In a word, we have data protection act for you to avoid information leakage!

Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q43-Q48):

NEW QUESTION # 43

Your company recently migrated to Google Workspace and wants to deploy a commonly used third-party app to all of finance. Your OU structure in Google Workspace is broken down by department. You need to ensure that the correct users get this app. What should you do?

- A. At the root level, disable the third-party app. For the Finance OU, allow users to install only whitelisted apps from the Google Workspace Marketplace.
- **B. For the Finance OU, enable the third-party app in Marketplace Apps.**
- C. At the root level, disable the third-party app. For the Finance OU, allow users to install any application from the Google Workspace Marketplace.
- D. For the Finance OU, enable the third-party app in SAML apps.

Answer: B

Explanation:

For the Finance OU, enable the third-party app in Marketplace Apps:

To deploy a third-party app specifically to the finance department, you need to enable it within the Google Workspace Marketplace and restrict its availability to the Finance organizational unit (OU).

In the Admin console, navigate to Apps > Google Workspace Marketplace apps, find the third-party app, and configure its settings to be available only for the Finance OU. This ensures that only users within this OU can access and use the app.

NEW QUESTION # 44

Your client is a multinational company with a single email domain. The client has compliance requirements and policies that vary by country. You need to configure the environment so that each country has their own administrator and no administrator can manage another country.

What should you do?

- A. Create Admin Alerts, and use the Security Center to audit whether admins manage countries other than their own.
- B. Create a Team Drive per OU, and allow only country-specific administration of each folder.
- **C. Create an OU for each country. Create an admin role and assign an admin with that role per OU.**
- D. Establish a new Google Workspace tenant with their own admin for each region.

Answer: C

Explanation:

Create Organizational Units (OUs):

In the Google Workspace Admin console, go to "Directory" > "Organizational units".

Create separate OUs for each country.

Assign Admin Roles:

Go to "Admin roles" in the Admin console.

Create custom admin roles with permissions restricted to managing users, groups, and settings within their specific OU.

Ensure that the role does not grant permissions to manage other OUs.

Assign Country-Specific Admins:

Assign the newly created admin roles to the appropriate administrators, ensuring they have control only over their respective country's OU.

NEW QUESTION # 46

Recently your organization has had an increase in messages marked as spam. You need to quickly and efficiently obtain detailed information regarding each message. What should you do?

- A. Create an investigation by using a SQL query to search for all spam audit logs exported to BigQuery.
- B. Send an alert to all users to mark all suspicious Gmail messages as spam and review the Alert center messages.
- C. Use the spam filter report in the security dashboard to see messages Google's spam filter marked as spam during a specific time period.
- D. Use Google Vault to put all messages marked as spam in a legal hold and review the messages.

Answer: C

Explanation:

Access Security Dashboard: Go to the Google Admin console and navigate to the 'Security' section.

Open Spam Filter Report: In the security dashboard, open the spam filter report.

Filter by Time Period: Select the specific time period you want to analyze.

Review Spam Messages: Review the detailed information regarding each message marked as spam by Google's spam filter.

Take Necessary Actions: Use the information from the report to adjust spam filters, user alerts, or take other necessary actions to manage spam more effectively.

NEW QUESTION # 47

Madeupcorp.com is in the process of migrating from a third-party email system to Google Workspace. The VP of Marketing is concerned that her team already administers the corporate AdSense, AdWords, and YouTube channels using their @madeupcorp.com email addresses, but has not tracked which users have access to which service. You need to ensure that there is no disruption.
