## CIPS L5M5 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Understand the importance of compliance with ESG (Environmental, Social, and Governance) factors to achieve ethical and sustainable procurement and supply arrangements: This section of the exam measures skills of Supply Chain Specialists and covers methods to ensure compliance with ESG standards in procurement. It includes the use of supply chain mapping, risk management, stakeholder engagement, and contractual terms to secure sustainable practices. Candidates also learn how to monitor supplier performance, handle non-compliance, and utilize third-party auditors to maintain ethical standards. Relationship management strategies, corrective actions, and escalation processes are emphasized as part of ensuring suppliers meet ESG expectations.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Understand initiatives and standards related to ESG (Environmental, Social, and Governance) that support ethical and sustainable procurement and supply: This section of the exam measures the skills of Procurement Leaders and covers the global frameworks and standards that shape ethical supply practices. It explores international labour standards set by organizations such as the UN and ILO, and labour codes like the Ethical Trading Initiative and SA800. Candidates also examine external environmental frameworks, industry accreditations, and their role in meeting ESG goals. Finally, this section addresses fair trade principles, organizations such as WFTO and Fairtrade International, and the need to align internal governance with global standards.</li> </ul>

Topic 3	<ul style="list-style-type: none"> <li>• Understand the impact of ESG (Environmental, Social, and Governance) considerations on ethical and sustainable supply chains: This section of the exam measures the skills of Procurement Managers and covers how ESG principles are applied to secure ethical and sustainable supply chains. It looks at the role of environmental, social, and governance factors in procurement decisions, alongside risks and benefits of ESG adoption. Learners also explore issues such as modern slavery, bribery, and human rights, as well as the importance of diversity, inclusion, and stakeholder management. The section highlights how globalization, culture, and labour practices shape supply strategies and examines potential conflicts that may arise when balancing ESG priorities with business demands.</li> </ul>

## Perfect L5M5 Mock Exams – 100% Efficient Managing Ethical Procurement and Supply (L5M5) Certification Dumps

As long as you need the exam, we can update the CIPS certification L5M5 exam training materials to meet your examination needs. TestsDumps's training materials contain many practice questions and answers about CIPS L5M5 and they can 100% ensure you pass CIPS L5M5 exam. With the training materials we provide, you can take a better preparation for the exam. And we will also provide you a year free update service.

### CIPS Managing Ethical Procurement and Supply (L5M5) Sample Questions (Q26-Q31):

#### NEW QUESTION # 26

Green Book Ltd wants to include ESG measures in contracts. Which of the following is not an ESG performance measure?

- A. Waste reduction
- B. ED&I (Equality, Diversity & Inclusion)
- **C. On time in full delivery**
- D. Social value

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

The L5M5 study guide (p.194) confirms that On Time In Full (OTIF) delivery is a standard performance metric but is not an ESG measure. ESG measures include waste reduction (E), social value (S), and ED&I (S), which assess ethical, social, and environmental responsibilities. Procurement professionals must distinguish between operational KPIs and sustainability-focused KPIs to ensure contracts drive both efficiency and ethical responsibility.

#### NEW QUESTION # 27

What is the term for a clause in a contract that, if breached, allows the injured party to claim damages but does not result in the termination of the contract?

- **A. Warranty**
- B. Innominate term
- C. Condition
- D. Representation

**Answer: A**

Explanation:

Choice C- A warranty in a contract is a term that, if breached, allows the injured party to claim damages but does not give them the right to terminate the entire contract. Therefore, this is the answer.

Incorrect answer:

Choice A- A representation is a statement made by one party to another, often during pre-contractual negotiations, to induce them

to enter into a contract. Representations are not terms of the contract, so their breach does not directly impact the contract itself in the same way as a condition, warranty, or innominate term. Since the question specifies a contractual clause, representation cannot be the correct answer.

Choice B- A condition is a fundamental term of the contract. Breaching a condition gives the injured party the right to: Terminate the contract, and Claim damages. The question explicitly states that the clause should not allow for termination of the contract. Therefore, a condition does not fit the criteria.

Choice D- An innominate term does not have a predefined classification as a condition or warranty. Its treatment depends on the severity of the breach: If the breach is serious, it could lead to termination (similar to a condition) or if the breach is minor, it only results in damages (similar to a warranty). Since the question specifies a clause that does not allow for termination regardless of the breach's impact, this term is too flexible to be the correct answer.

### NEW QUESTION # 28

The illegitimate use of a person's role for gain is what form of ethical issue?

- A. Corruption
- B. Fraud
- C. Bribery
- D. Slavery

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

The L5M5 study guide (p.48) defines corruption as the illegitimate use of one's role or position for personal gain. This differs from bribery (A), which is offering or accepting inducements, and fraud (C), which involves deception such as falsifying records or creating phantom suppliers. Slavery (D) refers to forced labour. Procurement professionals must recognise corruption risks, particularly in international supply chains, and implement controls such as segregation of duties, audit trails, and whistleblowing policies.

### NEW QUESTION # 29

There are many different drivers of globalisation. Which of the following would be considered a cost driver?

- A. Improvements in transport technology
- B. To increase value for stakeholders
- C. Opportunity to build economies of scale
- D. Trading rules abroad less stringent

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

Globalisation is driven by a variety of factors, including cost, technology, and regulation. A cost driver is a factor that helps organisations reduce expenses and achieve financial efficiency. According to the L5M5 study guide (p.56), one of the most significant cost drivers is the opportunity to build economies of scale, where larger production volumes reduce per-unit costs. While improvements in technology (A) and relaxed trade rules (C) are drivers of globalisation, they are not specifically cost-related. "Value for stakeholders" (B) is broader and not strictly a cost driver. Procurement professionals should recognise economies of scale as a primary cost incentive for international sourcing and trade.

### NEW QUESTION # 30

The World Fair Trade Organization (WFTO) aims to help large global businesses expand into new markets, offering better products and fairer prices for consumers. Is this statement accurate?

- A. No, the WFTO primarily focuses on diminishing the influence of multinational corporations
