

# PL-600 Practice Engine & PL-600 Reliable Test Sample

What's more, part of that PassLeaderVCE PL-600 dumps now are free: <https://drive.google.com/open?id=1OGFhxeyvmQwBFuK0wOHt89tq37SjAK4>

We are intent on keeping up with the latest technologies and applying them to the PL-600 exam questions and answers not only on the content but also on the displays. Our customers have benefited from the convenience of state-of-the-art. That is why our pass rate on PL-600 practice quiz is high as 98% to 100%. The data are unique-particular in this career. With our PL-600 exam torrent, you can enjoy the leisure study experience as well as pass the PL-600 exam with success ensured.

The PL-600 exam is a great way for professionals to validate their skills and knowledge in the Power Platform, and earn a valuable certification that can help them advance their career. PL-600 exam covers a wide range of topics, including solution architecture, data modeling, security, and integration with other systems. PL-600 exam is designed to test the candidate's ability to design and implement solutions that meet the business requirements of an organization.

The PL-600 certification exam is intended for professionals who have experience working with the Power Platform and are adept at building solutions using Power Apps, Power Automate, Power Virtual Agents, and Power BI. PL-600 exam tests the candidate's ability to identify the components of the Power Platform, design solutions using the platform's components, and implement solutions using the platform's tools. Passing the PL-600 exam demonstrates a high level of proficiency in creating and deploying Microsoft Power Platform solutions that meet business needs.

## Prerequisites of Microsoft PL-600 Exam

- A minimum of one year of experience designing and deploying Windows Server infrastructure solutions.
- Experience with designing and deploying private cloud solutions using System Center App Controller.
- Experience with designing and deploying cloud computing solutions using System Center Virtual Machine Manager.
- Troubleshooting skills for Windows Server 2008, including Active Directory and DNS.
- Ability to manage multiple projects that include the design, implementation, and deployment of infrastructure solutions.
- Experience with automated deployment tools like System Center Configuration Manager (SCCM) or Windows Deployment Services (WDS).

## Free PDF 2026 Valid Microsoft PL-600 Practice Engine

The Microsoft PL-600 desktop practice test software and web-based practice test software, both are the mock Microsoft Power Platform Solution Architect (PL-600) exam that provides you real-time PL-600 exam environment for quick and complete preparation. Whereas the Microsoft PL-600 PDF Dumps file is concerned, this file is simply a collection of real, valid, and updated Microsoft Power Platform Solution Architect (PL-600) exam questions that also help you in preparation. So choose the right "PassLeaderVCE" exam questions format and start PL-600 exam preparation today. Order your PL-600 Dumps now to Avail 25%

EXTRA Discount on the PL-600 Exam Dumps learning material and get your dream certification.

## Microsoft Power Platform Solution Architect Sample Questions (Q90-Q95):

### NEW QUESTION # 90

You are designing a Power Platform solution for a company.

You have the following requirements:

Users in the human resources department must be able to create tasks.

Users in the human resources department must be able to assign cases to other users.

You need to recommend security settings to the company.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Business requirement	Solution
Users in the human resources department must be able to create tasks.	<input type="checkbox"/> Assign only Create rights to activities. <input type="checkbox"/> Assign Create and Read rights to activities. <input type="checkbox"/> Assign user-level assign rights to the human resources case table. <input type="checkbox"/> Assign organization-level rights to the human resources case table.
Users in the human resources department must be able to assign cases to other users.	<input type="checkbox"/> Assign only Create rights to activities. <input checked="" type="checkbox"/> Assign Create and Read rights to activities. <input type="checkbox"/> Assign user-level assign rights to the human resources case table. <input type="checkbox"/> Assign organization-level assign rights to the human resources case table.

Answer:

Explanation:

Business requirement	Solution
Users in the human resources department must be able to create tasks.	<input checked="" type="checkbox"/> Assign only Create rights to activities. <input type="checkbox"/> Assign Create and Read rights to activities. <input type="checkbox"/> Assign user-level assign rights to the human resources case table. <input type="checkbox"/> Assign organization-level rights to the human resources case table.
Users in the human resources department must be able to assign cases to other users.	<input type="checkbox"/> Assign only Create rights to activities. <input checked="" type="checkbox"/> Assign Create and Read rights to activities. <input type="checkbox"/> Assign user-level assign rights to the human resources case table. <input type="checkbox"/> Assign organization-level assign rights to the human resources case table.

### NEW QUESTION # 91

A company has a Power Apps app and uses Microsoft Dataverse for data storage. The company plans to provide employees the ability to create the following:

- \* Data loss prevention (DLP) policies that are at the environment level.
- \* Applications that allow employees to access only the activity records that they create.

You need to identify the security roles that the employees require.

Which security roles should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

### Microsoft Power Platform security roles

Requirement	Security role
Create environment-level DLP policies.	Power Platform administrator Dynamics 365 administrator Global admin <b>Power Platform administrator</b> System Administrator
Create applications that allow employees to access only the activity records that they create.	System Customizer Environment Maker Service Writer <b>System Administrator</b> <b>System Customizer</b>

Answer:

Explanation:

Requirement	Security role
Create environment-level DLP policies.	Power Platform administrator Dynamics 365 administrator Global admin <b>Power Platform administrator</b> System Administrator
Create applications that allow employees to access only the activity records that they create.	System Customizer Environment Maker Service Writer <b>System Administrator</b> <b>System Customizer</b>

Explanation:

Requirement	Security role
Create environment-level DLP policies. Create applications that allow employees to access only the activity records that they create.	Power Platform administrator System Customizer

### NEW QUESTION # 92

You need to recommend solutions for the organization's technical challenges.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

#### Requirement

Provide workers a self-service option for viewing personal and skills information.

Authenticate workers who use the self-service option for updating skills information.

Plan routes for audit teams.

#### Solution

Power Automate  
QnA Maker  
Azure Cognitive Services

Azure Active Directory B2B  
Azure Active Directory B2C  
Dynamics 365 owner team

Azure traffic routing  
Address input component  
Dynamics 365 Field Service

Answer:

Explanation:

Requirement	Solution
Provide workers a self-service option for viewing personal and skills information.	<ul style="list-style-type: none"> <li data-bbox="890 249 1144 282">Power Automate</li> <li data-bbox="890 294 1064 327">QnA Maker</li> <li data-bbox="890 339 1271 372">Azure Cognitive Services</li> </ul>
Authenticate workers who use the self-service option for updating skills information.	<ul style="list-style-type: none"> <li data-bbox="890 451 1302 485">Azure Active Directory B2B</li> <li data-bbox="890 496 1302 530">Azure Active Directory B2C</li> <li data-bbox="890 541 1287 574">Dynamics 365 owner team</li> </ul>
Plan routes for audit teams.	<ul style="list-style-type: none"> <li data-bbox="890 653 1175 687">Azure traffic routing</li> <li data-bbox="890 698 1271 732">Address input component</li> <li data-bbox="890 743 1302 777">Dynamics 365 Field Service</li> </ul>

<https://docs.microsoft.com/en-us/dynamics365/field-service/overview>

**NEW QUESTION # 93**

An organization is optimizing its Microsoft Power Platform solution architecture.

The optimization needs to address the following:

- \* Label names for option sets and multiselect option sets should be added as separate fields for reporting.
- \* Users complain that when a case is assigned to another user, all the activities are also assigned.
- \* Some Power BI reports based on Microsoft Dataverse data need near-real-time updating.

You need to recommend a design solution to meet these requirements.

What should you recommend? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Design
Users report that when a case is assigned to another user, all activities are also assigned.	<ul style="list-style-type: none"> <li data-bbox="715 1428 1334 1484">For each activity entity relationship, set Cascading rules to Configurable Cascading and Assign to Cascade None</li> <li data-bbox="715 1495 1302 1551">Do not implement, but train users on best practices for assigning cases.</li> <li data-bbox="715 1563 1350 1619">Create a 1:N relationship between the user entity/table and the Activities table.</li> </ul>
Some Power BI reports based on Microsoft Dataverse data require near-real-time updates.	<ul style="list-style-type: none"> <li data-bbox="715 1664 1318 1720">Create Power BI reports using the Microsoft Dataverse connector.</li> <li data-bbox="715 1731 1366 1787">Implement the Data Export Service; create Power BI reports that point to Microsoft Azure SQL Database.</li> <li data-bbox="715 1799 1382 1855">Create Power BI dataflows based on the Microsoft Dataverse connector; point the Power BI report to the dataflows.</li> </ul>

**Answer:**

Explanation:

Requirement	Design
Users report that when a case is assigned to another user, all activities are also assigned.	<p>For each activity entity relationship, set Cascading rules to Configurable Cascading and Assign to Cascade None</p> <p>Do not implement, but train users on best practices for assigning cases.</p> <p>Create a 1:N relationship between the user entity/table and the Activities table.</p>
Some Power BI reports based on Microsoft Dataverse data require near-real-time updates.	<p>Create Power BI reports using the Microsoft Dataverse connector.</p> <p>Implement the Data Export Service; create Power BI reports that point to Microsoft Azure SQL Database.</p> <p>Create Power BI dataflows based on the Microsoft Dataverse connector; point the Power BI report to the dataflows.</p>

Explanation:

Graphical user interface, text, application, email Description automatically generated

Requirement	Design
Users report that when a case is assigned to another user, all activities are also assigned.	<p>For each activity entity relationship, set Cascading rules to Configurable Cascading and Assign to Cascade None</p> <p>Do not implement, but train users on best practices for assigning cases.</p> <p>Create a 1:N relationship between the user entity/table and the Activities table.</p>
Some Power BI reports based on Microsoft Dataverse data require near-real-time updates.	<p>Create Power BI reports using the Microsoft Dataverse connector.</p> <p>Implement the Data Export Service; create Power BI reports that point to Microsoft Azure SQL Database.</p> <p>Create Power BI dataflows based on the Microsoft Dataverse connector; point the Power BI report to the dataflows.</p>

#### NEW QUESTION # 94

You are designing a solution to automate the following processes:

- \* Import data into Microsoft Dataverse from systems that have an API available.
- \* Import data into Microsoft Dataverse from systems that do not have an API available.
- \* Validate that contacts in a Microsoft Excel file Dataverse forms in a specified order.

You need to implement automation methods.

Which components should you use? To answer, drag the appropriate components to the correct requirements.

Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point

Components	Answer Area	Requirement	Component
Cloud flow		Interact with applications that do not have an API.	
Business process flow		Guide users through business steps in a specific order.	
Robotic process automation		Interact with applications that have an API.	

Answer:

### Explanation:

Components	Answer Area	Microsoft	Requirement	Component
Cloud flow			Interact with applications that do not have an API.	Robotic process automation
Business process flow			Guide users through business steps in a specific order.	Business process flow
Robotic process automation			Interact with applications that have an API.	Cloud flow

### Explanation:

Components	Answer Area	Requirement	Component
Cloud flow		Interact with applications that do not have an API.	Robotic process automation
Business process flow		Guide users through business steps in a specific order.	Business process flow
Robotic process automation		Interact with applications that have an API.	Cloud flow

## NEW QUESTION # 95

If you are going to prepare for the PL-600 exam in order to get the related certification and improve yourself, you are bound to be very luck. Because you meet us, we are willing to bring a piece of good news for you. With the joint efforts of all parties, our company has designed the very convenient and useful PL-600 Study Materials. More importantly, the practices have proven that the study materials from our company have helped a lot of people achieve their goal and get the related certification.
