About the Exam MB-800

Exam MB-800: Microsoft Dynamics 365 Business Central Functional Consultant is Microsoft's most recently launched certification exam for Dynamics 365 Business Central SaaS. It is intended for Functional Consultants, and it tests theoretical knowledge in implementing Business Central in small and medium-scale business processes. Stated another way, candidates for successful passing of this exam should have sufficient skills to configure role centers, including adapting cues, insights, reports, action tiles, charts, and extending Business Central by using Microsoft Power Platform components. Moreover, it is a required exam to earn the Microsoft Certified: Dynamics 365 Business Central Functional Consultant Associate certification.

The exam is taken in English and lasts for 130 minutes. It can also be accessed from any country in the world. However, the MB-800 Exam Cost differs from country to country. So, the registration fee is \$165 in the US. You can find out the fee for other countries on Microsoft's website. Note that the prices can change at any time and without notice. Don't be surprised if you find that the registration fee is different when you're registering for the exam.

Microsoft MB-800 Exam Tests your ability to configure and implement Microsoft Dynamics 365 Business Central for clients. MB-800 exam measures your understanding of the system's architecture, data migration, and business processes. The test also covers topics such as financial management, sales and purchase management, inventory management, and customer relationship management.

Microsoft Dynamics 365 Business Central Functional Consultant Sample Questions (Q176-Q181):

NEW QUESTION # 176

You set up a sales module for a company. The manager provides you with the company sales price list.

The correct net price for products must display when the sales team creates sales orders.

You need to configure the system.

Which setup types should you use? To answer, drag the appropriate setup types to the correct scenarios. Each setup type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Setup types	Answer Area								
<div>Sales Prices</div>	<table><thead><tr><th>Scenario</th><th>Setup type</th></tr></thead><tbody><tr><td>The company offers different discounts for different item types.</td><td><div>Setup type</div></td></tr><tr><td>Loyal customers are rewarded with additional discounts when a certain sales amount on an order is reached.</td><td><div>Setup type</div></td></tr><tr><td>Certain customers receive special prices for a certain amount of time.</td><td><div>Setup type</div></td></tr></tbody></table>	Scenario	Setup type	The company offers different discounts for different item types.	<div>Setup type</div>	Loyal customers are rewarded with additional discounts when a certain sales amount on an order is reached.	<div>Setup type</div>	Certain customers receive special prices for a certain amount of time.	<div>Setup type</div>
Scenario	Setup type								
The company offers different discounts for different item types.	<div>Setup type</div>								
Loyal customers are rewarded with additional discounts when a certain sales amount on an order is reached.	<div>Setup type</div>								
Certain customers receive special prices for a certain amount of time.	<div>Setup type</div>								
<div>Unit Price</div>

NEW QUESTION # 177

You are setting up the general journals and batches for an accounting department.

The accounting department has multiple users who will work simultaneously within different general journals.

You need to set up the different journal templates and batches for each user according to the company's requirements.

Which options should you use? To answer, drag the appropriate options to the correct requirements. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Options	Requirement	Option
Force Doc. Balance	Prefill the amount on journal lines based on the document number.	Option
No. Series	Assign document numbers to ledger entries, independently from the user's journal batch.	Option
Posting No. Series	Balance the journal lines by document type.	Option
Standard Journal Code		
Suggest Balancing Amount		

Answer:

Explanation:

Options	Requirement	Option
Force Doc. Balance	Prefill the amount on journal lines based on the document number.	Suggest Balancing Amount
No. Series	Assign document numbers to ledger entries, independently from the user's journal batch.	Posting No. Series
Posting No. Series	Balance the journal lines by document type.	Force Doc. Balance
Standard Journal Code		
Suggest Balancing Amount

NEW QUESTION # 178

A company adds a user to Microsoft 365.

Existing user groups do not have the required permission sets for newly added users.

You need to assign a Dynamics 365 Business Central user group and permissions to the user and the company.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

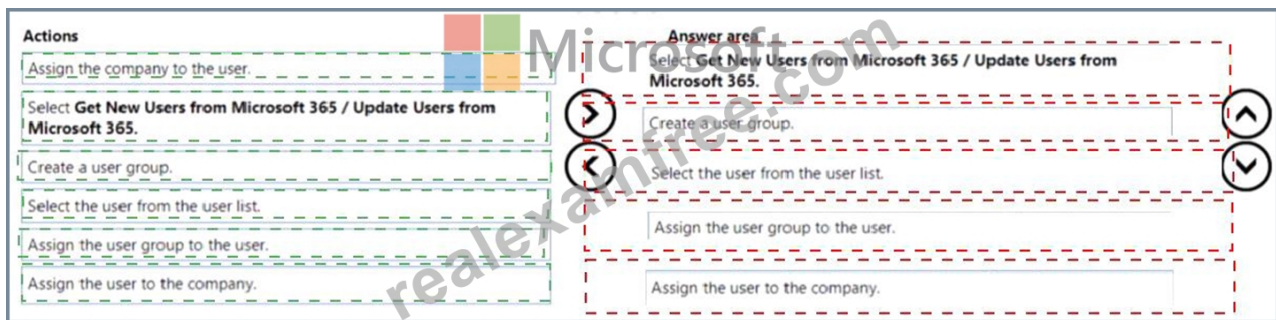

- Assign the company to the user.
- Select **Get New Users from Microsoft 365 / Update Users from Microsoft 365**.
- Create a user group.
- Select the user from the user list.
- Assign the user group to the user.
- Assign the user to the company.

Answer area

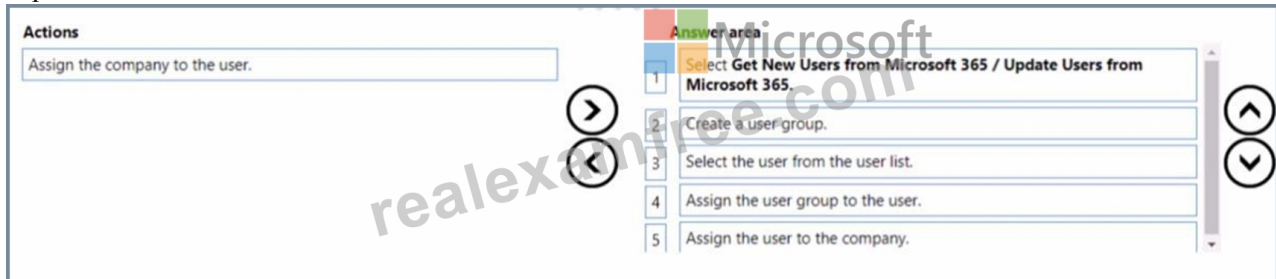

Microsoft

Answer:

Explanation:

Explanation:

NEW QUESTION # 179

You are implementing Dynamics 365 Business Central.

You are unable to view some expected functionality in the system.

You need to demonstrate the use of different options for assigning profiles to users.

In which three places can you assign profiles to users? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Add the user to the Profile card.
- B. Assign a User Group to the user. Assign the Profile to the User Group.
- C. Assign a Profile on the User Personalization page.
- D. Accept the default Profile.
- E. Assign the Profile on the User card.

Answer: B,C,D

Explanation:

Profiles (roles) define what a user sees when they sign in. They can be assigned in three ways:

- * By linking User Groups (profiles can be attached to groups).
- * On the User Personalization page directly per user.
- * By default profile assignment (if no explicit profile is set, the system applies a default).

The User Card and Profile Card don't directly assign profiles.

NEW QUESTION # 180

A company is implementing Dynamics 365 Business Central.

You need to create a new company that is configured similarly to an existing company. The existing company has data that must be used as a template for the new company.

Which tools should you use? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Requirement	Tool
Assisted Setup	Create the first essential data components of a company, such as the company name.	
RapidStart Services	Run a series of setup tasks in a specific order and manually mark the tasks as completed once the tasks are finished.	
Configuration Questionnaire	Template the existing data and apply the template to the new company in a single process.	

Answer:

Explanation:

Tools	Requirement	Tool
Assisted Setup	Create the first essential data components of a company, such as the company name.	Assisted Setup
RapidStart Services	Run a series of setup tasks in a specific order and manually mark the tasks as completed once the tasks are finished.	Configuration Questionnaire
Configuration Questionnaire	Template the existing data and apply the template to the new company in a single process.	RapidStart Services
