350-701 Exam Brain Dumps | Valid 350-701 Exam Pdf

What's more, part of that Actual4Cert 350-701 dumps now are free: https://drive.google.com/open?id=1NJ2vILVvccDzgzm5qwrNYRj53YxeLQgT

After passing the Cisco 350-701 certification exam, you can take advantage of a number of extra benefits. With the correct concentration, commitment, and 350-701 exam preparation, you could ace this Implementing and Operating Cisco Security Core Technologies 350-701 test with ease. Actual4Cert is a trusted and leading platform that is committed to preparing the Cisco 350-701 exam candidates in a short time period.

After choosing 350-701 training engine, you will surely feel very pleasantly surprised. First of all, our 350-701 study materials are very rich, so you are free to choose. At the same time, you can switch to suit your learning style at any time. Because our 350-701 learning quiz is prepared to meet your diverse needs. If you are not confident in your choice, you can seek the help of online services.

Valid 350-701 Exam Pdf - 350-701 Exam Exercise

With the rapid market development, there are more and more companies and websites to sell 350-701 guide question for learners to help them prepare for exam, but many study materials have very low quality and low pass rate, this has resulting in many candidates failed the exam, some of them even loss confidence of their exam. You may be also one of them, you may still struggling to find a high quality and high pass rate 350-701 Test Question to prepare for your exam. Your search will end here, because our study materials must meet your requirements.

Cisco Implementing and Operating Cisco Security Core Technologies Sample Questions (Q217-Q222):

NEW QUESTION # 217
Using Cisco Firepower's Security Intelligence policies, upon which two criteria is Firepower block based? (Choose two.)

- A. URLs
- B. MAC addresses
- C. protocol IDs
- D. port numbers
- E. IP addresses

Answer: A,E

Explanation:

NEW QUESTION # 218
When choosing an algorithm to us, what should be considered about Diffie Hellman and RSA for key establishment?

- A. RSA is a symmetric key establishment algorithm intended to output asymmetric keys
- B. DH is a symmetric key establishment algorithm intended to output asymmetric keys
- C. DH is an asymmetric key establishment algorithm intended to output symmetric keys
- D. RSA is an asymmetric key establishment algorithm intended to output symmetric keys

Answer: C

Explanation:
GETVPN and IPsec are both VPN technologies that use ESP (Encapsulating Security Payload) to encrypt and authenticate data packets. However, they differ in the following aspects:
* GETVPN uses a group IPSec security paradigm, which means that all group members share the same IPSec SA (Security Association) and can communicate with each other without having to establish point-to-point tunnels. IPsec, on the other hand, uses a pair-wise IPSec security paradigm, which requires each pair of devices to negotiate and maintain their own IPSec SAs and tunnels.
* GETVPN uses GDOI (Group Domain of Interpretation) as a key management protocol, which allows a Key Server (KS) to distribute the encryption keys and policies to all group members. IPsec uses IKE (Internet Key Exchange) as a key management protocol, which involves two phases of negotiation between each pair of devices to establish the IPSec SAs.
* GETVPN supports multicast traffic without the need for GRE (Generic Routing Encapsulation) tunneling, as it preserves the original IP header of the packet. IPsec does not support multicast traffic natively, and requires GRE tunneling to encapsulate the multicast packets with a new IP header.
* GETVPN relies on the underlying WAN routing to deliver the encrypted packets to the destination, as it does not create any overlay routing. IPsec creates an overlay routing, which may introduce additional latency and complexity.

* Cisco Get VPN vs DMVPN: Difference and Comparison
* What is a difference between GETVPN and IPsec?
ExplanationDiffie Hellman (DH) uses a private-public key pair to establish a shared secret, typically a symmetric key. DH is not a symmetric algorithm - it is an asymmetric algorithm used to establish a shared secret for a symmetric key algorithm.

NEW QUESTION # 219
After deploying a Cisco ESA on your network, you notice that some messages fail to reach their destinations.
Which task can you perform to determine where each message was lost?

- A. Configure the trackingconfig command to enable message tracking.
- B. Generate a system report.
- C. Review the log files.
- D. Perform a trace.

Answer: A

Explanation:
Message tracking helps resolve help desk calls by giving a detailed view of message flow. For example, if a message was not delivered as expected, you can determine if it was found to contain a virus or placed in a spam quarantine - or if it is located somewhere else in the mail stream.

NEW QUESTION # 220
Which protocol provides the strongest throughput performance when using Cisco AnyConnect VPN?

- A. TLSv1.1
- B. BJTLSv1

- C. TLSv1.2
- D. DTLSv1

Answer: D

Explanation:
DTLS is used for delay sensitive applications (voice and video) as its UDP based while TLS is TCP based.
Therefore DTLS offers strongest throughput performance. The throughput of DTLS at the time of AnyConnect connection can be expected to have processing performance close to VPN throughput.

NEW QUESTION # 221
Drag and drop the steps from the left into the correct order on the right to enable AppDynamics to monitor an EC2 instance in Amazon Web Services.

Answer:

Explanation:
Explanation:
Graphical user interface, text, application Description automatically generated

NEW QUESTION # 222
......

As a IT worker sometime you may know you will take advantage of new technology more quickly by farming out computer operations, we prefer to strengthen own strong points. Our 350-701 test braindump materials is popular based on that too. As we all know the passing rate for IT exams is low, the wise choice for candidates will select valid 350-701 test braindump materials to make you pass exam surely and fast. Professional handles professional affairs.

Valid 350-701 Exam Pdf: https://www.actual4cert.com/350-701-real-questions.html

Many students have studied from the Actual4Cert Implementing and Operating Cisco Security Core Technologies (350-701) practice material and rated it positively because they have passed the 350-701 certification exam on the first try, You can obtain our 350-701 preparation engine within five minutes after you pay for it successfully and then you can study with it right away, If you want to get a better job and relieve your employment pressure, it is essential for you to get the 350-701 certification.

But you can be sure of one thing: all clients can tell you immediately 350-701 if they love or hate the pose, It's a scam, and its sole purpose is to make you the victim of identity theft.

Many students have studied from the Actual4Cert Implementing and Operating Cisco Security Core Technologies (350-701) practice material and rated it positively because they have passed the 350-701 Certification Exam on the first try.

Pass Guaranteed 2026 350-701: Valid Implementing and Operating Cisco Security Core Technologies Exam Brain Dumps

You can obtain our 350-701 preparation engine within five minutes after you pay for it successfully and then you can study with it right away, If you want to get a better job and relieve your employment pressure, it is essential for you to get the 350-701 certification.

Many people are concerned about passing rate; our 350-701 Exam Exercise company makes solemn commitments that we are more professional and reliable than any company,This practice exam is customizable therefore you can adjust the duration and questions numbers as per your needs for Cisco 350-701 Exam.
