The aim of Exam4Docs is to support you in passing the Huawei H13-511\_V5.5 certification exam. Exam4Docs present actual Huawei H13-511\_V5.5 practice test questions for you. The world's skilled professionals share their best knowledge with Exam4Docs and create this set of actual HCIA-Cloud Computing V5.5 H13-511\_V5.5

The clients can consult our online customer service before and after they buy our H13-511\_V5.5 study materials. We provide considerate customer service to the clients. Before the clients buy our H13-511\_V5.5 study materials they can consult our online customer service personnel about the products' version and price and then decide whether to buy them or not. After the clients buy the H13-511\_V5.5 study materials they can consult our online customer service about how to use them and the problems which occur during the process of using. If the clients fail in the test and require the refund our online customer service will reply their requests quickly and deal with the refund procedures promptly. In short, our online customer service will reply all of the clients' questions about the H13-511\_V5.5 Study Materials timely and efficiently.

## Exam Huawei H13-511\_V5.5 Syllabus, Study H13-511\_V5.5 Demo

People always tend to neglect the great power of accumulation, thus the H13-511\_V5.5 study materials can not only benefit one's learning process but also help people develop a good habit of preventing delays. We have full confidence to ensure that you will

have an enjoyable study experience with our H13-511\_V5.5 Study Materials, which are designed to arouse your interest and help you pass the exam more easily. You will have a better understanding after reading the following advantages.

## Huawei HCIA-Cloud Computing V5.5 Sample Questions (Q106-Q111):

### NEW QUESTION # 106

FusionCompute supports the following memory overcommitment technologies: memory sharing, memory swapping, and memory ballooning. After host memory overcommitment is enabled in cluster resource control, one of the preceding memory overcommitment technologies needs to be selected.

- A. FALSE
- B. TRUE

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation (HCIA-Cloud Computing aligned):

FusionCompute supports memory overcommitment to improve overall memory utilization in virtualized environments. The supported technologies include:

- \* Memory sharing
- \* Memory ballooning
- \* Memory swapping

According to HCIA-Cloud Computing materials, after enabling memory overcommitment in cluster resource control, administrators must select at least one memory overcommitment mechanism to take effect.

Therefore, the statement correctly describes FusionCompute behavior and is TRUE.

### NEW QUESTION # 107

Which of the following descriptions about clusters, hosts, and virtual machines in Huawei FusionComputer is incorrect?

- A. Hosts can move between clusters
- B. A cluster is composed of multiple hosts and their associated storage and network resources
- C. Virtual machines can be moved across clusters
- D. Whether multiple hosts belong to the same cluster depends on whether they use the same shared storage

**Answer: D**

### NEW QUESTION # 108

At which layer of the TCP/IP reference model does a router work?

- A. Application layer
- B. Network layer
- C. Data link layer
- D. Transport layer

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation (HCIA-Cloud Computing aligned):

The HCIA-Cloud Computing syllabus explains that routers are responsible for inter-network communication and packet forwarding based on IP addresses. In the TCP/IP reference model, this function corresponds to the Network layer.

Routers analyze the destination IP address of a packet and use routing tables and routing protocols to determine the best path for forwarding the packet to its destination. This behavior is distinct from switches, which forward frames based on MAC addresses at the data link layer.

The Data link layer (A) is associated with switches, the Transport layer (D) handles end-to-end communication (such as TCP and UDP), and the Application layer (C) provides services to applications.

Therefore, according to HCIA-Cloud Computing network fundamentals, the correct answer is Network layer.

### NEW QUESTION # 109

The DVS in FusionCompute supports SRIOV pass-through mode. Which of the following descriptions about this feature are correct? (Multiple choice)

- A. Reduce the I/O overhead of the software simulation layer
- B. Satisfy business requirements with high bandwidth requirements such as web video on demand
- C. It can accelerate the forwarding performance of the physical network-card
- D. Does not affect the virtual machine migration function

**Answer: A,B,C**

### NEW QUESTION # 110

When an administrator uses a linked clone template to quickly provision virtual machines (VMs) on FusionAccess, which of the following are the steps of the quick provision process?

- A. Rename the VM.
- B. Add the VM to a domain.
- C. Associate the VM with a user group.
- D. Create a VM.

**Answer: A,B,C,D**

Explanation:

Comprehensive and Detailed Explanation (HCIA-Cloud Computing aligned):

Quick provisioning using a linked clone template is designed to rapidly deploy desktops while ensuring standardization and automation.

According to HCIA-Cloud Computing FusionAccess service provisioning procedures, the quick provision workflow includes:

- \* Creating the VM based on the linked clone template and snapshot.
- \* Renaming the VM to meet enterprise naming rules.
- \* Adding the VM to the domain, enabling centralized authentication and policy control.
- \* Associating the VM with a user or user group, which determines desktop assignment and access permissions.

All listed operations are integral steps in the linked clone quick provisioning process. Therefore, all options are correct.

### NEW QUESTION # 111

.....

We strongly recommend using our HCIA-Cloud Computing V5.5 (H13-511\_V5.5) exam dumps to prepare for the Huawei H13-511\_V5.5 certification. It is the best way to ensure success. With our HuaweiH13-511\_V5.5 practice questions, you can get the most out of your studying and maximize your chances of passing your Huawei H13-511\_V5.5 Exam. Exam4Docs Huawei H13-511\_V5.5 practice test Exam4Docs is the answer if you want to score higher in the H13-511\_V5.5 exam and achieve your academic goals.
