Identification of the main elements for configuring Junos devices is discussed in this topic. Moreover, it describes configuring basic components of a Junos device

Juniper Junos, Associate (JNCIA-Junos) Sample Questions (Q69-Q74):

NEW QUESTION # 69

You want to redeploy a Junos device by clearing the existing configuration and resetting it to factory defaults. In this scenario, which command would help to accomplish this task?

- A. request systemstorage cleanup dry-run
- B. request systemstorage cleanup
- C. show system storage
- D. request systemzeroize media

Answer: D

Explanation:

The request system zeroize media command on a Junos device securely erases all data, including configuration and log files, and resets the device to its factory default settings. This command is used when redeploying a device to ensure no residual data remains from its previous deployment. It's a comprehensive and secure way to clear all configurations and data, making the device as if it were new. The other commands listed do not perform a full reset to factory defaults; for example, show system storage displays storage information, and request system storage cleanup offers to delete unnecessary files without resetting the device to factory settings.

NEW QUESTION # 70

What will the request system configuration rescue save command do?

- A. It saves the candidate configuration as the rescue configuration.
- B. It saves a configuration version prior to the configuration most recently committed as the rescue configuration.
- C. It saves the most recently committed configuration as the rescue configuration.
- D. It activates the rescue configuration.

Answer: C

Explanation:

The "request system configuration rescue save" command in Junos OS saves the most recently committed configuration as the rescue configuration, making C the correct answer. This feature allows administrators to set a known good configuration that can be quickly reverted to in case of configuration errors or issues.

NEW QUESTION # 71

You have configured some interfaces on a Junos device; however, you have not yet committed the configuration. What happens if you issue the rollback 0 command in this scenario?

- A. The Junos device is rebooted.
- B. The messages.log file is deleted.
- C. The interface changes you made are discarded.
- D. The factory default configuration is loaded.

Answer: C

Explanation:

Issuing the rollback 0 command in Junos OS will discard any uncommitted changes and revert to the last committed configuration. This command effectively cancels any configuration changes that have been made but not yet committed, ensuring that the device returns to its previous stable state.

NEW QUESTION # 72

Click the Exhibit button.

Referring to the exhibit, what is the source IP address of the ping that was executed?

- A. 10.24.0.4
- B. 10.23.0.3
- C. 10.23.0.2
- D. 10.12.0.2

Answer: C

Explanation:

The exhibit shows a ping test being executed from router R2 to the IP address 10.23.0.3. Since the ping command is issued on R2 and we see successful replies from 10.23.0.3, it means the source of the ping must be an interface on R2. Given the network diagram and the IP address scheme, the source IP address of the ping is on the interface ge-0/0/2 of R2, which is in the subnet 10.23.0.0/24. The only logical IP address for R2's interface in this subnet, based on standard networking practices and the given options, would be 10.23.0.2. The other addresses provided in the options belong to different subnets or are the destination of the ping itself.

NEW QUESTION # 73

Click the Exhibit button.

Referring to the exhibit, OSPF has three export policies that match different static route prefixes. The 10.10.10.0/24 static route does not match any terms in the policy1 routing policy. What happens next in this scenario?

- A. The static route is evaluated by the policy2 routing policy.
- B. The static route is evaluated by the policy3 routing policy.
- C. The static route is rejected by the policy1 routing policy.
- D. The static route is rejected by the default routing policy.

Answer: A

Explanation:

In Junos, when multiple policies are applied to a routing protocol for route export, the routes are evaluated in the order in which the policies are listed. In the exhibit, the OSPF configuration has three export policies listed: policy1, policy2, and policy3. The static route 10.10.10.0/24 does not match any terms in policy1; therefore, it is not rejected by policy1 but is instead passed on to the next policy in the sequence, which is policy2.

If the static route matches a term in policy2 that permits the route, it will be exported into OSPF. If it does not match in policy2, it will then be evaluated by policy3. If there is no match in policy3 as well, and assuming there are no more policies listed, the route would then be subject to the default routing policy behavior, which typically rejects the route unless an explicit accept statement is present in the policies.

NEW QUESTION # 74

.....

Obtaining this JN0-105 certificate is not an easy task, especially for those who are busy every day. However, if you use our JN0-105 exam torrent, we will provide you with a comprehensive service to overcome your difficulties and effectively improve your ability. If you can take the time to learn about our JN0-105 Quiz prep, I believe you will be interested in our JN0-105 exam questions. Our JN0-105 learning materials are practically tested, choosing our JN0-105 exam guide, you will get unexpected surprise.
