

# 100% Pass HP - HPE7-A01 - High-quality Aruba Certified Campus Access Professional Exam Updated Dumps

BTW, DOWNLOAD part of iPassleader HPE7-A01 dumps from Cloud Storage: [https://drive.google.com/open?id=1JA\\_fdKo-4\\_E-T4ZN2hNWRG2alsSOr0qC](https://drive.google.com/open?id=1JA_fdKo-4_E-T4ZN2hNWRG2alsSOr0qC)

You may never have thought that preparing for the upcoming HPE7-A01 certification exam would be so simple. The good news is that the HPE7-A01 exam material of our iPassleader has been successful for all users who have used it to think that passing the exam is a simple matter! After using our HPE7-A01 exam materials, they all passed the exam easily and thought it was a valuable learning experience. Learn and practice our HPE7-A01 exam questions during the preparation of the exam, it will answer all your doubts. This process of learning left a deep impression on candidates. The exciting HPE7-A01 Exam Material is a product created by professionals who have extensive experience in designing exam materials. These professionals have an in-depth understanding of the candidate's questions and requirements, so our HPE7-A01 exam questions meets and exceeds your expectations. Learn and practice our exams so that you can easily pass candidates and have a valuable learning experience.

When preparing to take the HPE7-A01 exam dumps, knowing where to start can be a little frustrating, but with HP HPE7-A01 practice questions, you will feel fully prepared. Using our HPE7-A01 practice test iPassleader, you can prepare for the increased difficulty on HPE7-A01 Exam day. Plus, we have various question types and difficulty levels so that you can tailor your HPE7-A01 exam dumps preparation to your requirements.

## Exam HPE7-A01 Online - Test HPE7-A01 King

To meet the needs of users, and to keep up with the trend of the examination outline, our products will provide customers with latest version of our products. Our company's experts are daily testing our HPE7-A01 learning materials for timely updates. So we solemnly promise the users, our products make every effort to provide our users with the latest learning materials. As long as the users choose to purchase our HPE7-A01 learning material, there is no doubt that he will enjoy the advantages of the most powerful update.

## HP Aruba Certified Campus Access Professional Exam Sample Questions (Q61-Q66):

### NEW QUESTION # 61

A customer wants to deploy a Gateway and take advantage of all the SD-WAN features. Which persona role option should be selected?

- A. ArubaOS 10 VPN Concentrator
- B. ArubaOS 10 Branch
- C. ArubaOS 10 Wireless

- D. ArubaOS 10 Mobility

**Answer: B**

Explanation:

Explanation

The persona role option that should be selected to deploy a Gateway and take advantage of all the SD-WAN features is A. ArubaOS 10 Branch.

ArubaOS 10 Branch is a persona that enables the Gateway to provide both LAN and WAN functionality for branch networks. The Gateway can act as a wireless controller, a router, a firewall, and an SD-WAN device.

The SD-WAN features include route and tunnel orchestration, dynamic path steering, forward error correction, SaaS traffic optimization, SASE orchestration, and more<sup>1</sup>.

The other options are incorrect because:

B: ArubaOS 10 VPN Concentrator: This is a persona that enables the Gateway to act as a VPN concentrator for remote access or site-to-site VPN connections. It does not provide SD-WAN features<sup>2</sup>.

C: ArubaOS 10 Wireless: This is a persona that enables the Gateway to act as a wireless controller for campus networks. It does not provide SD-WAN features<sup>3</sup>.

D: ArubaOS 10 Mobility: This is a persona that enables the Gateway to act as a mobility controller for campus networks. It does not provide SD-WAN features.

## NEW QUESTION # 62

Which method is used to onboard a new UXI in an existing environment with 802.1X authentication? (The sensor has no cellular connection)

- A. Connect the new UXI from an already installed one and adjust the initial configuration.
- B. Use the Aruba installer app on your smartphone to scan the barcode
- **C. Use the UXI app on your smartphone and connect the UXI via Bluetooth**
- D. Use the CLI via the serial cable and adjust the initial configuration.

**Answer: C**

Explanation:

Explanation

To onboard a new UXI in an existing environment with 802.1X authentication, you need to use the UXI app on your smartphone and connect the UXI via Bluetooth. The UXI app allows you to scan the QR code on the UXI sensor and configure its network settings, such as SSID, password, IP address, etc. The Bluetooth connection allows you to communicate with the UXI sensor without requiring any network access or cellular connection. The other options are incorrect because they either do not use the UXI app or do not use Bluetooth. References:

[https://help.centralon-prem.arubanetworks.com/2.5.4/documentation/online\\_help/content/nms-on-prem/aos-cx/g](https://help.centralon-prem.arubanetworks.com/2.5.4/documentation/online_help/content/nms-on-prem/aos-cx/g)

## NEW QUESTION # 63

A customer is using stacked Aruba CX 6200 and CX 6300 switches for access and a VSX pair of Aruba CX 8325 as a collapsed core. 802.1X is implemented for authentication. Due to the lack of cabling, some unmanaged switches are still in use. Sometimes devices behind these switches cause network outages. The switch should send a warning to the helpdesk when the problem occurs. You have been asked to implement an effective solution to the problem.

What is the solution for this?

- A. Configure spanning tree on the Aruba CX 6200 and CX 6300 switches No trap option is needed
- **B. Configure loop protection on all edge ports of the Aruba CX 6200 and CX 6300 switches Set up the trap-option**
- C. Configure spanning tree on the Aruba CX 8325 switches Set the trap-option
- D. Configure loop protection on all edge ports of the Aruba CX 6200 and CX 6300 switches No trap option is needed

**Answer: B**

Explanation:

This is the correct solution to the problem of devices behind unmanaged switches causing network outages due to loops. Loop protection is a feature that allows an Aruba CX switch to detect and prevent loops by sending loop protection packets on each port, LAG, or VLAN on which loop protection is enabled. If a loop protection packet is received by the same switch that sent it, it

indicates a loop exists and an action is taken based on the configuration. Loop protection should be configured on all edge ports of the Aruba CX 6200 and CX 6300 switches, which are the ports that connect to end devices or unmanaged switches. The trap-option should be set up to send a warning to the helpdesk when a loop is detected. The other options are incorrect because they either do not configure loop protection or do not set up the trap-option.

#### NEW QUESTION # 64

What are two advantages of splitting a larger OSPF area into a number of smaller areas? (Select two )

- A. It extends the LSDB
- B. it simplifies the configuration.
- C. It reduces the total number of LSAs
- **D. It reduces processing overhead.**
- **E. It increases stability**

**Answer: D,E**

Explanation:

Splitting a larger OSPF area into a number of smaller areas has several advantages for network scalability and performance. Some of these advantages are:

\* It increases stability by limiting the impact of topology changes within an area. When a link or router fails in an area, only routers within that area need to run the SPF algorithm and update their routing tables. Routers in other areas are not affected by the change and do not need to recalculate their routes.

\* It reduces processing overhead by reducing the size and frequency of link-state advertisements (LSAs).

LSAs are packets that contain information about the network topology and are flooded within an area.

By dividing a network into smaller areas, each area has fewer LSAs to generate, store, and process, which saves CPU and memory resources on routers.

\* It reduces bandwidth consumption by reducing the amount of routing information exchanged between areas. Routers that connect different areas, called area border routers (ABRs), summarize the routing information from one area into a single LSA and advertise it to another area. This reduces the number of LSAs that need to be transmitted across area boundaries and saves network bandwidth.

#### NEW QUESTION # 65

What is the best practice for handling voice traffic with dynamic segmentation on AOS-CX switches?

- A. Central authentication and port-based tunneling of the voice traffic.
- B. Controller authentication and port-based tunneling of all traffic
- **C. Switch authentication and local forwarding of the voice traffic**
- D. Switch authentication and user-based tunneling of the voice traffic.

**Answer: C**

Explanation:

This is the best practice for handling voice traffic with dynamic segmentation on AOS-CX switches. Dynamic segmentation is a feature that allows AOS-CX switches to tunnel user traffic to a controller or another switch based on user roles and policies. For voice traffic, it is recommended to use switch authentication and local forwarding, which means the voice devices are authenticated by the switch and their traffic is forwarded locally without tunneling. This reduces latency and jitter for voice traffic and improves voice quality. The other options are incorrect because they either use central authentication or tunneling, which are not optimal for voice traffic.

#### NEW QUESTION # 66

.....

As the talent team grows, every fighter must own an extra technical skill to stand out from the crowd. To become more powerful and struggle for a new self, getting a professional HPE7-A01 certification is the first step beyond all questions. We suggest you choose our HPE7-A01 test prep ----an exam braindump leader in the field. Since we release the first set of the HPE7-A01 quiz guide, we

have won good response from our customers and until now---a decade later, our products have become more mature and win more recognition. We promise to give you a satisfying reply as soon as possible. All in all, we take an approach to this market by prioritizing the customers first, and we believe the customer-focused vision will help our HPE7-A01 Test Guide' growth.

**Exam HPE7-A01 Online:** <https://www.ipassleader.com/HP/HPE7-A01-practice-exam-dumps.html>

We believe our HPE7-A01 exam questions will meet all demand of all customers, So, if you are going to take the Exam HPE7-A01 Online - Aruba Certified Campus Access Professional Exam exam certification, I think you should practice the exams, Why don't you, HP HPE7-A01 Updated Dumps Of course, our study materials are able to shorten your learning time, Once you use our HPE7-A01 study prep to aid your preparation of the exam, all of your exercises of the study materials will be carefully recorded on the system of the HPE7-A01 exam braindump.

They must be able to lead a team, motivate them and bring out the best in them, So it is incumbent upon us to support you, We believe our HPE7-A01 Exam Questions will meet all demand of all customers.

## **100% Free HPE7-A01 – 100% Free Updated Dumps | the Best Exam Aruba Certified Campus Access Professional Exam Online**

So, if you are going to take the Aruba Certified Campus Access Professional Exam exam certification, HPE7-A01 I think you should practice the exams, Why don't you, Of course, our study materials are able to shorten your learning time.

Once you use our HPE7-A01 study prep to aid your preparation of the exam, all of your exercises of the study materials will be carefully recorded on the system of the HPE7-A01 exam braindump.
