us. Get approved at work to increase your chips. For different needs, our MB-280 Certification Exam questions are flexible and changeable. On the one hand, MB-280 pdf files allow you to make full use of fragmented time, and you will be able to pass the MB-280 exam with the least time and effort with our MB-280 training materials.

## Microsoft Dynamics 365 Customer Experience Analyst Sample Questions (Q128-Q133):

### NEW QUESTION # 128

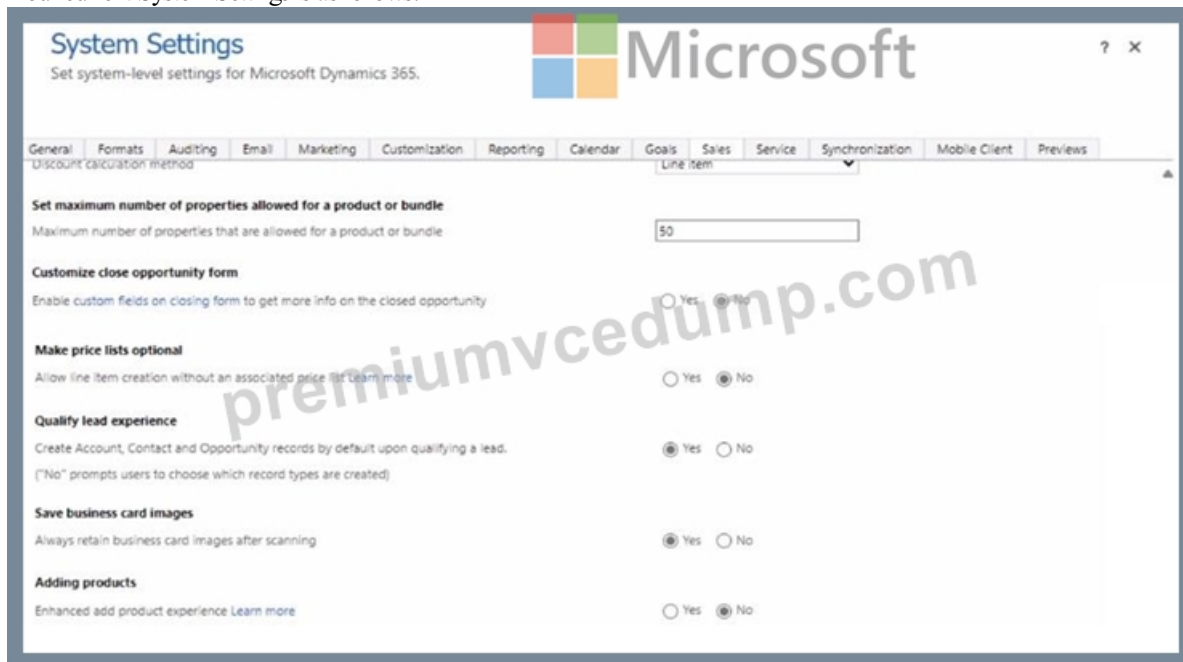

You are configuring Dynamics 365 Sales as part of a new implementation at your organization. Your organization has Sales Professional licensing.

Your organization sells over 100 different types of products across different divisions. A lot of selling occurs at conferences where sellers meet prospects and gather business cards to create leads.

After reviewing the requirements from your business stakeholders, you identify that:

1. Sellers sometimes only want to convert leads gathered at events to contacts before they start tracking any deals with that contact.
2. Sellers must be given multiple different options for specifying the final status of deals they have been tracking.

Your current System Settings is as follows:

System Settings

Set system-level settings for Microsoft Dynamics 365.

General | Formats | Auditing | Email | Marketing | Customization | Reporting | Calendar | Goals | Sales | Service | Synchronization | Mobile Client | Previews

Discount calculation method: Line item

Set maximum number of properties allowed for a product or bundle

Maximum number of properties that are allowed for a product or bundle: 50

Customize close opportunity form

Enable custom fields on closing form to get more info on the closed opportunity: ☐ Yes ☒ No

Make price lists optional

Allow line item creation without an associated price list. [Learn more](#) ☐ Yes ☒ No

Quality lead experience

Create Account, Contact and Opportunity records by default upon qualifying a lead. ("No" prompts users to choose which record types are created) ☒ Yes ☐ No

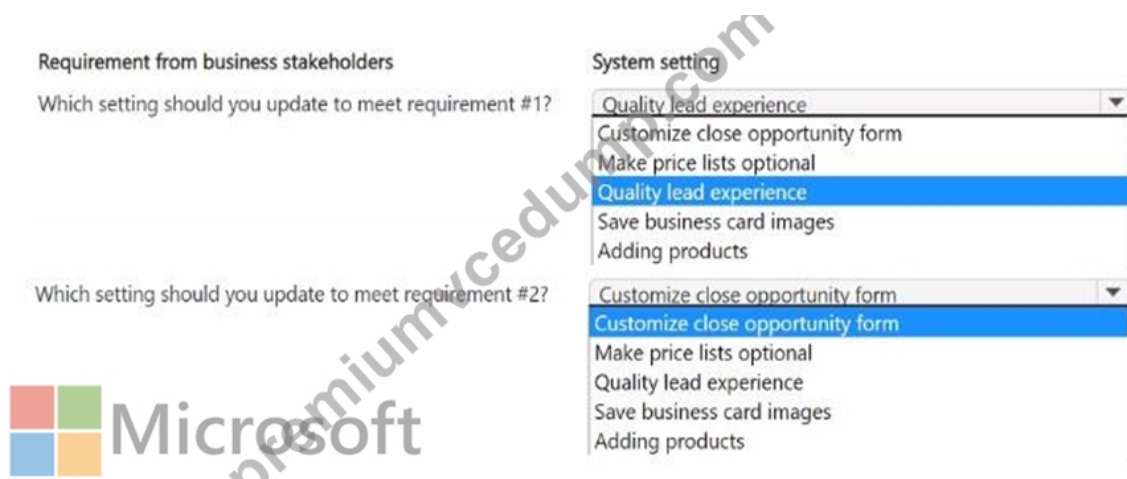

Save business card images

Always retain business card images after scanning ☒ Yes ☐ No

Adding products

Enhanced add product experience [Learn more](#) ☐ Yes ☒ No

Use the drop-down menus to select the answer choice that answers each question. NOTE: Each correct selection is worth one point.

Requirement from business stakeholders

Which setting should you update to meet requirement #1?

Which setting should you update to meet requirement #2?

System setting

Quality lead experience

Customize close opportunity form

Make price lists optional

Quality lead experience

Save business card images

Adding products

Customize close opportunity form

Customize close opportunity form

Make price lists optional

Quality lead experience

Save business card images

Adding products

Answer:

Explanation:

Reference:

Steps to Configure the Quality Lead Experience Setting:

Navigate to Settings > Administration > System Settings.

Go to the Sales tab.

Set Qualify lead experience to "Yes" to allow flexibility in lead conversion.

Requirement #2

The requirement states that sellers need different options for specifying the final status of deals.

The Customize close opportunity form setting allows customization of the form where users specify the status reason when closing an opportunity.

By enabling this, you can provide multiple status options, helping sellers specify various outcomes for closed deals (e.g., different statuses for won or lost deals).

Steps to Configure the Customize Close Opportunity Form Setting:

Navigate to Settings > Administration > System Settings.

Go to the Sales tab.

Set Customize close opportunity form to "Yes" to allow adding specific status options when an opportunity is closed.

By setting these configurations, Dynamics 365 Sales will support both the need for flexible lead qualification and provide detailed status options for opportunity closures, aligning with the organization's requirements.

## NEW QUESTION # 129

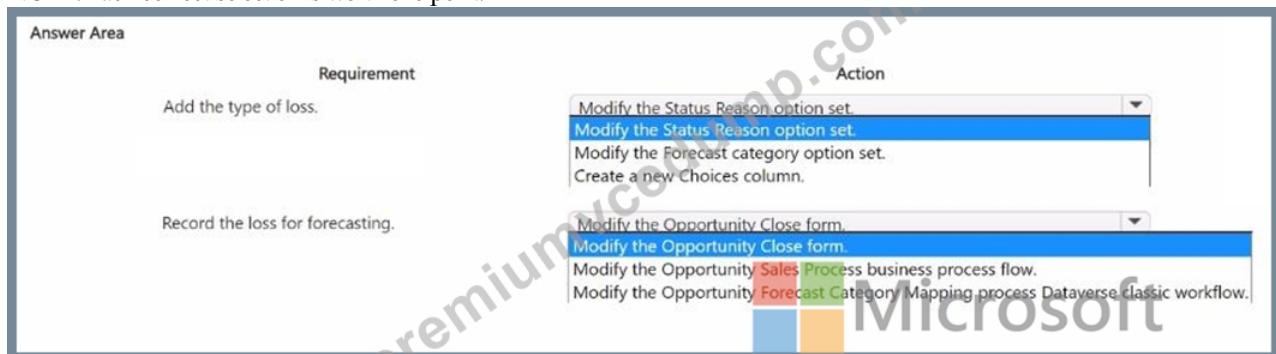

A company is using Dynamics 365 Sales to track their sales pipeline.

Sales managers require their forecasting to include reasons why opportunities were lost, including losses to competitors.

You need to configure the sales process WITHOUT using custom code.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

**Answer Area**

**Requirement**

Add the type of loss.

Record the loss for forecasting.

**Action**

Modify the Status Reason option set.  
 Modify the Status Reason option set.  
 Modify the Forecast category option set.  
 Create a new Choices column.

Modify the Opportunity Close form.  
 Modify the Opportunity Close form.  
 Modify the Opportunity Sales Process business process flow.  
 Modify the Opportunity Forecast Category Mapping process Dataverse classic workflow.

Reference:

Steps to Modify the Status Reason Option Set:

Go to Settings > Customizations > Customize the System.

Locate the Opportunity entity and open its Fields section.

Find and select the statuscode (Status Reason) field.

Add new options to represent specific loss types and save the changes.

Publish the customization to make the new Status Reason options available for users.

Requirement: Record the Loss for Forecasting

Sales managers need to include lost opportunities and their reasons in forecasting. To ensure that this information is captured accurately, modifying the Opportunity Close form will allow users to specify details when marking an opportunity as closed (won or lost).

By customizing the Opportunity Close form, you can include fields that capture detailed information required for forecasting, such as the type of loss and any competitor information. This ensures that loss details are available for analysis and forecasting without needing custom code.

Steps to Modify the Opportunity Close Form:

In the Sales Hub, navigate to App Settings > Close Opportunity Experience.

Customize the Opportunity Close form to include fields that are relevant to capturing loss information, such as adding fields for competitors or reasons.

Save and publish the form to reflect the changes.

By modifying the Status Reason option set and customizing the Opportunity Close form, you enable the sales team to record detailed reasons for lost opportunities, which will support accurate forecasting and analysis, all without using custom code.

### NEW QUESTION # 130

You are a Dynamics 365 Sales consultant for a food service company. The company caters meals for client companies.

The company wants to set up a product bundle so that the sales staff does not forget items when they create an opportunity.

The lunch bundle is created at \$200.00. It will include the following.

Product	Quantity	Unit Cost	Amount	Configuration
Sandwich	50	\$5.00	\$250.00	Required
Napkins	50	\$0.25	\$12.50	Optional
Soda	50	\$1.00	\$50.00	Optional

You need to explain how the sales staff should manage the product bundle in the opportunity. What should they do for each scenario? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

**Answer Area**

**Scenario**

Determine the price of the product bundle.

Increase the number of sodas at no additional charge.

Increase the number of sandwiches and charge the price list price for each additional sandwich.

**Action**

Use the lunch bundle price.  
 Use the lunch bundle price.  
 Add the prices of the sandwiches, napkins, and sodas.  
 Add the lunch bundle price and the prices of the napkins and sodas.  
 Subtract the prices of the napkins and sodas from the lunch bundle price.  
 Add another line item for sandwiches with the default price.

Increase the quantity of sodas in the line item.  
 Increase the quantity of sodas in the line item.  
 Add a new line item for sodas and override the price.  
 Add a new line item for sodas with the default price.  
 Delete the soda line item from the bundle and add a new line item for all the sodas with the default price.

Add another line item for sandwiches with the default price.  
 Increase the quantity of sandwiches in the line item.  
 Add another line item for sandwiches and override the price.  
 Add another line item for sandwiches with the default price.  
 Delete the sandwich line item from the bundle and add a new line item for all the sandwiches with the default price.

**Answer:**

**Explanation:**

The screenshot shows a 'Scenario' section with three tasks and an 'Action' list with corresponding steps:

Scenario	Action
Determine the price of the product bundle.	<ul style="list-style-type: none"><li>Use the lunch bundle price.</li><li>Add the prices of the sandwiches, napkins, and sodas.</li><li>Add the lunch bundle price and the prices of the napkins and sodas.</li><li>Subtract the prices of the napkins and sodas from the lunch bundle price.</li><li>Add another line item for sandwiches with the default price.</li></ul>
Increase the number of sodas at no additional charge.	<ul style="list-style-type: none"><li>Increase the quantity of sodas in the line item.</li><li>Add a new line item for sodas and override the price.</li><li>Add a new line item for sodas with the default price.</li><li>Delete the soda line item from the bundle and add a new line item for all the sodas with the default price.</li></ul>
Increase the number of sandwiches and charge the price list price for each additional sandwich.	<ul style="list-style-type: none"><li>Add another line item for sandwiches with the default price.</li><li>Increase the quantity of sandwiches in the line item.</li><li>Add another line item for sandwiches and override the price.</li><li>Add another line item for sandwiches with the default price.</li></ul>

**Reference:**

**Increase the Number of Sodas at No Additional Charge:** Increase the quantity of sodas in the line item To add sodas without impacting the price, sales staff can simply increase the quantity of sodas in the line item. This approach allows flexibility within the bundle without altering the overall bundle cost, which remains fixed.

**Increase the Number of Sandwiches and Charge the Price List Price for Each Additional Sandwich:** Add another line item for sandwiches with the default price To charge extra for additional sandwiches, the staff should add another line item for sandwiches. This line item would use the default price from the price list, ensuring that any additional sandwiches beyond the initial bundle are charged accordingly.

This allows the base bundle to remain consistent while additional items are billed separately based on the standard price list.

By following these guidelines, the sales staff can effectively manage the product bundle within opportunities, maintaining pricing consistency while allowing flexibility for additional items as required by the client.

#### NEW QUESTION # 131

Which entity must be configured before creating a Product Family in Dynamics 365 Sales?

- A. Discount List
- **B. Unit Group**
- C. Price List
- D. Product Catalog

**Answer: B**

#### NEW QUESTION # 132

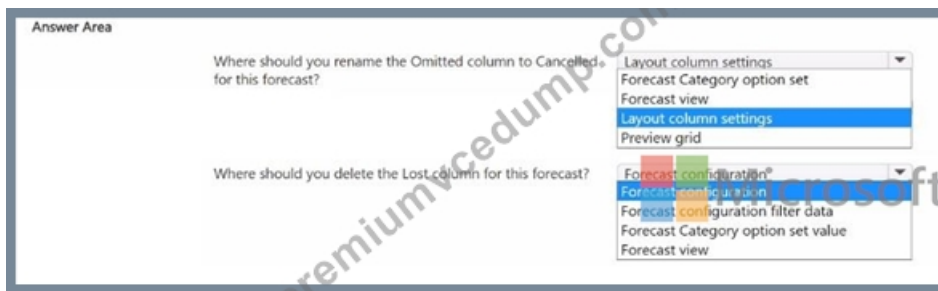

You are a Dynamics 365 Sales administrator. You create a forecast by using the forecast category layout shown in the exhibit:

The screenshot shows a 'Preview' of a forecast category layout table with the following columns: Territory, Quota, Manager, Best case, Committed, Lost, Omitted, Pipeline, and Won. The data rows are for City, South, and North territories, each showing a 75% completion bar in the 'Won' column.

Territory	Quota	Manager	Best case	Committed	Lost	Omitted	Pipeline	Won
City								75 %
South								75 %
North								75 %

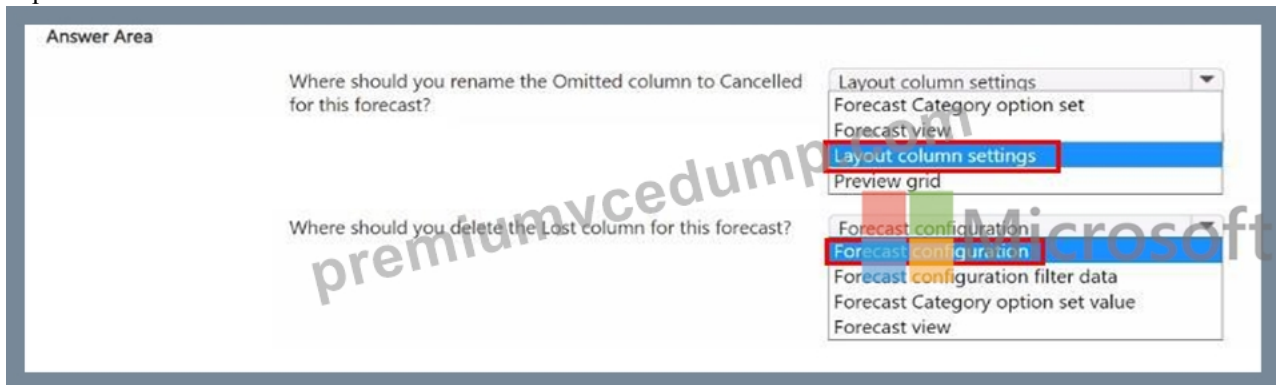

Use the drop-down menus to select the answer choice that answers each question based on the information presented in the graphic.  
NOTE: Each correct selection is worth one point.

**Answer:**

**Explanation:**

**Reference:**

**Deleting the Lost Column from the Forecast:**

To remove a column entirely, such as the Lost column, you should adjust the Forecast configuration. This configuration setting allows you to add or remove columns from the forecast grid.

Modifying Forecast configuration affects the structural aspects of the forecast, such as which columns are included, based on what is necessary for reporting and analysis.

By utilizing the Layout column settings for renaming columns and the Forecast configuration for adding or removing columns, you can tailor the forecast layout to meet specific business requirements, ensuring the forecast view is both relevant and easy for users to interpret.

## NEW QUESTION # 133

.....

Once you compare our MB-280 study materials with the annual real exam questions, you will find that our MB-280 exam questions are highly similar to the real exam questions. We have strong strengths to assist you to pass the exam. All in all, we hope that you are brave enough to challenge yourself. Our MB-280 learning prep will live up to your expectations. It will be your great loss to miss our MB-280 practice engine.
