## AP-223 Frenquent Update, Test AP-223 Collection

DumpTorrent delivers up to date AP-223 exam products and modify them time to time. Latest AP-223 exam questions are assembled in our practice test modernizes your way of learning and replaces the burdensome preparation techniques with flexible learning. We accord you an actual exam environment simulated through our practice test sessions that proves beneficial for AP-223 Exams preparation. Our AP-223 practice tests provide you knowledge and confidence simultaneously. Candidates who run across the extensive search, DumpTorrent products are the remedy for their worries. Once you have chosen for our AP-223 practice test products, no more resources are required for exam preparation.

## Salesforce CPQ and Billing Consultant Accredited Professional Sample Questions (Q27-Q32):

### NEW QUESTION # 27

what are the 3 common CPQ design mistakes to avoid while implementing CPQ for your customer?

- A. using price book entries to handle attribute based variations instead of lookup price rules designing the product cata-log with SKU rationalization in mind

- B. documenting logical architecture diagrams for data flow between systems
- C. Creating process builders and flows to pass data between fields instead of using twin field mapping
- D. Writing customizations for product selection or validation instead of using option constraints, product rules, and bundles.

**Answer: A,B,D**

#### NEW QUESTION # 28

During user acceptance testing (UAT) a tester submits an incident because the invoice total did not match the expected results. Which 3 types of information should be included in the description of the incident and a quick resolution?

- A. quote number order number or invoice number
- B. description of new requirements that will help fix the issue
- C. expected resolution date
- D. Expected results
- E. steps to replace issue

**Answer: A,D,E**

Explanation:

During UAT, any incident related to invoice totals must include information that allows the consultant or tester to reproduce and diagnose the issue quickly.

✓ B - Quote number, Order number, or Invoice number These IDs allow the consultant to immediately:

Locate the exact transaction

Review invoice lines, tax, proration, billing rules

Check data mapping and calculation sequence

This is essential for any Revenue Cloud troubleshooting scenario.

✓ D - Steps to replicate the issue Without reproducible steps, diagnosis is almost impossible.

UAT defect triage requires:

Exact user actions

Fields populated

Sequence of operations (e.g., "Bill Now", "Invoice Run", etc.)

This is a Salesforce UAT best practice.

✓ E - Expected results Crucial for determining:

Whether the system is incorrect

Whether requirements were misunderstood

Whether recalculation logic (tax, proration, discounts) was expected to behave differently Why Other Options Are Incorrect Option

Why Wrong A - Description of new requirements UAT incidents are not for new requirements; they are for defects.

C - Expected resolution date

Not part of incident description; it's part of project management, not defect logging.

Final answer: B, D, E

#### NEW QUESTION # 29

What are three reasons why you would need an AppExchange Solution to support generating a Document in support of a Revenue Cloud Project?

- A. Contract Redlining
- B. Watermarks
- C. Attachments
- D. Electronic Signature
- E. Invoice Generation

**Answer: A,B,D**

Explanation:

A Revenue Cloud project often requires enhanced document capabilities beyond native Salesforce CPQ or Billing.

✓ A - Contract Redlining Requires document collaboration, versioning, and clause-level redline-not native in CPQ.

AppExchange apps like Conga, Nintex, DocuSign CLM support this.

✓ B - Watermarks Not supported natively by CPQ Quote Templates or Billing invoice templates.

Requires 3rd-party document generation.

✓ D - Electronic Signature Salesforce does not provide native eSignature.

Common tools: DocuSign, Adobe Sign.

Why the wrong answers are incorrect: Option

Why Incorrect

C - Invoice Generation

Salesforce Billing does generate invoices natively.

E - Attachments

Salesforce Files/Attachments are natively supported; no AppExchange needed.

### NEW QUESTION # 30

A revenue cloud consultant determines that price rules will not address additional calculation steps to accurately set the quote line list price needed for a project. What is the next functionality that should be investigated that will address the requirements?

- A. Set Pricing Method to Custom
- B. Use a Record Change Flow to trigger on the Quote Line.
- C. A Quote Calculator plugin (QCP)
- D. Use an Apex Trigger on the Quote Line

Answer: C

### NEW QUESTION # 31

What is the successful exit criteria that completes the User Acceptance Testing (UAT) phase?

- A. Complete deployment migration plan
- B. Customer Acceptance sign off
- C. Migration from Sandbox to Production
- D. Change Order
- E. Design Document

Answer: B

### NEW QUESTION # 32
