# New Launch SAP C-TS4FI-2023 Exam Questions Are Out: Download And Prepare [2026]

BONUS!!! Download part of Exam4Tests C-TS4FI-2023 dumps for free: https://drive.google.com/open?id=1fzY5kwsxOvu\_ZhWiSCylPcuaVxXzt8Ls

Our C-TS4FI-2023 Research materials design three different versions for all customers. These three different versions include PDF version, software version and online version, they can help customers solve any problems in use, meet all their needs. Although the three major versions of our C-TS4FI-2023 learning materials provide a demo of the same content for all customers, they will meet different unique requirements from a variety of users based on specific functionality. The most important feature of the online version of our C-TS4FI-2023 Learning Materials are practicality. The online version is open to all electronic devices, which will allow your device to have common browser functionality so that you can open our products. At the same time, our online version of the C-TS4FI-2023 learning materials can also be implemented offline, which is a big advantage that many of the same educational products are not able to do on the market at present.

## SAP C-TS4FI-2023 Exam Syllabus Topics:

| Topic   | Details  |
|---------|--|
| Topic 1 | Organizational Assignments and Process Integration: It focuses on managing organizational units, currencies, validations, document types, and number ranges. It also involves utilizing reporting tools and configuring substitutions. |
| Topic 2 | Overview and Deployment of SAP S 4HANA: The topic gives an overview of SAP HANA architecture. Moreover, it describes the scope and deployment options of SAP S 4HANA.  |
| Topic 3 | Accounts Payable & Accounts Receivable: It covers reversing invoices and payments, blocking open invoices for payment, configuring the payment program, defining payment medium workbench settings, and handling debit balance checks. |
| Торіс 4 | General Ledger Accounting: Under this topic, the focus is on creating and maintaining general ledger accounts, bank master data, and house banks.  |

Our C-TS4FI-2023 study materials provide free trial service for consumers. If you are interested in our C-TS4FI-2023 study materials, and you can immediately download and experience our trial question bank for free. Through the trial you will have different

learning experience on C-TS4FI-2023 exam guide, you will find that what we say is not a lie, and you will immediately fall in love with our products. As a key to the success of your life, the benefits that our C-TS4FI-2023 Study Materials can bring you are not measured by money. C-TS4FI-2023 test torrent can help you pass the exam in the shortest time.

# SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Financial Accounting Sample Questions (Q25-Q30):

#### **NEW OUESTION #25**

During which actions does the system assign the document number for Financial Accounting? There are 2 correct answers to this question.

- A. Park
- B. Hold
- C. Post
- D. Simulate

Answer: A,C

#### **NEW QUESTION #26**

Where can you see the matching results from the Intercompany Matching and Reconciliation tool?

- A. In the Universal Journal table (ACDOCA)
- B. In the Consolidation Journal table (ACDOCU)
- C. In the Accounting Document Segment table (BSEG)
- D. In an application specific table (ICADOCM)

#### Answer: D

#### Explanation:

In SAP S/4HANA, the Intercompany Matching and Reconciliation tool is used to identify, match, and reconcile intercompany transactions across different company codes or legal entities within a corporate group.

The results of the matching process are stored in a specific table designed for this purpose. Let's analyze each option to determine the correct answer.

Explanation of Each Option:

D. In an application specific table (ICADOCM)

- \* Correct: The matching results from the Intercompany Matching and Reconciliation tool are stored in the ICADOCM table. This table is specifically designed to hold the results of intercompany reconciliation, including matched and unmatched transactions, discrepancies, and reconciliation statuses. It serves as the primary source for reviewing and analyzing the outcomes of the matching process.
- \* Reference : According to SAP documentation, the ICADOCM table is the designated location for storing intercompany matching results in SAP S/4HANA.

A. In the Consolidation Journal table (ACDOCU)

- \* Incorrect: The ACDOCU table is used for consolidation-related data, such as adjustments and eliminations during the consolidation process. It is not related to intercompany matching and reconciliation, which focuses on reconciling intercompany transactions at the transactional level.
- \* Reference : ACDOCU is part of the consolidation functionality and does not store intercompany matching results. B. In the Universal Journal table (ACDOCA)
- \* Incorrect: The ACDOCA table is the Universal Journal, which stores all financial and controlling transactions in SAP S/4HANA. While intercompany transactions are recorded in ACDOCA, the matching results from the Intercompany Matching and Reconciliation tool are not stored here. Instead, they are stored in the ICADOCM table.
- \* Reference : ACDOCA contains transactional data but does not include reconciliation-specific information like matching results. C. In the Accounting Document Segment table (BSEG)
- \* Incorrect: The BSEG table was used in older SAP systems (e.g., SAP ECC) to store line-item details of financial documents. In SAP S/4HANA, this table has been replaced by the Universal Journal (ACDOCA). Even in older systems, BSEG did not store intercompany matching results, as it only contained transactional data.
- \* Reference : BSEG is obsolete in SAP S/4HANA and does not play a role in intercompany reconciliation. Key References to SAP S/4HANA Documentation:
- \* SAP S/4HANA Finance for Intercompany Reconciliation : Explains the functionality of the Intercompany Matching and Reconciliation tool and where the results are stored.
- \* SAP Help Portal Intercompany Matching and Reconciliation: Provides detailed guidance on the ICADOCM table and its role in

storing matching results.

- \* Universal Journal (ACDOCA): Highlights that ACDOCA stores transactional data but not reconciliation-specific information.
- \* Consolidation Journal (ACDOCU): Describes the use of ACDOCU for consolidation adjustments, not intercompany reconciliation.

#### **NEW QUESTION #27**

Which SAP Fiori apps can be run on any database? Note: There are 2 correct answers to this question.

- A. Make Bank Transfers
- B. Accounts Payable Overview
- C. Manage Chart of Accounts
- D. Customer Accounting Document

Answer: B,C

#### **NEW QUESTION #28**

Where can you see the matching results from the Intercompany Matching and Reconciliation tool?

- A. In the Universal Journal table (ACDOCA)
- B. In the Consolidation Journal table (ACDOCU)
- C. In the Accounting Document Segment table (BSEG)
- D. In an application specific table (ICADOCM)

Answer: D

#### **NEW QUESTION #29**

You want to assign your 3 newly created company codes to the same controlling area. Which settings must be common to all the company codes? Note: There are 2 correct answers to this question.

- A. Source currency for group currency
- B. Operating chart of accounts
- C. Fiscal year variant
- D. Posting period variant

Answer: B.C

#### **NEW QUESTION #30**

••••

We have developed three versions of our C-TS4FI-2023 exam questions. So you can choose the version of C-TS4FI-2023 training guide according to your interests and habits. And if you buy the value pack, you have all of the three versions, the price is quite preferential and you can enjoy all of the study experiences. This means you can study C-TS4FI-2023 Practice Engine anytime and anyplace for the convenience these three versions bring.
