## McAfee Certified Cyber Intelligence Investigator (CCII) Sample Questions (Q127-Q132):

### NEW QUESTION # 127

Direct evidence is called to eliminate a specific act.

- A. True
- B. False

**Answer: B**

Explanation:

Direct evidence refers to firsthand accounts, recordings, or eyewitness testimony that directly proves a fact.

However, it does not necessarily eliminate other possible explanations for an act. Examples include:

Surveillance footage capturing a suspect at a crime scene.

Witness statements confirming actions.

While direct evidence is compelling, investigators still assess additional evidence to support conclusions.

### NEW QUESTION # 128

You can access the profile of a subject if they are represented by legal counsel.

- A. True
- B. False

**Answer: B**

Explanation:

Accessing a subject's profile when they are represented by legal counsel may violate legal and ethical boundaries. Investigators must ensure compliance with legal regulations to avoid infringement on privacy rights. Unauthorized access could result in legal liabilities under various cybercrime laws and ethical guidelines for digital investigations.

### NEW QUESTION # 130

The intent of this training & certification program is to provide a perspective and guidance for the development and delivery of cyber intelligence training for law enforcement and fraud professionals.

- A. True
- B. False

**Answer: A**

Explanation:

The CCII certification is developed to equip law enforcement, intelligence analysts, and fraud investigators with advanced cyber intelligence techniques. It emphasizes real-world applications, tactical intelligence gathering, and the use of cyber tools for identifying and neutralizing threats.

### NEW QUESTION # 131

The first broad class is the "application of intelligence," which deals with knowledge related to a specific crime. Intelligence analysis that produces information about new methods and indicators in the uses of improvised explosive devices (IED) by jihadists, for example, is the "application of intelligence."

- A. True
- B. False

**Answer: A**

Explanation:

The application of intelligence refers to the practical use of intelligence data in specific scenarios, such as crime investigation, counterterrorism, or threat assessment. Intelligence analysts use various sources and analytical methodologies to develop insights into criminal activities, including terrorist methods like IED usage. This approach helps law enforcement and intelligence agencies understand, predict, and counter threats effectively.
