NSE8_812 Exam Price, NSE8_812 Valid Exam Cost

Our NSE8_812 exam questions just focus on what is important and help you achieve your goal. When the reviewing process gets some tense, our NSE8_812 practice materials will solve your problems with efficiency. With high-quality NSE8_812 guide materials and flexible choices of learning mode, they would bring about the convenience and easiness for you. Every page is carefully arranged by our experts with clear layout and helpful knowledge to remember. In your every stage of review, our NSE8_812 practice prep will make you satisfied.

Fortinet NSE 8 - Written Exam (NSE8_812) Sample Questions (Q96-Q101):

NEW QUESTION # 96
Refer to the exhibit showing a FortiSOAR playbook.
You are investigating a suspicious e-mail alert on FortiSOAR, and after reviewing the executed playbook, you can see that it requires intervention.
What should be your next step?

- A. Go to the Incident Response tasks dashboard and run the pending actions
- B. Run the Mark Drive by Download playbook action
- C. Click on the notification icon on FortiSOAR GUI and run the pending input action
- D. Reply to the e-mail with the requested Playbook action

Answer: A

Explanation:
The exhibited playbook requires intervention, which means that the playbook has reached a point where it needs a human operator to take action. The next step should be to go to the Incident Response tasks dashboard and run the pending actions. This will allow you to see the pending actions that need to be taken and to take those actions.
The other options are not correct. Option B will only show you the notification icon, but it will not allow you to run the pending input action. Option C will run the Mark Drive by Download playbook action, but this is not the correct action to take in this case. Option D is not a valid option.
Here are some additional details about pending actions in FortiSOAR:
Pending actions are actions that need to be taken by a human operator.
Pending actions are displayed in the Incident Response tasks dashboard.
Pending actions can be run by clicking on the action in the dashboard.

NEW QUESTION # 97
Refer to the exhibits, which show a firewall policy configuration and a network topology.
An administrator has configured an inbound SSL inspection profile on a FortiGate device (FG-1) that is protecting a data center hosting multiple web pages-Given the scenario shown in the exhibits, which certificate will FortiGate use to handle requests to xyz.com?

- A. FortiGate will reject the connection since no certificate is defined.
- B. FortiGate will fall-back to the default Fortinet_CA_SSL certificate.
- C. FortiGate will use the Fortinet_CA_Untrusted certificate for the untrusted connection,
- D. FortiGate will use the first certificate in the server-cert list-the abc.com certificate

Answer: B

Explanation:
When using inbound SSL inspection, FortiGate needs to present a certificate to the client that matches the requested domain name. If no matching certificate is found in the server-cert list, FortiGate will fall-back to the default Fortinet_CA_SSL certificate, which is self-signed and may trigger a warning on the client browser. Reference:
https://docs.fortinet.com/document/fortigate/6.4.0/cookbook/103437/inbound-ssl-inspection

NEW QUESTION # 98
What is the benefit of using FortiGate NAC LAN Segments?

- A. It provides support for IGMP snooping between hosts within the same VLAN
- B. It allows for assignment of dynamic address objects matching NAC policy.
- C. It provides physical isolation without changing the IP address of hosts.
- D. It provides support for multiple DHCP servers within the same VLAN.

Answer: B

Explanation:
FortiGate NAC LAN Segments are a feature that allows users to assign different VLANs to different LAN segments without changing the IP address of hosts or bouncing the switch port. This provides physical isolation while maintaining firewall sessions and

avoiding DHCP issues. One benefit of using FortiGate NAC LAN Segments is that it allows for assignment of dynamic address objects matching NAC policy. This means that users can create firewall policies based on dynamic address objects that match the NAC policy criteria, such as device type, OS type, MAC address, etc. This simplifies firewall policy management and enhances security by applying different security profiles to different types of devices. Reference: https://docs.fortinet.com/document/fortigate/7.0.0/new-features/856212/nac-lan-segments-7-0-1

NEW QUESTION # 99
A Hub FortiGate is connecting multiple branch FortiGate devices separating the traffic centrally in unique VRFs. Routing information is exchanged using BGP between the Hub and the Branch FortiGate devices.
You want to efficiently enable route leaking of specific routes between the VRFs.
Which two steps are required to achieve this requirement? (Choose two.)

- A. Enable Multi-VDOM mode on the Hub FortiGate and add a VDOM to connect VRF10 and VRF12
- B. Configure route-maps to leak the selected routes using BGP
- C. Create a vdom link between VRF10 and VRF12
- D. Enable BGP recursive routing on the HUB FortiGate

Answer: B,C

Explanation:
https://docs.fortinet.com/document/fortigate/7.0.1/administration-guide/834664/route-leaking-between-vrfs- with-bgp

NEW QUESTION # 100
Refer to the exhibit.
What is happening in this scenario?

- A. The user has not authenticated on their external browser.
- B. The user status changed at FortiClient EMS to off-net.
- C. The user is authenticating against a FortiGate Captive Portal.
  C The user is authenticating against an IdP.

Answer: A

NEW QUESTION # 101
.....

Whether you are a newcomer or an old man with more experience, NSE8_812 study materials will be your best choice for our professional experts compiled them based on changes in the examination outlines over the years and industry trends. NSE8_812 test torrent not only help you to improve the efficiency of learning, but also help you to shorten the review time of up to several months to one month or even two or three weeks, so that you use the least time and effort to get the maximum improvement. And with our NSE8_812 Exam Questions, your success is guaranteed.
