PECB Certified ISO 45001 Lead Auditor Exam Sample Questions (Q42-Q47):

NEW QUESTION # 42

You are the audit team leader of an ISO 45001 remote/space certification audit. Which two of the following topics would you need to discuss with the audit OHSMS legislation of the local authority, which has been

- A. Trends in the OHS indicators and associated objectives
- B. OHS management system hazards identification and risks evaluation process
- C. Any practical obstacles to the audit
- D. OHS accidents occurred since Stage 1 audit
- E. Results of the last regulatory audit
- F. Access requirements for the virtual platform

Answer: C,F

NEW QUESTION # 43

You are an audit team leader overseeing the activity of a trainee auditor. Your team has just completed a surveillance audit and is assembling the final report.

The trainee has not contributed to a final report before and is clearly struggling with what she should provide to you for inclusion. Which three of her following statements would be appropriate?

- A. The Sales Manager was kind and seems to be a nice person.
- B. The OHS Management team were extremely helpful and went out of their way to facilitate access to required records.
- C. The maintenance team could not replace a lightbulb, let alone an air conditioning unit.
- D. The audit client's objectives for this audit were never realistic. That's why we were unable to complete the audit plan.
- E. The Sales Manager said he had forgotten the password to the Sales Ordering system and so too had everyone else in his department
- F. The OHS Manager disagreed with me in respect of all of the nonconformances I raised. He still does not accept any of

them

- G. The Production Manager is lucky to have a job as he does not appear to understand how anything works around here.
- H. The guide was trying to be helpful and would not stop talking during the audit.

Answer: B,D,E

Explanation:

Audit reports should focus on objective evidence, observations, and findings relevant to the management system and the audit process. Personal opinions, unrelated remarks, or derogatory comments are inappropriate.

Analysis of Statements:

- * A. The guide was trying to be helpful and would not stop talking during the audit: Incorrect. This is irrelevant to the audit findings or conclusions.
- * B. The Sales Manager was kind and seems to be a nice person: Incorrect. Personal opinions about individuals are not appropriate in audit reports.
- * C. The audit client's objectives for this audit were never realistic. That's why we were unable to complete the audit plan: Correct. This is relevant as it relates to the audit process and highlights challenges in meeting objectives.
- * D. The maintenance team could not replace a lightbulb, let alone an air conditioning unit: Incorrect. This is derogatory and irrelevant to the audit report.
- * E. The OHS Management team were extremely helpful and went out of their way to facilitate access to required records: Correct. This is a valid observation about cooperation during the audit process.
- * F. The OHS Manager disagreed with me in respect of all of the nonconformances I raised. He still does not accept any of them: Incorrect. While disagreements may occur, this statement is overly subjective and not constructive.
- * G. The Production Manager is lucky to have a job as he does not appear to understand how anything works around here: Incorrect. Personal attacks or irrelevant judgments have no place in the report.
- * H. The Sales Manager said he had forgotten the password to the Sales Ordering system and so too had everyone else in his department: Correct. This relates to system access and could indicate a nonconformance or an opportunity for improvement.

ISO References:

- * ISO 19011:2018, Clause 6.7: Reporting audit results.

NEW QUESTION # 44

Which one option defines what is to be achieved by an audit?

- A. A finding of the audit
- B. An audit criterion
- **C. The objective of the audit**
- D. The scope of the audit"

Answer: C

NEW QUESTION # 45

Showitoff is an organization specialization in the design and production of wall decorating materials for the domestic market.

During an ISO 45001 certification audit of the site, the auditor comes across an open, walled area just outside the maintenance department. It contains various scraps of wood and metal as well as several rusty components. Several heavy concrete beams are leaning against a thin brick wall in which cracks are available. When asked about it, the OHS Manager states that he presumes that the materials come from maintenance work, so it is the Maintenance Manager's responsibility.

The auditor interview the Maintenance Manager in his department. He asks about the area outside and is told that it contains some excess material that the Manager likes to keep in case they come in handy at some stage. The auditor points out that the wall appears to be unstable and could collapse at any moment. The Maintenance Manager is not aware of such a situation.

Wash-it-up is an organization that provides window cleaning services for the industrial sector. It has been certified to ISO 45001 for some time and has appointed a new OHS Manager. The auditor asks to see the most recent management review meeting minutes.

Which three statement would represent input audit evidence for the management review?

- A. Decisions related to continual Improvement opportunities
- B. Allocation of a bigger budget for the OHS department
- C. Decisions on Improvements in the OHSMS
- **D. Worker feedback of positive and negative comments**
- **E. Updates to the risk register**
- **F. Report showing the trend of on increase in safety incidents**
- G. Procurement of new safety harnesses for workers

- H. Proposal to priorities health and safety issues as a business strategy

Answer: D,E,F

Explanation:

Comprehensive Detailed Explanation along with All ISO 45001 Audit Reference Clause 9.3 of ISO 45001:2018 defines inputs for management review, which must include information on performance trends, feedback, risks, and opportunities for improvement.

Analysis of Options:

A . Allocation of a bigger budget for the OHS department:

This is an output of management review, not an input.

B . Decisions on improvements in the OHSMS:

This is an output, not an input.

C . Decisions related to continual improvement opportunities:

This is an output, not an input.

D . Procurement of new safety harnesses for workers:

This is an operational action, not an input for management review.

E . Proposal to prioritize health and safety issues as a business strategy:

Proposals may be discussed during review, but they are outputs.

F . Report showing the trend of an increase in safety incidents:

Correct. This is a valid input that informs system performance.

G . Updates to the risk register:

Correct. Risk updates are required inputs under Clause 6.1.2.

H . Worker feedback of positive and negative comments:

Correct. Feedback is an essential input per Clause 5.4 and Clause 9.3.

ISO Reference:

Clause 9.3: Management review inputs.

Clause 5.4: Worker consultation and participation.

NEW QUESTION # 46

In the ISO 45001 health and safety management system, what is ' documented information ' ? Select the ONE best answer.

- A. Paperwork such as Permits to work and risk assessments
- **B. Any information about the system, or generated by it, held in any format**
- C. Any paperwork generated when the system is in operation
- D. The master copies of the documents used to operate the system, held in any format

Answer: B

Explanation:

ISO 45001 defines " documented information " as information required to be controlled and maintained by an organization. This can include policies, procedures, records, or other relevant data in any format (Clause 3.19). It encompasses all information used to establish, operate, and demonstrate the effectiveness of the OH and S management system.

Analysis of Options:

* A. Any paperwork generated when the system is in operation: Incorrect. This is too narrow and excludes digital or other formats.

* B. Any information about the system, or generated by it, held in any format: Correct. This aligns with the ISO 45001 definition in Clause 3.19.

* C. Paperwork such as Permits to Work and risk assessments: Incorrect. These are examples of documented information but do not encompass the full scope of the term.

* D. The master copies of the documents used to operate the system, held in any format: Incorrect.

This definition is limited to master copies, while documented information includes records as well.

ISO References:

* Clause 3.19: Definition of documented information.

* Clause 7.5: Control of documented information.

NEW QUESTION # 47

.....

As a responsible company, we don't ignore customers after the deal, but will keep an eye on your exam situation. Although we can
