NEW QUESTION # 191
Which security model assumes an attacker within and outside of the network and enforces strict verification before connecting to any system or resource within the organization?

- A. Zero Trust
- B. Take-Grant
- C. Object-capability
- D. Biba

Answer: A

Explanation:
Zero Trust security is an IT security model that requires strict identity verification for every person and device trying to access resources on a private network, regardless of whether they are sitting within or outside of the network perimeter.

NEW QUESTION # 192
Refer to the exhibit.

Employee Name	Role
Employee 1	Chief Accountant
Employee 2	Head of Managed Cyber Security Services
Employee 3	System Administration
Employee 4	Security Operation Center Analyst
Employee 5	Head of Network & Security Infrastructure Services
Employee 6	Financial Manager
Employee 7	Technical Director

A suspicious IP address is tagged by Threat Intelligence as a brute-force attempt source After the attacker produces many of failed login entries, it successfully compromises the account. Which stakeholder is responsible for the incident response detection step?

- A. employee 2
- B. employee 5
- C. employee 3
- D. employee 4

Answer: D

Explanation:
In the context of incident response, the detection step involves identifying potential security incidents. The Security Operation Center (SOC) Analyst, which in this case is Employee 4, is typically responsible for monitoring and analyzing security alerts to detect suspicious activities such as brute-force attempts. Therefore, Employee 4 would be the stakeholder responsible for the incident response detection step. Reference: The role of a SOC Analyst in incident response is outlined in cybersecurity frameworks and best

practices, which describe the responsibilities of various stakeholders in detecting and responding to security incidents.

NEW QUESTION # 193

Refer to the exhibit.

```
10.44.101.23 - - [20/Nov/2017:14:18:06 -0500] "GET / HTTP/1.1"
200 1254 "-" "Mozilla/5.0(X11; Ubuntu; Linux x86_64; rv:54.0)
Gecko/20100101 Firefox/54.0"
```

What does the message indicate?

- A. an access attempt was made from the Mosaic web browser
- B. a successful access attempt was made to retrieve the password file
- C. a denied access attempt was made to retrieve the password file
- D. a successful access attempt was made to retrieve the root of the website

Answer: D

NEW QUESTION # 194

......
