## GInI CInP問題と解答、CInP認証資格

我々のソフトを利用してGInIのCInP試験失敗したら全額で返金するという承諾は不自信ではなく、我々のお客様への誠な態度を表わしたいです。我々はあなたに試験に安心させます。それだけでなく、あなたに我々のアフターサービスに安心させます。

## GInI Certified Innovation Professional (CInP) 認定 CInP 試験問題 (Q48-Q53):

### 質問 # 48

Stage 1 of the GInI Innovation Management System is called The Innovation Funnel.  
Select one correct answer from the list:

- A. The Innovation Funnel
- B. The Innovation Framework
- C. The Innovation Pipeline
- D. The Innovation Dragnet

正解: A

解説:

GInI'sCInP Handbook details the Innovation Management System (InMS) with five stages, starting with "The Innovation Funnel" (Stage 1). This stage captures a wide array of ideas from diverse sources (e.g., employees, external partners), funneling them toward evaluation—a metaphor for broad input narrowing to actionable outputs. "The Innovation Pipeline" (A) implies a linear flow, not GInI's broad-to-narrow model. "The Innovation Framework" (C) is structural, not a stage. "The Innovation Dragnet" (D) is a distractor, not a GInI term. Option B matches GInI's nomenclature, aligning with the original answer, reflecting a deliberate, inclusive entry point in GInI's system—designed to maximize idea generation and set the stage for innovation governance.

#### 質問 # 49

Stage 3 of the GInI InMS is focused on evaluating and selecting new ideas for conversion into Innovation Projects. Select one correct answer from the list:

- A. Helping the organization feel innovative
- B. Focusing the organization's ideation efforts
- C. Evaluating and selecting new ideas for conversion into Innovation Projects
- D. Capturing and accumulating new ideas

正解: C

解説:

GInI'sCInP Handbook defines Stage 3 of the Innovation Management System (InMS) as the evaluation and selection phase, where ideas from the Funnel (Stage 1) and refinement (Stage 2) are assessed for merit and chosen to become "Innovation Projects." This involves criteria like feasibility, value, and alignment, transitioning concepts into structured efforts. "Capturing and accumulating" (A) is Stage 1. "Focusing ideation efforts" (B) is Stage 2. "Helping the organization feel innovative" (D) is an outcome, not a focus. Option C matches GInI's description, aligning with the original answer, embodying a rigorous, decision-making process that filters creativity into actionable innovation—a critical GInI gatekeeping function.

#### 質問 # 50

In order to manage the different stakeholders to a given Innovation Project, the Project Leader must figure out what each stakeholder's motivations are, and how to thereby leverage those to achieve, overall, what needs to be accomplished. Select one correct answer from the list:

- A. Thoughts
- B. Favorite things
- C. Breaking points
- D. Motivations

正解: D

解説:

GInI'sCInP Handbook emphasizes stakeholder management as a key Project Leader skill, requiring insight into "motivations"—the underlying drivers (e.g., career goals, resource needs) that influence stakeholder support or resistance. By understanding and leveraging these, the leader aligns diverse interests to "achieve what needs to be accomplished" (project goals). "Thoughts" (A) is vague, lacking actionable depth. "Favorite things" (B) is trivial and irrelevant. "Breaking points" (D) focuses on limits, not drivers. Option C aligns with GInI's guidance, matching the original answer, reflecting a strategic, psychology-informed approach to leadership—a GInI tactic for navigating complexity and ensuring project momentum through stakeholder buy-in. Reference: GInI CInP Handbook, Section on Project Leadership and Stakeholder Management.

#### 質問 # 51

Understanding market problems and delivering successful innovations requires a business to be able to execute all three phases of an innovation project with equal care.

Select one correct answer from the list:

- A. Excel at the Mid Zone of Innovation so they can develop far superior go-to-market strategies than any of their competitors have
- B. Nail the Front End of Innovation with an exact understanding of the issue and a breakthrough new solution
- **C. Execute all three phases of an innovation project with equal care**
- D. Nail the Back End of Innovation with dialed-in execution that gets the new innovation into the market exactly as planned

正解: C

解説:

GInI's CInP Handbook frames innovation as a three-phase process-Front End (exploration), Mid Zone (validation), Back End (execution)-requiring "equal care" across all to succeed. Missteps in any phase (e.g., poor needfinding, weak business case, sloppy launch) derail outcomes. "Nail the Back End" (A) overemphasizes execution (original error). "Nail the Front End" (C) prioritizes ideation, neglecting later phases. "Excel at the Mid Zone" (D) focuses on strategy, missing holistic balance. Option B aligns with GInI's integrated approach, correcting the original (A), reflecting a disciplined, end-to-end mastery-a GInI imperative for consistent innovation success.

Reference: GInI CInP Handbook, Section on Three Phases of Innovation.

## 質問 # 52

Context in the GInI Breakthrough Innovation Method (the first step) gives a team a clear center point to focus on and boundaries in which to channel their efforts toward a particular outcome.

Select one correct answer from the list:

- A. A head start in coming up with breakthrough solutions
- **B. A clear center point to focus on and boundaries in which to channel their efforts**
- C. A clear sense of purpose to drive toward, and no boundaries to worry about-so that they achieve maximum creativity
- D. An inner goal to concentrate on and an outer bounds to stay clear of

正解: B

解説:

The GInI Breakthrough Innovation Method, as outlined in the Certified Innovation Professional (CInP) Handbook, begins with "Context" as its first step. This step is foundational, designed to orient the team by establishing a "clear center point" (the problem or opportunity) and "boundaries" (scope and constraints) to guide their work. GInI emphasizes that innovation thrives within defined parameters-too much freedom can lead to unfocused efforts, while too little stifles creativity. Context provides a balance, ensuring the team knows what they're solving for and where to direct their energy, setting the stage for subsequent steps like exploration and ideation. Option B, "no boundaries," contradicts GInI's structured approach; unbounded creativity risks irrelevance. Option C, "head start in solutions," skips ahead to outcomes, not context's role.

Option D, "inner goal and outer bounds," is close but less precise-GInI uses "center point" and "boundaries" explicitly. Option A matches the handbook's wording and intent, aligning with the original answer. This reflects GInI's adaptation of Design Thinking principles, where a well-defined problem space is critical for effective innovation, ensuring efforts are both creative and purposeful.

## 質問 # 53

.....

従来の試験によって JPTeStKing が今年の GInI の CInP 認定試験を予測してもっとも真実に近い問題集を研究し続けます。JPTeStKing は 100% で GInI の CInP 「Certified Innovation Professional (CInP)」認定試験に合格するのを保証いたします。
