## Slack-Admn-201 Practice Online - 2026 Salesforce First-grade Slack-Admn-201 Practice Online 100% Pass Quiz

Perhaps you have wasted a lot of time to playing games. It doesn't matter. It is never too late to change. There is no point in regretting for the past. Our Slack-Admn-201 exam materials can help you get the your desired Slack-Admn-201 certification. You will change a lot after learning our Slack-Admn-201 Study Materials. Also, you will have a positive outlook on life. All in all, abandon all illusions and face up to reality bravely. Our Slack-Admn-201 practice exam will be your best assistant. You are the best and unique in the world. Just be confident to face new challenge!

### Salesforce Certified Slack Administrator Sample Questions (Q44-Q49):

#### NEW QUESTION # 44

Your organization enabled data residency and chose to host your organization's data in the Montreal, Canada region. Which specific data types will be uniquely stored in this geographic region? (Select the best answer.)

- A. Messages, files, snippets, posts and files
- B. Messages, files, snippets, workspaces and channel membership information
- **C. Messages, files, snippets, posts and member profiles**
- D. Messages, files, data used for analytics, snippets and posts

**Answer: C**

Explanation:

With Slack's data residency, the following data types are stored in the selected region: "Messages, files, snippets, posts, and member profiles."

Data used for analytics and some metadata may still be processed globally, but the primary user-generated content is kept within the specified region.

(Reference: Slack Administration Study Guide - Data Residency Overview)

-

#### NEW QUESTION # 45

Incident managers at your organization use ServiceNow for incident response.

What is the benefit of integrating Slack with an app like ServiceNow?

- A. Integrating an app gives you a unified view into what's happening in the app natively, without ever having to leave Slack.
- B. Integrating an app means you never have to log in to the app natively.
- C. Integrating an app allows third parties to access your Slack data and recommend similar apps to you in the future.
- D. Integrating an app allows you to bypass security settings since they're not applicable in Slack.

**Answer: A**

Explanation:

Slack app integration benefits state:

"Integrations allow users to interact with and get updates from external apps (like ServiceNow) directly within Slack, without leaving Slack." Third-party access (A) is inaccurate. Completely avoiding login (C) isn't always true. Security (D) is still enforced when using integrated apps.

(Reference: Slack Administration Study Guide - App Integration Benefits)

#### NEW QUESTION # 46

You're an Org Admin for your university's Slack Enterprise Grid organization.

You want to measure Slack adoption for incoming students one month into the school year.

What is the best option to measure adoption analytics?

- A. Refer to the number of workspaces incoming students have created one month into the school year.
- B. Refer to the total number of messages sent in direct messages (DMs).
- C. Refer to the average number of days users were active within the last month.
- D. Refer to the total number of channels and workspaces incoming students have joined one month into the school year.

**Answer: C**

Explanation:

Slack's official analytics guidelines recommend:

"The average number of active days per user is a strong measure of engagement and adoption." Number of DMs (A) focuses only on private messaging, not overall adoption. Channel/workspace membership (B) doesn't measure activity. New workspace creation (D) is not typically relevant to students and is often disabled.

(Reference: Slack Administration Study Guide - User Activity Analytics)

-

#### NEW QUESTION # 47

As a Workspace Owner on the Slack Business+ plan, you need to set message retention policies for your workspace. You'd like to keep important information in Slack so that employees can search for it, but there are a few channels with messages that you don't need to save for more than one month.

How should you set up your data retention policies?

(Select the best answer.)

- A. Set your global message retention policies for one month, and adjust retention settings for important channels to keep everything.
- B. Keep the default retention settings, but set a message retention policy of one month for channels with less important information.
- C. Set the retention policy for private channels to keep everything, and set the retention policy for public channels to one month.
- D. Set the retention policy for public channels to keep all messages, and allow members to determine how long they'd like to

keep messages in private channels.

**Answer: A**

Explanation:

Slack recommends setting a global policy and making specific exceptions where needed:

"Setting a shorter global retention policy and then setting exceptions to keep important messages longer in specific channels gives you flexibility while controlling overall data retention." Default settings (B) would not provide an organization-wide policy. Allowing members to manage private channel retention (C) can be risky. Setting public retention short and private channels to everything (D) doesn't align with best practices for most businesses.

(Reference: Slack Administration Study Guide - Message Retention and Exceptions)

-

#### **NEW QUESTION # 48**

Moshi is a Workspace Owner on the Plus plan. John is leaving the company on Friday, and Moshi will be deactivating John's IdP account.

What does Moshi need to do to ensure that John won't have access to Slack?

- **A. Check that the IdP supports de-provisioning via SCIM and that the connector app is installed and configured correctly.**
- B. Deactivating the IdP account will automatically delete the Slack account that was bound to it via SSO.
- C. Change the email, and reset the password. Changing the email will end John's Slack session.
- D. Activate "Just-in-Time" de-activations to automatically remove John and any users who are inactive for more than 14 days.

**Answer: A**

Explanation:

To automatically manage user deactivation:

"If your Identity Provider supports SCIM provisioning, and it is correctly configured with Slack, user deactivation in the IdP will trigger automatic deactivation of the user's Slack account." SCIM ensures seamless deprovisioning. Just-in-Time deactivations (D) are not a Slack feature, and changing the email manually (A) is not secure or scalable.

(Reference: Slack Administration Study Guide - User Deprovisioning with SCIM)
