## 最新CAS-005題庫 & CAS-005考古題更新

CompTIA 是一個成功的公司，提供各種認證和考試。通過 CAS-005 考試是其中的核心要求。將帶來一個新的前沿，對你的職業道路起著如此重要的角色。CAS-005 認證考試的考題按照相同的教學大綱，其次是實際的CompTIA 的 CAS-005 認證考試，我們也是不斷的升級我們的培訓資料，你得到的所有產品高達1年的免費更新，你也可以隨時延長更新訂閱時間，你將得到更多的時間來充分準備考試。

## 最新的 CompTIA CASP CAS-005 免費考試真題 (Q338-Q343):

### 問題 #338

An organization recently implemented a new email DLP solution. Emails sent from company email addresses to matching personal email addresses generated a large number of alerts, but the content of the emails did not include company data. The security team needs to reduce the number of emails sent without blocking all emails to common personal email services. Which of the following should the security team implement first?

- A. Create an acceptable use policy.
- B. Automatically quarantine outgoing email.
- C. Enforce email encryption standards.
- D. Perform security awareness training focusing on phishing.

答案: A

解題說明:

An acceptable use policy (AUP) defines what is considered appropriate use of corporate email and prevents unnecessary emails to

personal accounts. This helps in reducing false DLP alerts while maintaining compliance.

\* Quarantining emails (A) is unnecessary since the content was not flagged as sensitive.

\* Encryption (C) secures emails but does not address overuse.

\* Phishing awareness training (D) is unrelated to policy enforcement for outgoing emails.

### 問題 #339

A company wants to implement hardware security key authentication for accessing sensitive information systems. The goal is to prevent unauthorized users from gaining access with a stolen password.

Which of the following models should the company implement to best solve this issue?

- A. Context-based
- B. Time-based
- C. Role based
- D. Rule based

答案： A

解題說明：

Context-based authentication enhances traditional security methods by incorporating additional layers of information about the user's current environment and behavior. This can include factors such as the user's location, the time of access, the device used, and the behavior patterns. It is particularly useful in preventing unauthorized access even if an attacker has obtained a valid password.

Rule-based (A) focuses on predefined rules and is less flexible in adapting to dynamic threats.

Time-based (B) authentication considers the time factor but doesn't provide comprehensive protection against stolen credentials.

Role-based (C) is more about access control based on the user's role within the organization rather than authenticating the user based on current context.

By implementing context-based authentication, the company can ensure that even if a password is compromised, the additional contextual factors required for access (which an attacker is unlikely to possess) provide a robust defense mechanism.

### 問題 #340

A company wants to modify its process to comply with privacy requirements after an incident involving PII data in a development environment. In order to perform functionality tests, the QA team still needs to use valid data in the specified format. Which of the following best addresses the risk without impacting the development life cycle?

- A. Encrypting the data before moving into the QA environment
- B. Truncating the data to make it not personally identifiable
- C. Utilizing tokenization for sensitive fields
- D. Using a large language model to generate synthetic data

答案： C

解題說明：

Tokenization replaces sensitive data (e.g., PII) with non-sensitive placeholders while maintaining format consistency, ensuring compliance without disrupting testing. This method is commonly used for PCI-DSS and GDPR compliance while preserving data structure for functional tests.

\* Encryption (A) secures data but does not remove sensitivity or solve testing concerns.

\* Truncation (B) removes portions of data but may impact testing if format requirements are strict.

\* Synthetic data (C) can be useful but may not always match real-world scenarios perfectly for testing purposes.

### 問題 #341

A global organization wants to manage all endpoint and user telemetry. The organization also needs to differentiate this data based on which office it is correlated to. Which of the following strategies best aligns with this goal?

- A. Sensor placement

- B. Continuous monitoring
- C. Centralized logging
- D. Data labeling

答案： D

解題說明：

Managing telemetry and differentiating it by office requires a way to categorize data. Let's evaluate:

- A). Sensor placement: Useful for data collection but doesn't inherently differentiate by office.
- B). Data labeling: Assigns metadata (e.g., office location) to telemetry, enabling differentiation. This aligns with CAS-005's focus on data management for security operations.
- C). Continuous monitoring: Ensures ongoing data collection but doesn't address differentiation.

Reference: CompTIA SecurityX (CAS-005) objectives, Domain 2: Security Operations, emphasizing telemetry management.

### 問題 #342

A security analyst is reviewing suspicious log-in activity and sees the following data in the SIEM:

Account	Application	Authorization server	Status	Risk
SALES1	Customer manager	LDAP-US	Success	Low
SALES1	Payroll	LDAP-US	Success	Low
ADMIN	Email	LDAP-US	Failure	High
SALES1	Email	LDAP-EU	Unknown	Unknown
MARKET1	Customer manager	LDAP-US	Success	Low
FINANCE1	Payroll	LDAP-EU	Unknown	Unknown

Which of the following is the most appropriate action for the analyst to take?

- A. Implement automation to disable accounts that have been associated with high-risk activity.
- B. Block employees from logging in to applications that are not part of their business area.
- C. Have the admin account owner change their password to avoid credential stuffing.
- D. Update the log configuration settings on the directory server that is not being captured properly.

答案： A

解題說明：

The ADMIN account is showing a failure to authenticate on LDAP-US and a high-risk level, which is a cause for concern. The most appropriate action would be to implement automation to disable accounts that have been associated with high-risk activity (like this one). This helps prevent further misuse or potential attacks using compromised credentials.

### 問題 #343

.....

使用KaoGuTi公司推出的CAS-005考試學習資料，您將發現與真實考試95%相似的考試問題和答案，以及我們升級版之后的CompTIA CAS-005題庫，覆蓋率會更加全面。我們的專家為你即將到來的考試提供學習資源，不僅僅在於學習，更在於如何通過CAS-005考試。如果你想在IT行業擁有更好的發展，擁有高端的技術水準，CompTIA CAS-005是確保你獲得夢想工作的唯一選擇，為了實現這一夢想，趕快行動吧！

最新CAS-005題庫：[https://www.kaoguti.com/CAS-005\\_exam-pdf.html](https://www.kaoguti.com/CAS-005_exam-pdf.html)

CompTIA CAS-005考試心得 第壹次可以通過Internet進行，第二次考試則必須在授權的Prometric國際考試中心進行，當我們第一次開始提供CompTIA的CAS-005考試的問題及答案和考試模擬器，我們做夢也沒有想到，我們將做出的聲譽，我們現在要做的是我們難以置信的擔保形式，KaoGuTi的擔保，你會把你的CompTIA的CAS-005考試用來嘗試我們CompTIA的CAS-005培訓產品之一，這是正確的，合格率100%，我們能保證你的結果，即便僅僅了為了保持自己的虛榮心能夠得到不斷的滿足，我們也會對學習CAS-005 保持很高的熱情，這將能夠直接影響到自己最終是否能夠順利通過CAS-005考試。

百族大會，是石槐山中各部族為了爭奪獵場和資源的壹次分配大會，這魅力是蘇家姐妹身上沒有的，第壹次可以通過Internet進行，第二次考試則必須在授權的Prometric國際考試中心進行，當我們第一次開始提供CompTIA的CAS-005考試的問題及答案和考試模擬器，我們做夢也沒有想到，我們將做出的聲譽，我們現在要做的是我們難以置信的擔保形式，KaoGuTi的擔保，你會把你的CompTIA的CAS-005考試用來嘗試我們CompTIA的CAS-005培

訓產品之一，這是正確的，合格率100%，我們能保證你的結果。

## CAS-005考試心得和資格考試中的領先材料供應商 & 最新CAS-005題庫

即便僅僅為了保持自己的虛榮心能夠得到不斷的滿足，我們也會對學習CAS-005 保持很高的熱情，這將能夠直接影響到自己最終是否能夠順利通過CAS-005考試，KaoGuTi的資源很廣泛也很準確，選擇了KaoGuTi，你通過CompTIA CAS-005認證考試就簡單多了。
