# OGEA-101 Training Courses - OGEA-101 Exam Vce
OGEA-101 exam study material have a 99% pass rate. What does this mean? As long as you purchase OGEA-101 exam simulating and you are able to persist in your studies, you can basically pass the exam. This passing rate is not what we say out of thin air. This is the value we obtained from analyzing all the users' exam results. It can be said that choosing OGEA-101 study engine is your first step to pass the exam. If your job is very busy and there is not much time to specialize, and you are very eager to get a certificate to prove yourself, it is very important to choose our OGEA-101 Exam simulating. I know that the 99% pass rate of OGEA-101 exam must have attracted you. Do not hesitate anymore. You will never regret buying OGEA-101 study engine!

## The Open Group OGEA-101 Exam Syllabus Topics:

| Topic | Details |
|---|---|
| Topic 1 | • Implementation Governance: This topic of The Open Group OGEA-101 exam emphasizes the governance framework for architecture implementation, including compliance processes. It measures the understanding of TOGAF practitioners about governance principles, a key competency for the OGEA-101 exam. |
| Topic 2 | • ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios. |
| Topic 3 | • Introduction to the Architecture Development Method (ADM): The ADM is central to TOGAF, outlining a structured approach to developing and managing enterprise architecture. This section assesses comprehension of TOGAF practitioners about the ADM phases and their application, ensuring they grasp the method's iterative nature, which is vital for the OGEA-101 exam. |
| Topic 4 | • Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories. |

| Topic 5 | • Fundamental Concepts of Enterprise Architecture: This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 Exam. |
|---|---|
| Topic 6 | • Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components. |
| Topic 7 | • Architecture Governance: This topic of The Open Group OGEA-101 exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures. |
| Topic 8 | • Architecture Vision: Aspiring TOGAF practitioners learn to develop an architecture vision that aligns with business goals and drivers. This topic evaluates the skills in articulating a clear and compelling vision, a necessary competency for successfully navigating the OGEA-101 exam and implementing enterprise architecture. |

## Pass Guaranteed Quiz The Open Group - High Hit-Rate OGEA-101 Training Courses

Our OGEA-101 preparation exam have assembled a team of professional experts incorporating domestic and overseas experts and scholars to research and design related exam bank, committing great efforts to work for our candidates. Most of the experts have been studying in the professional field for many years and have accumulated much experience in our OGEA-101 Practice Questions. The high-quality of our OGEA-101 exam questions are praised by tens of thousands of our customers. You may try it!

## The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q21-Q26):

**NEW QUESTION # 21**
Consider the illustration.
What are the items labelled A, B and C?

- A. A-Enterprise Architecture, B-Architecture Building Blocks, C-Solutions Building Blocks
- B. A-Architecture Vision, B-Business Architecture, C-Information Systems Architecture
- C. A-Enterprise Continuum, B-Architecture Continuum, C-Solutions Continuum
- D. A-Enterprise Strategic Architecture, B-Segment Architecture, C-Solutions Architecture

**Answer: C**

Explanation:
The illustration shows the relationship between the Enterprise Continuum, the Architecture Continuum, and the Solutions Continuum, which are key concepts in the TOGAF framework. The Enterprise Continuum is a view of the Architecture Repository that shows how generic foundation architectures can be leveraged and specialized to support the requirements of an individual organization. The Architecture Continuum specifies a structured classification for architectural artifacts, such as models, patterns, and descriptions, that can be reused and adapted across different domains and levels of abstraction. The Solutions Continuum identifies implemented solutions that support various stages of business and IT capability evolution, such as common systems, industry solutions, and organization-specific solutions. The illustration also shows how the architecture context and requirements are influenced by external factors, such as business drivers, stakeholders, and standards, and how they shape the generic and specific architectures and solutions. The illustration also shows how the deployed solutions become part of the architecture context for future iterations of the architecture development cycle. References:
*TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 6: Architecture Repository, Section 6.2 Enterprise Continuum.
*TOGAF Standard, 10th Edition, Part IV: Architecture Content Framework, Chapter 35: Enterprise Continuum and Tools, Section 35.1 Introduction.

**NEW QUESTION # 22**

Consider the following descriptions of deliverables consumed and produced across the TOGAF ADM cycle.

* General rules and guidelines, intended to be enduring and seldom amended, that inform and support the way in which an organization sets about fulfilling its mission

* A set of quantitative statements that outline what an implementation project must do in order to comply with the architecture.

* A document that is sent from the sponsoring organization to the architecture organization to trigger the start of an architecture development cycle

* The scope and approach that will be used to complete an architecture development cycle Complete the sentence. Deliverable 3 is the, deliverable 4 is a deliverable from

- A. Architecture Requirements Specification, Preliminary Phase
- B. Architecture Definition Document, Phase H
- C. Request for Architecture Work, Phase A
- D. Stakeholder Map, Phase G

**Answer: C**

Explanation:

In TOGAF's ADM, the Request for Architecture Work is the deliverable issued by the sponsoring organization (or stakeholder) to formally request that the architecture team perform a full architecture development cycle. That corresponds to your "deliverable 3." Then, the architecture team responds by producing a Statement of Architecture Work (in Phase A), which defines the scope, constraints, approach, and high#level tasks for the architecture development. That is your "deliverable 4" (the scope and approach). Thus deliverable 3 is the Request for Architecture Work, and deliverable 4 is generated in Phase A. The Request triggers the cycle; the Statement of Architecture Work (in Phase A) lays down how the architecture work will proceed, including scoping and approach.

**NEW QUESTION # 23**

Which of the following are interests important to the stakeholders in a system?

- A. Principles
- B. Requirements
- C. Architecture views
- D. Concerns

**Answer: D**

Explanation:

Concerns are interests important to the stakeholders in a system. They are used to identify and classify the system's stakeholders and to guide the selection of viewpoints for the architecture description. Reference: The TOGAF Standard | The Open Group Website, Section 3.2.1 Architecture Viewpoints

**NEW QUESTION # 24**

Complete the sentence. The purpose of the Preliminary Phase is to develop the:

- A. Architecture Vision for the project
- B. Implementation Governance Model
- C. Organization Model for Enterprise Architecture
- D. Architecture Roadmap

**Answer: C**

Explanation:

* The Preliminary Phase establishes the Organization Model for Enterprise Architecture, defines principles, and sets up the Architecture Capability.
* The Architecture Vision is developed in Phase A.
* The Architecture Roadmap comes from Phase E and Phase F.
* The Implementation Governance Model is part of Phase G.
Reference: TOGAF Standard, Version 9.2, Part II: ADM, Preliminary Phase.

**NEW QUESTION # 25**

What is an objective of the ADM Preliminary Phase?

- A. To develop a vision of the business value to be delivered by the proposed enterprise architecture
- B. To select and implement tools to support the Architecture Capability
- C. To create the initial version of the Architecture Roadmap
- D. To obtain approval for the Statement of Architecture Work

**Answer: B**

Explanation:

The Preliminary Phase is the preparatory phase of the Architecture Development Method (ADM) cycle, which sets the context and direction for the architecture work. One of the objectives of this phase is to select and implement tools to support the Architecture Capability, which is the ability of an organization to perform enterprise architecture effectively and efficiently. Tools can include software applications, methods, techniques, standards, and frameworks that assist the architecture development and governance processes. The selection and implementation of tools should be based on the requirements and constraints of the organization, and the alignment with the Architecture Principles and the Architecture Vision3 References: 3: The TOGAF Standard, Version 9.2, Part II: Architecture Development Method (ADM), Chapter 6: Preliminary Phase : The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 45: Establishing and Maintaining an Enterprise Architecture Capability : The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 46: Tools for Architecture Development

**NEW QUESTION # 26**

......

If you are not satisfied with the function of PDF version which just only provide you the questions and answers, the APP version of OGEA-101 exam cram materials can offer you more. APP version can not only simulate the real test scene but also point out your mistakes and notice you to practice many times. This version of The Open Group OGEA-101 Exam Cram materials is rather powerful. If you are willing, you can mark your performance every day and adjust your studying and preparation relatively. OGEA-101 exam cram materials will try our best to satisfy your demand.
