Pass Guaranteed Quiz 2026 Efficient APMG-International Reliable ISO-IEC-27001-Foundation Dumps Ebook

Before you really attend the ISO-IEC-27001-Foundation exam and choose your materials, we want to remind you of the importance of holding a certificate like this one. Obtaining a ISO-IEC-27001-Foundation certificate likes this one can help you master a lot of agreeable outcomes in the future, like higher salary, the opportunities to promotion and being trusted by the superiors and colleagues. Our ISO-IEC-27001-Foundation Exam Questions can help you achieve all of your dreams.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q41-Q46):

NEW QUESTION # 41

Which International Standard can be used to implement an integrated management system with ISO/IEC 27001?

- A. ISO/IEC 27003
- **B. ISO/IEC 27013**
- C. None of the above
- D. ISO 9001

Answer: B

Explanation:

ISO/IEC 27013 provides specific guidance on the integration of ISO/IEC 27001 (Information Security Management) and ISO/IEC 20000-1 (IT Service Management). It offers practical advice for organizations seeking a unified management system approach. While ISO/IEC 27003 (A) provides guidance on ISMS implementation, it does not address integration. ISO 9001 (C) is the Quality Management Standard and can be integrated, but the specific standard designed for integrating 27001 with ITSM is ISO/IEC 27013. Therefore, the correct answer is B: ISO/IEC 27013, as it is explicitly published for this purpose.

NEW QUESTION # 42

Identify the missing word in the following sentence.

The organization shall determine the [?] of interested parties relevant to information security.

- A. influence
- B. structure
- **C. requirements**
- D. number

Answer: C

Explanation:

Clause 4.2 of ISO/IEC 27001:2022 states:

"The organization shall determine: a) interested parties that are relevant to the information security management system; b) the relevant requirements of these interested parties; c) which of these requirements will be addressed through the ISMS." This confirms that the missing word is requirements. Neither number, structure, nor influence are specified in the standard.

NEW QUESTION # 43

When are the information security policies required to be reviewed, according to the Policies for information security control?

- A. According to a schedule defined by the Certification Body
- B. Every six months
- C. Annually
- **D. At planned intervals and if significant changes occur**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.1 (Policies for information security) specifies:

"Information security policy and topic-specific policies should be defined, approved by management, published, communicated to and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur." This clearly identifies the review frequency requirement: planned intervals and whenever there are significant changes. Options A and B (six-monthly or annually) are not prescribed by ISO - timing is left to the organization. Option C is also wrong, since Certification Bodies do not dictate policy review schedules.

Therefore, the verified correct answer is D.

NEW QUESTION # 44

Which statement describes the control for the Compliance with policies, rules and standards for information security within Annex A of ISO/IEC 27001?

- A. Regular review of compliance
- B. Maintain contact with legal authorities
- C. Regular review of contractual compliance
- D. Return assets to their legal owners

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.36 (Compliance with policies, rules and standards for information security) requires:

"Compliance with the organization's information security policies, rules and standards for information security should be regularly reviewed." This directly matches option A. Option B refers to contractual compliance, which is part of supplier management controls (Annex A.5.19). Option C relates to Annex A.5.7 (Contact with authorities). Option D refers to asset return controls (Annex A.5.9).

Thus, the correct answer is A.

NEW QUESTION # 45

Identify the missing word(s) in the following sentence.

When planning the ISMS, the organization is specifically required to plan actions to address risks and opportunities and how to [?] these actions.

- A. improve the effectiveness of
- B. communicate
- C. apply competent resources to
- D. evaluate the effectiveness of

Answer: D

Explanation:

Clause 6.1.1 (Planning) states:

"The organization shall plan:

d) actions to address these risks and opportunities; and

e) how to:

* integrate and implement the actions into its ISMS processes; and

* evaluate the effectiveness of these actions."

This confirms the missing words are "evaluate the effectiveness of". Communication (A), applying resources (B), and improving effectiveness (C) are important concepts elsewhere but not the direct requirement stated in this clause.

NEW QUESTION # 46

.....

We provide varied functions to help the learners learn our ISO-IEC-27001-Foundation study materials and prepare for the exam. The self-learning and self-evaluation functions of our ISO-IEC-27001-Foundation exam questions help the learners check their learning results and the statistics and report functions help the learners find their weak links and improve them promptly. And you will be more confident as you know the inform of the ISO-IEC-27001-Foundation Exam and the questions and answers.

Pass ISO-IEC-27001-Foundation Guaranteed: <https://www.dumpstorrent.com/ISO-IEC-27001-Foundation-exam-dumps-torrent.html>
