This training material is not only have reasonable price, and will save you a lot of time. You can use the rest of your time to do more things. So that you can achieve a multiplier effect.

Google Associate Google Workspace Administrator Sample Questions (Q56-

Q61):

NEW QUESTION # 56

Your company wants to minimize distractions and inappropriate content in their Google Chat spaces. You need to give trusted employees the ability to remove messages and ban users from specific Chat spaces. What should you do?

- A. Create a data loss prevention (DLP) rule that blocks inappropriate content from being shared
- B. Use the security investigation tool to audit and monitor Chat messages.
- C. Disable all Chat spaces except those specifically approved by management.
- **D. Assign the trusted employees as moderators for the relevant Chat spaces.**

Answer: D

Explanation:

Assigning trusted employees as moderators for the relevant Chat spaces will give them the necessary privileges to remove messages and ban users when needed. This is the most efficient way to control inappropriate content and maintain a positive and productive environment within the spaces. Moderators can take action to address issues directly without requiring more complex or restrictive solutions.

NEW QUESTION # 57

Your CEO travels frequently, and multiple executive assistants need email access. What should you do?

- A. Provide assistants with the CEO's password.
- **B. Create a group of assistants and enable delegated access to the CEO's mailbox.**
- C. Log into the CEO's account and set up shared aliases.
- D. Enable users to customize sender information.

Answer: B

Explanation:

Delegated access allows assistants to manage the CEO's email without sharing credentials.

Delegation to a group simplifies administration.

NEW QUESTION # 58

Your organization collects credit card information in customer files. You need to implement a policy for your organization's Google Drive data that prevents the accidental sharing of files that contain credit card numbers with external users. You also need to record any sharing incidents for reporting. What should you do?

- **A. Create a data loss prevention (DLP) rule that uses the predefined credit card number detector, sets the action to "block external sharing", and enables the "Log event" option.**
- B. Enable Gmail content compliance, and create a rule to block email attachments containing credit card numbers from being sent to external recipients.
- C. Implement a third-party data loss prevention solution to integrate with Drive and provide advanced content detection capabilities.
- D. Configure a data retention policy to automatically delete files containing credit card numbers after a specified period.

Answer: A

Explanation:

A data loss prevention (DLP) rule with the predefined credit card number detector will help you identify and prevent the accidental sharing of files that contain sensitive credit card information. Setting the action to "block external sharing" ensures that such files cannot be shared externally. Enabling the "Log event" option will record any incidents of external sharing for auditing and reporting purposes, fulfilling both the security and reporting requirements.

NEW QUESTION # 59

Your company has recently purchased a new domain name to use for the corporate email addresses. However, you are unable to access certain features in Google Workspace because the domain is not verified. You need to verify the domain. What should you

do?

- A. Purchase a SSL certificate for your domain.
- B. Add an MX record to your DNS zone that points to Google Workspace.
- **C. Request a TXT record be added to the DNS zone by your domain registrar.**
- D. Contact Google support and request manual verification.

Answer: C

Explanation:

To verify a domain name with Google Workspace and gain access to all its features, you typically need to prove that you own the domain. One of the most common methods for doing this is by adding a specific TXT record to your domain's DNS (Domain Name System) zone. Google provides this unique TXT record, and once it's published in your DNS, Google can verify your ownership.

NEW QUESTION # 60

Your organization uses live-streaming to host large Google Meet meetings. You need to limit the participation to affiliated Google Workspace domains by using the Admin console. What should you do?

- A. Add the Trusted Workspace domain names in the Stream dialog box.
- B. Turn off live streaming to Youtube.
- **C. Add participants to an organizational unit (OU). Turn on live streaming.**
- D. Turn on in-house live streaming. Invite users from affiliated domains.

Answer: C

Explanation:

By organizing participants into an organizational unit (OU) in the Admin console, you can control access to live streaming and ensure that only users from affiliated Google Workspace domains are allowed to participate in the live-streamed meetings. Turning on live streaming within this context will ensure that the meeting is restricted to the appropriate participants from the specified domains.

NEW QUESTION # 61

.....

Revised and updated according to the syllabus changes and all the latest developments in theory and practice, our Associate-Google-Workspace-Administrator dumps are highly relevant to what you actually need to get through the certifications tests.
