If you are still troubled for the VMware 3V0-32.23 Certification Exam, then select the ExamsReviews's training materials please. ExamsReviews's VMware 3V0-32.23 exam training materials is the best training materials, this is not doubt. Select it will be your best choice. It can guarantee you 100% pass the exam. Come on, you will be the next best IT experts.

## VMware Cloud Management and Automation Advanced Design Sample Questions (Q44-Q49):

### NEW QUESTION # 44

An architect is designing a VMware Aria Operations for Logs cluster for an organization. The organization has the following

requirements:

No requirement for archival data  
Support a log data retention period of 14 days

How will the log data be handled in this VMware Aria Operations for Logs cluster after the 14-day retention period?

- A. Old log messages are automatically and periodically retired on least accessed basis.
- B. **Old log messages are automatically and periodically retired on a first-come-first-retired basis.**
- C. The user needs to manually select and delete specific old log messages to free up space.
- D. A variable sized chunk of old log messages is deleted to free up space based on the data age basis.

**Answer: B**

Explanation:

VMware Aria Operations for Logs automatically deletes log data older than the defined retention period (in this case, 14 days) using a first-come-first-retired method, ensuring compliance with the retention policy without manual intervention.

#### NEW QUESTION # 45

What is the primary focus of a logical design?

- A. Selecting specific technologies and tools.
- B. **Defining the overall system architecture.**
- C. Creating a detailed implementation plan.
- D. Outlining the physical placement of hardware.

**Answer: B**

#### NEW QUESTION # 46

What is the primary focus of a Cloud Management logical design?

- A. **Designing the overall architecture and integration of cloud management tools.**
- B. Determining the connections between different virtual machines.
- C. Outlining the user interface and interaction design.
- D. Defining the physical hardware requirements.

**Answer: A**

#### NEW QUESTION # 47

An architect is responsible for designing a new multi-cloud management solution for a customer.

The customer has a cloud first strategy and has provided the following high-level information about their current usage of the cloud:

- The customer has public cloud presence in AWS, Azure and GCP and uses a number of native cloud services.
- The customer runs all vSphere-based workloads within VMware Cloud on AWS.
- The customer would like to ensure they have the ability to deploy and monitor supported workloads and native services in any of their clouds.

In addition to the deployment of vRealize Automate Cloud, which two recommendations should the architect make to meet the requirement? (Choose two.)

- A. **vRealize Operations Cloud and vRealize Log Insight Cloud must be deployed into the same organizations as VMware Cloud on AWS.**
- B. Create Cloud accounts in vRealize Operations Cloud for AWS, Azure and VMware Cloud on AWS. GCP must be configured through the management pack.
- C. vRealize Operations Cloud and vRealize Log Insight Cloud must be deployed into the same organization as vRealize Automation Cloud.
- D. **Deploy a vRealize Operations Cluster in VMware Cloud on AWS and configure integration to vRealize Automation Cloud.**
- E. Create Cloud accounts in vRealize Operations Cloud with each of the cloud services to enable monitoring.

**Answer: A,D**

## NEW QUESTION # 48

An organization wants to implement a network topology to provide users with a one-way upstream access to the external network. Which two statements are true for implementing such a network profile type using NSX-T Data Center?  
(Choose two.)

- A. The cloud template must use the "private" network profile type
- B. The external network specified in the "Network Policies" tab will be used to assign an external IP to the VM
- C. A DNAT rule is created on the Tier-1 router to allow the VM to communicate externally
- D. The external network should be left blank in the "Network Policies" tab
- E. An SNAT rule is created on the Tier-1 router to allow the VM to communicate externally

**Answer: B,E**

## NEW QUESTION # 49

.....

Do you notice that someone have a promotion suddenly as you may think you have similar work ability with him and you also work hard? ( 3V0-32.23 reliable exam dumps) Maybe a valid VMware certification may be the key.
