Lab ISO-IEC-27001-Foundation Questions & Real ISO-IEC-27001-Foundation Exam Questions

The purchase process of our ISO-IEC-27001-Foundation question torrent is very convenient for all people. In order to meet the needs of all customers, our company is willing to provide all customers with the convenient purchase way. The PDF version of our ISO-IEC-27001-Foundation study tool is very practical, which is mainly reflected on the special function. As I mentioned above, our company are willing to provide all people with the demo for free. You must want to know how to get the trial demo of our ISO-IEC-27001-Foundation question torrent; the answer is the PDF version. You can download the free demo form the PDF version of our ISO-IEC-27001-Foundation exam torrent. Maybe you think it does not prove the practicality of the PDF version, do not worry, we are going to tell us another special function about the PDF version of our ISO-IEC-27001-Foundation study tool.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q22-Q27):

NEW QUESTION # 22
What is a requirement for a corrective action made in response to a nonconformity?

- A. They are proportionate to the likelihood of the nonconformity recurring
- B. They are appropriate to the effects of the nonconformity
- C. They do NOT change the organization's information security policies
- D. They always eliminate the cause of the nonconformity

Answer: B

Explanation:
Clause 10.1 (Nonconformity and corrective action) specifies:
"The organization shall react to the nonconformity and, as applicable: take action to control and correct it; deal with the consequences; evaluate the need for action to eliminate the cause(s)...
Corrective actions shall be appropriate to the effects of the nonconformities encountered." This confirms optionB. Option A is inaccurate-ISO requires actions appropriate to effects, not probability alone. Option C is false-policies may need updating to correct nonconformities. Option D is incorrect, as not every cause can always be eliminated; residual issues may exist.
Thus, the verified requirement isB.

NEW QUESTION # 23
To whom does the scope of the Terms and conditions of employment control apply?

- A. Personnel and the organization
- B. Contractors only
- C. Employees only
- D. All employees, contractors and third-party users

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.6.1 (Terms and conditions of employment) states:
"The contractual agreements with employees and contractors shall state their and the organization's responsibilities for information security." This means the control applies not just to employees, but also contractors and, where relevant, third-party users who are subject to contractual obligations with the organization. The goal is to ensure that all parties engaged in work under the organization's control understand their security responsibilities before, during, and after employment or contract engagement.
Options A and B are too narrow, excluding key groups. Option C misrepresents the scope by implying a mutual responsibility but not identifying the individuals covered. The explicit scope includes employees, contractors, and third-party users.
Therefore, the correct answer is D.

NEW QUESTION # 24
Which audit activity related to ISO/IEC 27001 may be carried out by a practitioner?

- A. Conduct an internal audit of the organization
- B. Conduct a surveillance audit of their own area of the organization
- C. Conduct an audit of an Accredited Training Organization
- D. Conduct an audit of a Certification Body

Answer: A

Explanation:

ISO/IEC 27001 requires internal audits and sets out how they must be conducted: "The organization shall conduct internal audits at planned intervals..." (9.2.1) and "plan, establish, implement and maintain an audit programme(s)... [and] select auditors and conduct audits that ensure objectivity and the impartiality of the audit process" (9.2.2). These extracts confirm that practitioners (internal to the organization) can conduct internal audits provided objectivity and impartiality are ensured (e.g., they do not audit their own work). Surveillance audits (option A) and audits of Accredited Training Organizations or Certification Bodies (options C, D) are third-party activities outside the remit of an internal practitioner under ISO/IEC 27001; the standard's audit requirement is focused on the organization's own internal audit programme. Therefore, conducting an internal audit (B) is the correct practitioner activity per Clause 9.2.

NEW QUESTION # 25
Which action is an organization required to take to ensure that personnel are competent to perform their assigned tasks within the ISMS?

- A. Ensure all personnel are trained to ISO/IEC 27001 Foundation level
- B. Identify products which could be used in the organization to improve ISMS performance and effectiveness
- C. Ensure that the controls for compliance with legal and contractual requirements are implemented
- D. Hold up-to-date records on training, skills, experience and qualifications

Answer: D

Explanation:
Clause 7.2 (Competence) requires the organization to:
* "determine the necessary competence of person(s) doing work under its control that affects its information security performance;"
* "ensure that these persons are competent on the basis of appropriate education, training, or experience;"
* "retain appropriate documented information as evidence of competence." This makes holding up-to-date records on training, skills, experience, and qualifications (D) the correct answer. Option A is irrelevant to competence. Option B is incorrect since ISO does not require Foundation- level training - competence is context-based. Option C is related to compliance but does not ensure individual competence.
Thus, the verified correct answer is D.

NEW QUESTION # 26

Identify the missing word(s) in the following sentence.

When planning the ISMS, the organization is specifically required to plan actions to address risks and opportunities and how to [?] these actions.

- A. apply competent resources to
- B. evaluate the effectiveness of
- C. improve the effectiveness of
- D. communicate

Answer: B

Explanation:
Clause 6.1.1 (Planning) states:
"The organization shall plan:
d) actions to address these risks and opportunities; and
e) how to:
* integrate and implement the actions into its ISMS processes; and
* evaluate the effectiveness of these actions."
This confirms the missing words are"evaluate the effectiveness of". Communication (A), applying resources (B), and improving effectiveness (C) are important concepts elsewhere but not the direct requirement stated in this clause.

NEW QUESTION # 27

......

Our APMG-International is suitable for computer users with a Windows operating system. APMG-International ISO-IEC-27001-Foundation practice exam support team cooperates with users to tie up any issues with the correct equipment. If ISO-IEC-27001-Foundation Certification Exam material changes, ValidDumps also issues updates free of charge for three months following the purchase of our ISO-IEC-27001-Foundation exam questions.
