

Exam H19-401_V2.0 Materials & Test H19-401_V2.0 Questions Fee

H19-119 Exam

Your Success Story with Study Tips & Materials

“ To kick off my preparation, I collected all the essential materials, such as the syllabus, study guides, practice tests, and relevant books. This structured approach enabled me to focus systematically on certfun.com. I took advantage of the practice tests to evaluate my understanding and pinpoint areas for improvement. These simulations proved invaluable, closely resembling the actual exam format and significantly reducing my anxiety. ”

@certfun

Our company attaches great importance on improving the H19-401_V2.0 study prep. In addition, we clearly know that constant improvement is of great significance to the survival of a company. The fierce competition in the market among the same industry has long existed. As for our H19-401_V2.0 exam braindump, our company masters the core technology, owns the independent intellectual property rights and strong market competitiveness. What is more, we have never satisfied our current accomplishments. Now, our company is specialized in design, development, manufacturing, marketing and retail of the H19-401_V2.0 Test Question, aimed to provide high quality product, solutions based on customer's needs and perfect service of the H19-401_V2.0 exam braindump. At the same time, we have formed a group of passionate researchers and experts, which is our great motivation of improvement. Every once in a while we will release the new version study materials. You will enjoy our newest version of the H19-401_V2.0 study prep after you have purchased them. Our ability of improvement is stronger than others. New trial might change your life greatly.

Icertking provides the H19-401_V2.0 Exam Questions and answers guide in PDF format, making it simple to download and use on any device. You can study at your own pace and convenience with the Huawei H19-401_V2.0 PDF Questions, without having to attend any in-person seminars. This means you may study for the H19-401_V2.0 exam from the comfort of your own home whenever you want.

HOT Exam H19-401_V2.0 Materials - Huawei HCSP-Presales-Campus Network Planning and Design V2.0 - High Pass-Rate Test H19-401_V2.0 Questions Fee

With all these features, another plus is the easy availability of Icertking's products. They are instantly downloadable and supported with our online customer service to answer your queries promptly. Your preparation for exam H19-401_V2.0 with Icertking will surely be worth-remembering experience for you!

Huawei HCSP-Presales-Campus Network Planning and Design V2.0 Sample Questions (Q18-Q23):

NEW QUESTION # 18

Which of the following statements are true about the wireless traffic forwarding modes on a fabric wireless network?

- A. Direct forwarding is more efficient.
- B. Tunnel forwarding facilitates centralized management and control of wireless traffic.
- C. Tunnel forwarding has the disadvantage of traffic detour, which increases the forwarding performance pressure on the WAC.
- D. Direct forwarding is not suitable for scenarios that have high requirements on roaming performance. This is because roaming performance deteriorates slightly when a STA roams across edges.

Answer: A,B,C,D

Explanation:

Huawei supports two main forwarding modes in its wireless architecture:

* Tunnel Forwarding (A, C): All data traffic is encapsulated in CAPWAP and sent to the WAC. This simplifies security policy enforcement but causes "traffic detour" and places a heavy processing load on the WAC.

* Direct Forwarding (B, D): APs switch traffic locally. This is highly efficient and reduces core congestion. However, because traffic is released at the edge, maintaining session continuity (roaming) across different Layer 3 boundaries can be more complex, potentially leading to slight performance dips during inter-edge handovers compared to centralized tunneling.

NEW QUESTION # 19

Which of the following are slicing technology implementation solutions?

- A. Flex-channel
- B. Slice ID
- C. FlexE
- D. Channelized sub-interface

Answer: A,C,D

Explanation:

In the Xinghe Intelligent Campus solution, "Network Slicing" is used to provide hard or soft isolation for different services (e.g., separating video conferencing from guest Wi-Fi). The three primary implementation solutions (resource isolation methods) defined in the HCSP V2.0 curriculum are:

* FlexE (Flexible Ethernet) (A): Provides physical-layer hard isolation by dividing the MAC/PHY interface into slots.

* Flex-channel (Flexible Channel) (C): A Huawei-patented technology that provides dedicated bandwidth with nearly zero interference.

* Channelized sub-interface (D): Uses sub-interfaces with reserved bandwidth to provide logical isolation.

Slice ID (B) is an identifier carried in the packet header (such as the IPv6/SRv6 extension header) used to map traffic to a specific slice; it is a label/identifier, not the underlying resource isolation technology implementation itself.

NEW QUESTION # 20

Which of the following scenarios can Huawei's cloud-managed campus network solution apply to?

- A. Shopping mall/Supermarket
- B. Micro store
- C. Primary/Secondary school
- D. Hotel

Answer: A,B,C,D

Explanation:

Huawei's CloudCampus Solution is designed for high scalability and multi-branch management. It is specifically recommended in the V2.0 design guides for:

* Retail (A, D): Centralized management of many small, geographically dispersed stores.

* Education (B): Simplified O & M for K-12 schools with limited IT staff.

* Hospitality (C): Fast deployment and easy guest Wi-Fi management for hotels.

NEW QUESTION # 21

Which of the following are the advantages of SDN?

- A. Network virtualization
- B. Rapid service provisioning
- C. Network automation
- D. Open programmability

Answer: A,B,C,D

NEW QUESTION # 22

Which of the following packet priority queues are supported over the air interface?

- A. BE queue
- B. VO queue
- C. VI queue
- D. BK queue

Answer: A,B,C,D

Explanation:

Huawei's air interface scheduling follows the WMM (Wi-Fi Multimedia) standard, which maps data packets into four Access Categories (ACs) to ensure Quality of Service (QoS). These queues are:

- * VO (Voice): Highest priority for low-latency voice traffic.
- * VI (Video): High priority for video streaming.
- * BE (Best Effort): Standard priority for general data traffic.
- * BK (Background): Lowest priority for non-time-critical tasks like file downloads or print jobs.

NEW QUESTION # 23

.....

Will you feel nervous in the exam? If you do, just try us H19-401_V2.0 study materials, we will release your nerves as well build up your confidence for the exam. H19-401_V2.0 Soft test engine can stimulate the real exam environment, so that you can know the procedure of the real exam, and your nervous will be relieved. In addition, H19-401_V2.0 Study Materials are high quality, and they can help you pass the exam. They also contain both questions and answers, you can have a quickly check after practicing.
