To become certified as a Coating Inspector Level 2, candidates must meet certain prerequisites, such as completing an approved training course and acquiring relevant work experience. Once these requirements have been met, candidates can take the NACE-CIP2-001 Certification Exam, which consists of both a written and practical component. The written exam covers theoretical knowledge, while the practical exam assesses the candidate's ability to perform coating inspections in real-world situations. Upon passing both components of the exam, candidates receive their certification, which is valid for a period of three years before requiring recertification.
