1z1-076 Reliable Test Simulator | Efficient Oracle Valid Exam 1z1-076 Blueprint: Oracle Database 19c: Data Guard Administration

Our company employs the first-rate expert team which is superior to others. Our experts team includes the experts who develop and research the 1z1-076 cram materials for many years and enjoy the great fame among the industry, the senior lecturers who boost plenty of experiences in the information about the exam and published authors who have done a deep research of the 1z1-076 Latest Exam file and whose articles are highly authorized. They provide strong backing to the compiling of the 1z1-076 exam questions and reliable exam materials resources. They can help you pass the 1z1-076 exam.

Oracle Database 19c: Data Guard Administration Sample Questions (Q53-Q58):

NEW QUESTION # 53

Which TWO statements are true about configuring Oracle Net Service in a Data Guard environment?

- A. Enterprise Manager does not require static service registration to restart instances during the course of broker operations.
- B. It is necessary to use the failover clause for an address_list with multiple address lists in the tnsnames.ora file.
- C. Install the oracle-database-preinstall-19c package to set the kernel parameters for Oracle Net based on the Data Guard best practice guidelines.
- D. A static service must be registered with the local listener to enable DGMGRL to restart instances during the course of broker operations.

- E. Installing the oracle-database-preinstall-19c package is NOT sufficient to set up operating system kernel parameters for Oracle Net.

Answer: D,E

Explanation:

A static service must be registered with the local listener to enable DGMGRL to restart instances during the course of broker operations (A): For DGMGRL (Data Guard Manager Command-Line Interface) to perform instance management operations, such as restarting instances, a static service registration in the listener is required. This allows the broker to connect to the database instance even when the instance is not fully up and the dynamic service registration is not available.

Installing the oracle-database-preinstall-19c package is NOT sufficient to set up operating system kernel parameters for Oracle Net (C): While the oracle-database-preinstall-19c package automates the setting of several kernel parameters to meet the preinstallation requirements for Oracle Database, it does not specifically tailor all settings for Oracle Net in a Data Guard configuration. Additional manual configuration may be required to optimize Oracle Net services for Data Guard operations.

NEW QUESTION # 54

Which two are true about the use of RMAN recovery catalogs when offloading backups to a physical standby database?

- A. It backups that are offloaded to a physical standby database are taken when not connected to a recovery catalog, then they may still be used for restoration on the primary database.
- B. The primary and physical standby databases must be registered separately in the recovery catalog, if a far sync instance is used to route redo to the physical standby database.
- C. Primary and physical standby databases may use different virtual recovery catalogs in the same physical recovery catalog.
- D. It is not necessary to use a recovery catalog unless a far sync instance is used to route redo to the physical standby database.
- E. The physical standby database may be used to register the database in the recovery catalog, if the primary is not registered.

Answer: A,C

NEW QUESTION # 55

You have a Data Guard Broker configuration called 'Somewhere' as shown:

```
DGMGRL> SHOW CONFIGURATION;
```

Configuration - Somewhere

Protection Mode: MaxPerformance

Databases:

Nearby - Primary database

FS - Far Sync

Farout - Physical standby database

Fast-Start Failover: DISABLED

Configuration Status:

SUCCESS

You then run this command:

```
DGMGRL> SHOW DATABASE 'Nearby' 'InconsistentProperties';
```

Which two are true about the output of this DGMGRL command?

- A. It shows all properties whose broker configuration values for database Nearby are inconsistent with the broker configuration values for database Farout.
- B. It shows all properties whose broker configuration values for database Nearby are inconsistent with the values in the corresponding server parameter file or the runtime values for database instance Nearby.
- C. Any inconsistency reported is on an instance-specific basis.
- D. A far sync instance cannot have inconsistent properties because it has no database.

Answer: B,D

NEW QUESTION # 56

You are monitoring your Data Guard broker configuration and issue this set of DGMGRL commands:

```
DGMGRL> SHOW CONFIGURATION;
```

Configuration - DRSolution

Protection Mode: MaxPerformance

Databases:

Close_by - Primary database

FS_inst - Far Sync

Far_away - Physical standby database

Fast-Start Failover: DISABLED

Configuration Status:

SUCCESS

What is true concerning this configuration?

- A. The Far Sync instance will not forward redo to the Far_away physical standby because Fast-Start Failover is disabled.
- B. The FS_inst Far Sync instance forwards redo to the Far_away physical standby only if the Close_by primary database is not able to do so.
- C. The Close_by primary database instance forwards redo to the FS_inst Far Sync instance, which forwards the redo in turn to the Far_away physical standby database instance.
- D. The Far Sync instance will not forward redo to the Far_away physical standby because the Protection mode is not MaxProtection.
- E. The Close_by primary database forwards redo to the Far_away physical standby directly and also sends redo to the FS_inst Far Sync instance.

Answer: C

NEW QUESTION # 57

A Data Guard environment has this configuration and these attributes:

The primary database prima is in the local region.

A physical standby database physt1 is in the local region.

A physical standby database physt2 is in a remote region.

The primary ships redo to physt1.

physt1 ships redo to physt2.

physt1 and physt2 have Real-Time Query enabled.

A sequence has been created with this SQL statement in the primary database:

```
CREATE SEQUENCE a NOCACHE SESSION;
```

Which TWO statements are TRUE?

- A. physt2 will no longer receive redo if physt1 becomes unavailable, unless LOG_ARCHIVE_DEST_n has the ALTERNATE attribute specified on physt1.
- B. The sequence is usable on physt1 but not usable on physt2.
- C. physt2 will no longer receive redo if physt1 becomes unavailable, unless LOG_ARCHIVE_DEST_n has the ALTERNATE attribute specified on the primary database.
- D. The sequence is usable on physt1 and physt2.
- E. The sequence is usable on physt2 if physt1 becomes unavailable, but only if an alternate redo destination has been configured on the primary database.

Answer: C,D

NEW QUESTION # 58

.....

Even though our 1z1-076 training materials have received quick sale all around the world, in order to help as many candidates for the exam as possible to pass the exam and get the related certification at their first try, we still keep the most favorable price for our best 1z1-076 test prep. In addition, if you keep a close eye on our website you will find that we will provide discount in some important festivals, we can assure you that you can use the least amount of money to buy the best product in here. We aim at providing the best 1z1-076 Exam Engine for our customers and at trying our best to get your satisfaction.

Valid Exam 1z1-076 Blueprint: <https://www.dumpsquestion.com/1z1-076-exam-dumps-collection.html>

In order to help most candidates who want to pass 1z1-076 exam, so we compiled such a study materials to make exam simply, Oracle 1z1-076 Reliable Test Simulator Never have we been complained by our customers, 1z1-076 real exam questions will point out the key knowledge and you just need to master all questions of our real dumps pdf, Oracle 1z1-076 Reliable Test Simulator Life has many turning points.

It is also used to create and manage device accounts 1z1-076 and device group accounts, If I wanted something he would figure out a way to get it, In order to help most candidates who want to Pass 1z1-076 Exam, so we compiled such a study materials to make exam simply.

1z1-076 Reliable Test Simulator - 100% Real Questions Pool

Never have we been complained by our customers, 1z1-076 real exam questions will point out the key knowledge and you just need to master all questions of our real dumps pdf.

Life has many turning points, Our Exam Preparation 1z1-076 Reliable Test Simulator Material provides you everything you will need to take a certification examination.
