## New C11 Exam Prep - C11 Free Test Questions

If you still upset about your C11 certification exams and look for professional C11 learning guide materials on the internet purposelessly, it is a good way for candidates to choose our best C11 exam preparation materials which can help you consolidate of key knowledge effectively & quickly. Before purchasing we provide free PDF demo download for your reference. After purchasing our products, you can receive our products within 10 minutes and you have no need to spend too much time on your C11 Exams but obtain certification in short time.

## **IIC Principles and Practice of Insurance Sample Questions (Q28-Q33):**

### NEW QUESTION # 28

Which risk could be insured by chattel coverage?

- A. Errors and omissions for a lawyer's office
- B. A half-court shot contest at a basketball game
- **C. A mobile home belonging to a family**
- D. Trip cancellation for a honeymoon

**Answer: C**

Explanation:

Chattel refers to movable personal property (as opposed to real property/land). Insurance policies that cover chattels protect items such as furniture, machinery, mobile homes, and other movable property.

A mobile home is specifically recognized as chattel because it is transportable and not permanently affixed to land. Therefore, a mobile home qualifies for chattel insurance coverage.

Option A is a travel insurance risk.

Option C is an event prize indemnity risk, not related to chattel.

Option D is professional liability (errors & omissions), which covers negligence, not movable property.

Thus, the risk insurable under chattel coverage is a mobile home, making C the correct choice.

### NEW QUESTION # 29

What is generally the third step in responding to a privacy breach?

- **A. Investigate how the breach happened and prevent recurrence**
- B. Contain the breach and assess ways to reduce harm
- **C. Determine who needs to be notified and send notices**
- D. Evaluate the risks associated with the breach

**Answer: A,C,D**

Explanation:

The typical privacy-breach response sequence used in Canadian insurance organizations follows four steps:

Contain the breach and secure the data (stop further exposure).

Evaluate the risks- determine sensitivity of data, potential harm, affected individuals, and severity.

Notify those who must be informed (affected clients, regulators, privacy commissioners, insurers, or law enforcement).

Prevent recurrence- investigate causes and implement corrective measures.

Since Step 1 is containment and Step 2 is risk evaluation, the third step is notification.

Therefore, the correct answer is C.

### NEW QUESTION # 30

What best describes a direct loss?

- **A. Damage to property by direct action of a peril insured against**
- B. Damage to property caused directly by the insured
- C. A loss not covered on the policy but covered by an endorsement
- D. A loss covered by an insured peril, but not caused directly by the peril

**Answer: A**

Explanation:

A direct loss is damage that results immediately and directly from the action of an insured peril. For example, fire burning a building, wind damaging a roof, or theft taking merchandise. The loss must be the proximate (dominant) cause and must flow directly from the peril named or covered in the policy.

Option A is incorrect because direct loss refers to a peril's action, not to who caused it.

Option C describes extensions of coverage, not direct losses.

Option D describes an indirect (consequential) loss, such as business interruption resulting from a fire-not the physical damage itself. Therefore, the correct definition of a direct loss is B: Damage to property by the direct action of an insured peril.

### NEW QUESTION # 31

Which is NOT one of the three types of knowledge an underwriter requires to be successful in their role?

- A. Prescription knowledge
- B. Claims knowledge
- C. Industry knowledge
- D. Insurance product knowledge

**Answer: A**

Explanation:

Successful underwriters must blend several types of knowledge to properly assess risk and construct suitable terms. The core areas typically highlighted in insurance education are:

Insurance product knowledge - Understanding policy wordings, coverages, exclusions, conditions, endorsements, and how different products respond to various loss scenarios.

Industry knowledge - Knowing the industries they insure (e.g., construction, retail, manufacturing):

operational hazards, typical loss trends, regulatory environment, and risk-management practices.

Claims knowledge - Appreciating how losses actually occur, how claims are adjusted, common coverage disputes, and historical loss experience. This helps underwriters anticipate problem areas and price and structure coverage appropriately.

"Prescription knowledge" is not a standard category in underwriting education. While underwriters may need guidelines, manuals, and rules, this is not recognized as one of the three foundational knowledge types.

Therefore, the item that is NOT one of the three required knowledge types is A. Prescription knowledge.

### NEW QUESTION # 32

What does the acronym PIPEDA stand for?

- A. Private Information Protected from Email Decoding Attacks
- B. Personal Information Protection and Electronic Documents Act
- C. Personal Insurance Products Electronically Delivered Act
- D. Protect Insurance Products by Electronic Decoding Algorithms

**Answer: B**

Explanation:

PIPEDA is the federal Canadian privacy legislation governing how private-sector organizations—including insurance companies, brokers, and adjusters—collect, use, and disclose personal information during commercial activities. Its full and correct name is:

Personal Information Protection and Electronic Documents Act

PIPEDA sets out requirements for informed consent, accuracy, safeguarding of data, client access rights, and limitations on secondary use of personal information. Insurance operations rely heavily on personal data, so compliance is mandatory.

Options A, B, and C are fictitious and have no connection to Canadian insurance regulation or privacy law.

Thus, the correct answer is D.

### NEW QUESTION # 33

.....

As we all know, it is a must for all of the candidates to pass the exam if they want to get the related C11 certification which serves as the best evidence for them to show their knowledge and skills. If you want to simplify the preparation process, here comes a piece of good news for you.
