

# Newest 1z0-1080-25 Reliable Test Experience & Leading Offer in Qualification Exams & Unparalleled Oracle Oracle Planning 2025 Implementation Professional

P.S. Free & New 1z0-1080-25 dumps are available on Google Drive shared by PDF4Test: <https://drive.google.com/open?id=1PwwFFnVdTNslaobxduF5GoNIfON4iC1f>

If you suffer from procrastination and cannot make full use of your sporadic time during your learning process, it is an ideal way to choose our 1z0-1080-25 training dumps. We can guarantee that you are able not only to enjoy the pleasure of study but also obtain your 1z0-1080-25 Certification successfully, which can be seen as killing two birds with one stone. And you will be surprised to find our superiorities of our 1z0-1080-25 exam questions than the other vendors'.

As we all know, if the content of your exam materials is complex and confusing, then if you want to pass the exam, you will be quite worried. Our 1z0-1080-25 study guide helps the candidates to easily follow the needed contents with simplified languages and skillfully explanations according to the perfect designs of the professional experts. Preparing with the help of our 1z0-1080-25 Exam Questions frees you from getting help from other study sources, and you can pass the exam with 100% success guarantee.

## Study 1z0-1080-25 Tool - Reliable 1z0-1080-25 Test Tips

Many people prefer to buy our 1z0-1080-25 valid study guide materials because they deeply believe that if only they buy them can definitely pass the test. The reason why they like our 1z0-1080-25 guide questions is that our study materials' quality is very high. For years we always devote ourselves to perfecting our 1z0-1080-25 Study Materials. We boost the leading research team and the top-ranking sale service. We boost the expert team to specialize in the research and production of the 1z0-1080-25 guide questions and professional personnel to be responsible for the update of the 1z0-1080-25 study materials.

## Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Introduction to Planning Modules: This section of the exam measures the skills of an EPM Consultant and introduces the available Planning modules, their integration, and use cases.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>Explain required and user-defined dimensions; how dimension hierarchies impact Planning</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.</li> </ul>
Topic 15	<ul style="list-style-type: none"> <li>Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.</li> </ul>

## Oracle Planning 2025 Implementation Professional Sample Questions (Q50-Q55):

### NEW QUESTION # 50

Which statement describes Strategic Modeling?

- A. It is used to model the flow of data by defining strategic rules for sharing data between modules.
- B. It is used to strategically manage and analyze finances at any business level with built-in dashboards.
- C. It is used to quickly model and evaluate financial scenarios, and offers out-of-the-box treasury capabilities.**
- D. It is used to develop driver-based strategic plans and generate core financial statements.

**Answer: C**

Explanation:

Strategic Modeling in Oracle Planning 2024 is a module designed to enable rapid modeling and evaluation of financial scenarios, such as mergers, acquisitions, or long-term strategic plans. It provides a flexible framework for simulating "what-if" scenarios and includes out-of-the-box treasury capabilities, such as cash flow forecasting, debt scheduling, and interest rate calculations, which are critical for strategic financial planning.

\* A. It is used to model the flow of data by defining strategic rules for sharing data between modules:

Incorrect. This describes data integration (e.g., via data maps), not Strategic Modeling, which focuses on scenario analysis.

\* B. It is used to develop driver-based strategic plans and generate core financial statements: Incorrect.

While it supports driver-based planning, generating core financial statements is more aligned with the Financials module, not Strategic

Modeling's primary focus.

\* C. It is used to strategically manage and analyze finances at any business level with built-in dashboards:

Incorrect. This is too broad and aligns more with the overall Planning application, not specifically Strategic Modeling.

\* D. It is used to quickly model and evaluate financial scenarios, and offers out-of-the-box treasury capabilities: Correct. This matches the module's purpose of rapid scenario modeling and its treasury-related features.

The Oracle documentation highlights Strategic Modeling's role in scenario analysis and its treasury tools, making D the accurate description.

References:

Oracle Planning 2024 Implementation Study Guide: "Overview of Strategic Modeling" (docs.oracle.com, Published 2024-09-25).

### NEW QUESTION # 51

You are preparing to design a report in Cloud EPM Planning using Report Designer. Which two statements are true about data sources in reports?

- A. Control the way a report object is printed on the page relative to other report objects.
- B. Include a chart in your report without displaying the underlying data grid.
- C. Insert charts in the report header to provide a quick visual summary of data.
- D. Insert a report object into the report if you are in Modify mode.

**Answer: A,B**

Explanation:

When designing reports in Oracle Cloud EPM Planning using Report Designer, data sources and report objects (e.g., grids, charts) have specific capabilities. The two true statements about data sources in reports are:

\* A. Insert charts in the report header to provide a quick visual summary of data: Incorrect. Report Designer does not support inserting charts directly into the report header; charts are added as objects within the report body, linked to data sources.

\* B. Include a chart in your report without displaying the underlying data grid: Correct. You can create a chart object tied to a data source (e.g., a grid) and configure it to display only the chart, suppressing the grid for a cleaner visual presentation.

\* C. Control the way a report object is printed on the page relative to other report objects: Correct. Report Designer allows you to adjust the layout and positioning of report objects (e.g., grids, charts) relative to each other, controlling how they appear when printed or exported.

\* D. Insert a report object into the report if you are in Modify mode: Incorrect. While you modify reports in Report Designer, there's no specific "Modify mode" restriction-objects can be inserted during initial design or edits, but this is not a data source-specific feature.

The Oracle documentation verifies that B and C reflect Report Designer's flexibility with data sources and object management, making them the correct answers.

References:

Oracle Planning 2024 Implementation Study Guide: "Designing Reports with Report Designer" (docs.oracle.com, Published 2024-09-30).

Oracle EPM Cloud Documentation: "Report Designer Data Sources" (docs.oracle.com, Published 2023-12-05, updated for 2024).

### NEW QUESTION # 52

You want to import data into your application. You import data from a file and want to save the import operation as a job. Which two statements are true about import data jobs?

- A. Reference a data file stored locally when creating the Import Data job.
- B. Include the path for the data file stored on the server.
- C. Select the option to clear data before import.
- D. Upload your data file to the Inbox before running the Import Data job.

**Answer: C,D**

Explanation:

In Oracle Planning 2024, importing data from a file and saving the operation as a job involves specific steps and options. The two true statements about Import Data jobs are:

\* A. Reference a data file stored locally when creating the Import Data job: Incorrect. Oracle EPM Cloud does not allow referencing files stored locally on a user's machine for Import Data jobs. Files must be uploaded to the cloud environment (e.g.,

Inbox) for processing.

\* B. Select the option to clear data before import: Correct. When configuring an Import Data job, you can choose to clear existing data in the target before importing new data. This option ensures a clean slate for the import, avoiding data duplication or overlap, and is a standard feature in the job setup.

\* C. Upload your data file to the Inbox before running the Import Data job: Correct. Oracle requires that data files be uploaded to the Inbox (or another cloud storage location like the Outbox) before scheduling or running an Import Data job. The job then references this uploaded file for execution.

\* D. Include the path for the data file stored on the server: Incorrect. While you specify a file name in the job definition, you do not manually include a server path. The system automatically manages file locations within the cloud environment (e.g., Inbox), and users select files from there, not via explicit server paths.

The documentation confirms that uploading the file to the Inbox and optionally clearing data are key aspects of setting up an Import Data job, making B and C the true statements.

Oracle EPM Cloud Documentation: "Managing Data Import Jobs" (docs.oracle.com, Published 2023-11-05, updated for 2024).

### NEW QUESTION # 53

You enabled Projects and within Projects you enabled the Program dimension so that you can group projects together into a program. Which is a post configuration task for Projects?

- **A. Map projects to programs for analysis purposes.**
- B. Modify account type and variance reporting options for members in programs.
- C. Synchronize defaults by pushing updated data to the input forms by running the Synchronize Default business rule.
- D. Review the assumptions under Investments and Intangibles at the No Entity level and members under the Total Entity level.

**Answer: A**

### NEW QUESTION # 54

Which three are required when enabling Flexible Account Mapping in Workforce?

- A. Map Salary and Merit from Workforce to the same account in Financials and Projects.
- **B. For Mapping Level, specify whether the mapping should be done at the Global level (the same mapping for every entity) or at the Entity level.**
- **C. Specify whether Mapping Drivers should be based on Grade or on Defaults for the application.**
- **D. Enable Financials and the Financials Expense planning option to enable this feature.**
- E. Enable Flexible Account Mapping only when you bring your own chart of accounts in Financials.

**Answer: B,C,D**

### NEW QUESTION # 55

.....

The Oracle Planning 2025 Implementation Professional (1z0-1080-25) certification is one of the hottest career advancement credentials in the modern Oracle world. The Oracle Planning 2025 Implementation Professional (1z0-1080-25) certification can help you to demonstrate your expertise and knowledge level. With only one badge of Oracle Planning 2025 Implementation Professional in 1z0-1080-25 Certification, successful candidates can advance their careers and increase their earning potential.
