

2026 Brain Databricks-Certified-Professional-Data-Engineer Exam Pass Certify | High Pass-Rate Databricks-Certified-Professional-Data-Engineer Valid Exam Pattern: Databricks Certified Professional Data Engineer Exam

DOWNLOAD the newest DumpExam Databricks-Certified-Professional-Data-Engineer PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1KFXz6zRM1y3L7EBgrblBvd9VBxp8HMff>

Our online test engine and the windows software of the Databricks-Certified-Professional-Data-Engineer guide materials can evaluate your exercises of the virtual exam and practice exam intelligently. Our calculation system of the Databricks-Certified-Professional-Data-Engineer study engine is designed subtly. Our evaluation process is absolutely correct. We are strictly in accordance with the detailed grading rules of the real exam. And our pass rate of the Databricks-Certified-Professional-Data-Engineer Exam Questions are high as 98% to 100%, it is unique in the market.

Databricks Certified Professional Data Engineer certification is a valuable credential for data engineers who want to demonstrate their skills and proficiency in using Databricks for data engineering tasks. Databricks Certified Professional Data Engineer Exam certification exam evaluates the candidate's ability to design and implement data pipelines, work with data sources and sinks, and perform transformations using Databricks. Databricks Certified Professional Data Engineer Exam certification can help data engineers to advance their careers and increase their earning potential, and it can also help organizations to identify and hire skilled data engineers who can design and implement data solutions using Databricks.

Databricks Certified Professional Data Engineer exam is a certification program offered by Databricks, a unified data analytics platform that provides a collaborative workspace for data science teams. Databricks Certified Professional Data Engineer Exam certification program is designed for data professionals who want to demonstrate their knowledge and skills in building reliable, scalable, and performant data pipelines using Databricks.

To prepare for the DCPDE exam, candidates should have a solid understanding of data engineering concepts, such as data modeling, data integration, data transformation, and data quality. They should also have experience working with big data technologies, such as Apache Spark, Apache Kafka, and Apache Hadoop.

Databricks-Certified-Professional-Data-Engineer Valid Exam Pattern | Databricks-Certified-Professional-Data-Engineer Actual Test

You will go through Databricks Databricks-Certified-Professional-Data-Engineer Exams and will see for yourself the difference in your preparation. The Databricks Databricks-Certified-Professional-Data-Engineer practice test software is very user-friendly and simple to use. It is accessible on all browsers. It will save your progress and give a report of your mistakes which will surely be beneficial for your overall exam preparation.

Databricks Certified Professional Data Engineer Exam Sample Questions (Q41-Q46):

NEW QUESTION # 41

You are working on a process to query the table based on batch date, and batch date is an input parameter and expected to change every time the program runs, what is the best way to we can parameterize the query to run without manually changing the batch date?

- A. Manually edit code every time to change the batch date
- B. There is no way we can combine python variable and spark code
- C. Create a dynamic view that can calculate the batch date automatically and use the view to query the data
- **D. Create a notebook parameter for batch date and assign the value to a python variable and use a spark data frame to filter the data based on the python variable**
- E. Store the batch date in the spark configuration and use a spark data frame to filter the data based on the spark configuration.

Answer: D

Explanation:

Explanation

The answer is, Create a notebook parameter for batch date and assign the value to a python variable and use a spark data frame to filter the data based on the python variable

NEW QUESTION # 42

While reviewing a query 's execution in the Databricks Query Profiler, a data engineer observes that the Top Operators panel shows a Sort operator with high Time Spent and Memory Peak metrics. The Spark UI also reports frequent data spilling . How should the data engineer address this issue?

- **A. Increase the number of shuffle partitions to better distribute data.**
- B. Convert the sort operation to a filter operation.
- C. Repartition the DataFrame to a single partition before sorting.
- D. Switch to a broadcast join to reduce memory usage.

Answer: A

Explanation:

When Spark performs wide transformations such as sortBy or orderBy, large data volumes can exceed memory limits, causing disk spilling . The official Databricks performance tuning guide recommends increasing the shuffle partition count to distribute the data more evenly across executors. By default, Spark uses a fixed number of shuffle partitions (e.g., 200), which can lead to memory imbalance and spill if some partitions are too large. Increasing this number (via spark.sql.shuffle.partitions) results in smaller partitions, reduced in-memory pressure, and improved sort performance. Other options like broadcast joins or single partition sorts do not apply to single-table sorts, and converting to filters changes query logic. Thus, option D is the correct remedy.

NEW QUESTION # 43

What is the output of the below function when executed with input parameters 1, 3 :

```
1.def check_input(x,y):
2. if x < y:
3. x= x+1
4. if x<y:
5. x= x+1
6. if x <y:
7. x = x+1
8. return x
check_input(1,3)
```

- **A. 3**
(Correct)
- B. 0

- C. 1
- D. 2
- E. 3

Answer: A

NEW QUESTION # 44

Which of the following Structured Streaming queries is performing a hop from a bronze table to a Silver table?

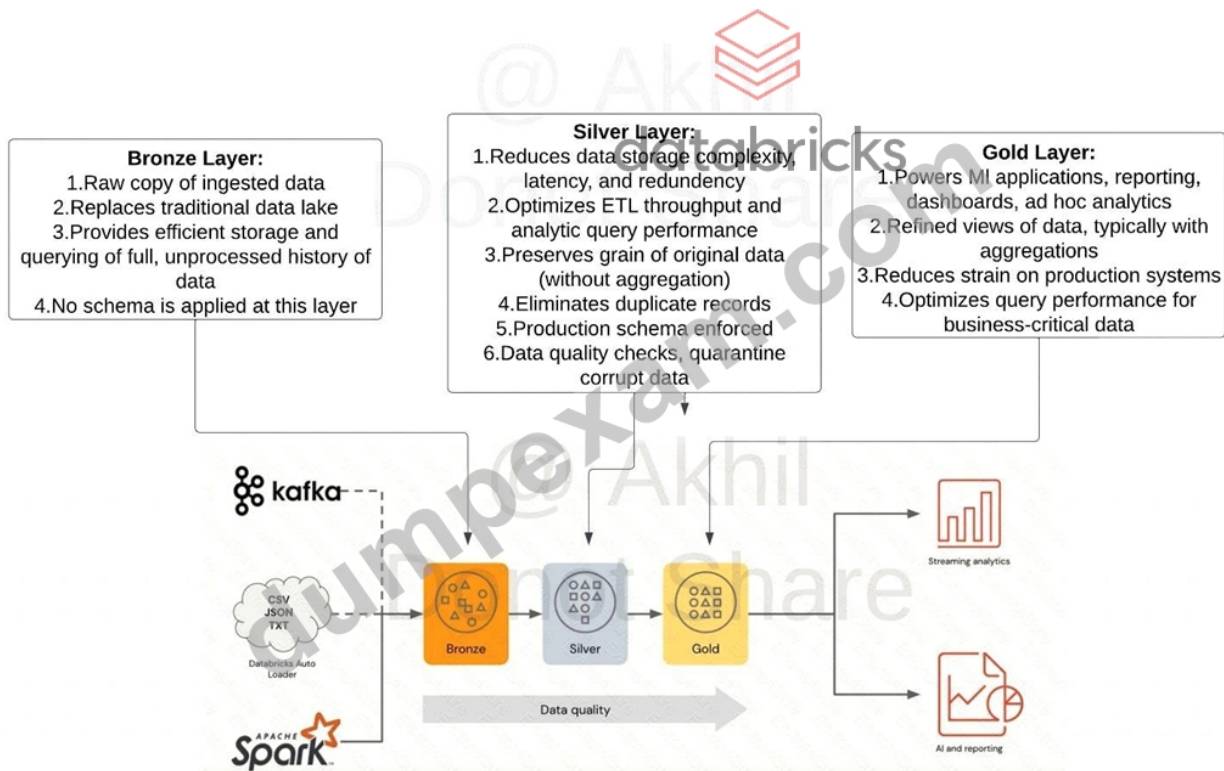

- A. 1.(spark.table("sales").groupBy("store")
2..agg(sum("sales")).writeStream
3..option("checkpointLocation",checkpointPath)
4..outputMode("complete")
5..table("aggregatedSales"))
- B. 1.(spark.readStream.load(rawSalesLocation)
2..writeStream
3..option("checkpointLocation", checkpointPath)
4..outputMode("append")
5..table("uncleanedSales"))
- C. 1.(spark.table("sales").agg(sum("sales"),sum("units"))
2..writeStream
3..option("checkpointLocation",checkpointPath)
4..outputMode("complete")
5..table("aggregatedSales"))
- D. 1.(spark.read.load(rawSalesLocation)
2..writeStream
3..option("checkpointLocation", checkpointPath)
4..outputMode("append")
5..table("uncleanedSales"))
- E. 1.(spark.table("sales")
2..withColumn("avgPrice", col("sales") / col("units"))
3..writeStream
4..option("checkpointLocation", checkpointPath)
5..outputMode("append")
6..table("cleanedSales"))

Answer: E

Explanation:

Explanation

A diagram of a house Description automatically generated with low confidence

NEW QUESTION # 45

A newly joined team member John Smith in the Marketing team who currently does not have any access to the data requires read access to customers table, which of the following statements can be used to grant access.

- A. GRANT READ, USAGE ON TABLE customers TO john.smith@marketing.com
- B. GRANT SELECT, USAGE ON TABLE customers TO john.smith@marketing.com
- C. GRANT READ, USAGE ON customers TO john.smith@marketing.com
- D. GRANT READ, USAGE TO john.smith@marketing.com ON TABLE customers
- E. GRANT SELECT, USAGE TO john.smith@marketing.com ON TABLE customers

Answer: B

Explanation:

Explanation

The answer is GRANT SELECT, USAGE ON TABLE customers TO john.smith@marketing.com Data object privileges - Azure Databricks | Microsoft Docs

NEW QUESTION # 46

.....

The DumpExam is committed to making the entire Databricks-Certified-Professional-Data-Engineer exam preparation journey simple, smart, and successful. To achieve this objective the DumpExam is offering the top-rated and updated Databricks-Certified-Professional-Data-Engineer exam practice test questions in three different formats. All these three DumpExam Databricks-Certified-Professional-Data-Engineer Exam Questions formats contain the real, valid, and error-free Databricks Certified Professional Data Engineer Exam (Databricks-Certified-Professional-Data-Engineer) exam practice test questions that are ideal study material for quick Databricks Databricks-Certified-Professional-Data-Engineer exam preparation.
