**Answer: C,D**

#### NEW QUESTION # 34

Which SAP product provides integrated predictive planning?

- A. SAP S/4HANA Cloud
- B. SAP Analytics Cloud
- C. SAP Datasphere
- D. SAP Business Technology Platform

**Answer: B**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

SAP Analytics Cloud (SAC) is the strategic platform for all planning, forecasting, and analytical needs within the SAP ecosystem. It is specifically designed to provide integrated predictive planning, which allows finance teams to move beyond traditional manual budgeting. By using built-in machine learning algorithms, SAC can analyze historical data trends to automatically generate baseline forecasts, identify hidden drivers of performance, and suggest future outcomes with a high degree of statistical confidence. The "integrated" aspect of SAC is key; it connects directly to SAP S/4HANA, allowing for "Extended Planning and Analysis" (xP&A). This means that financial plans are not created in isolation but are linked to operational plans in sales, HR, and supply chain. When a change occurs in the ERP (such as a new sales order), the impact can be reflected in the financial forecast immediately. This synergy allows CFOs to perform real-time "what-if" simulations, helping them to navigate uncertainty and make data-driven decisions.

While SAP Datasphere provides the data fabric and BTP is the underlying platform, SAC is the specific application where the predictive intelligence and planning workflows reside.

#### NEW QUESTION # 35

Which feature of SAP Business Suite brings transparency to financial issues and unifies data from various sources?

- A. SAP Business Data Cloud
- B. SAP Analytics Cloud Compass
- C. Joule
- D. SAP Datasphere
