

CIS-SPM Valid Test Objectives | CIS-SPM Study Material

SRI VENKATESWARA COLLEGE OF ENGINEERING

(Autonomous)

Karakambadi Road, TIRUPATI - 517507

II B.Tech- II Sem

L	T	P	C
3	0	0	3

(MA23ABS305) PROBABILITY & STATISTICS
(Common to IT,CSE (AI&ML))

Course Objectives:

- This course will illuminate the students in the concepts of probability and statistical methods.
- To equip the students with standard concepts and tools at an intermediate to advanced level mathematics to develop the confidence and ability among the students to handle various real world problems and their applications.

Course Outcomes:

- CO1:** Acquire knowledge in finding the analysis of the data quantitatively or categorically and various statistical elementary tools.
- CO2:** Develop skills in designing mathematical models involving probability, random variables and the critical thinking in the theory of probability and its applications in real life problems
- CO3:** Apply the theoretical probability distributions like binomial, Poisson, and Normal in the relevant application areas
- CO4:** Analyze to test various hypotheses included in theory and types of errors for large samples
- CO5:** Apply the different testing tools like t-test, F-test, chi-square test to analyze the relevant real life problems

UNIT I

(10 Periods)

Descriptive statistics: Statistics Introduction, Population vs Sample, Collection of data, primary and secondary data, Measures of Central tendency, Measures of Variability (spread or variance) Skewness, Kurtosis, correlation, correlation coefficient, rank correlation, regression coefficients, method of least squares, regression lines.

We guarantee that if you study our CIS-SPM guide materials with dedication and enthusiasm step by step, you will desperately pass the exam without doubt. As the authoritative provider of study materials, we are always in pursuit of high pass rate of CIS-SPM Practice Test compared with our counterparts to gain more attention from potential customers. We believe in the future, our CIS-SPM study torrent will be more attractive and marvelous with high pass rate.

ServiceNow CIS-SPM Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Communication and Network Security: This section covers network architecture and design, secure communication protocols, wireless network security, and strategies to defend against network attacks.
Topic 2	<ul style="list-style-type: none"> • Security Assessment and Testing: This section focuses on security audit principles and methodologies, penetration testing techniques, and the use of security metrics and reporting.
Topic 3	<ul style="list-style-type: none"> • Asset Security: This section focuses on information and asset classification, data security controls, privacy protection measures, and intellectual property protection.

Topic 4	<ul style="list-style-type: none"> • Software Development Security: This section emphasizes securing the software development lifecycle, including application security testing, code review, secure coding practices, and third-party software management.
Topic 5	<ul style="list-style-type: none"> • Security Operations: In this section, the focus is on security monitoring and analytics, incident response and management, forensics and investigations, and patch and vulnerability management.
Topic 6	<ul style="list-style-type: none"> • Security Architecture and Engineering: This section examines security models and design principles, system and application security, as well as cryptography and key management.
Topic 7	<ul style="list-style-type: none"> • Identity and Access Management: This section explores authentication methods and technologies, authorization and access control models, and the identity management lifecycle.
Topic 8	<ul style="list-style-type: none"> • Information Security Governance: This section of the exam delves into security management concepts and principles, examining organizational structures and roles in security. It also covers developing and implementing security policies, standards, and procedures.
Topic 9	<ul style="list-style-type: none"> • Regulatory Compliance and Legal Issues: This section addresses risk management and risk assessment methodologies, including threat modeling and vulnerability assessment. It also explores various risk mitigation strategies.

Pass Guaranteed Quiz 2026 Valid CIS-SPM: Certified Implementation Specialist - Strategic Portfolio Management Valid Test Objectives

Are there many friends around you have passed ServiceNow CIS-SPM Certification test? How could they have done this? Let Dupleader.com tell you. Dupleader ServiceNow CIS-SPM exam dumps provide you with the most comprehensive information and quality service, which is your unique choice. Don't hesitate. Come on and visit Dupleader.com to know more information. Let us help you pass the exam.

ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q51-Q56):

NEW QUESTION # 51

The combination of the user and the assigned portfolio must be unique when adding a user to which registry?

- **A. Stakeholder Registry.**
- B. UX Page Registry.
- C. Event Registry.
- D. Application Registry.

Answer: A

Explanation:

Explanation

According to the Stakeholder Registry document, the combination of the user and the assigned portfolio must be unique when adding a user to the stakeholder registry. The stakeholder registry is a table that stores information about the stakeholders of a portfolio. The other options are not correct, as they are not registries that require a unique combination of user and portfolio. The application registry is a table that stores information about the applications in the system. The event registry is a table that stores information about the events that trigger notifications. The UX page registry is a table that stores information about the UX pages that are available for portfolios.

NEW QUESTION # 52

The Project management application supports two types of external dependencies. What are they?

Choose 2 answers

- A. Task Dependency.
- **B. Soft Dependency.**
- C. Milestone Dependency.
- D. Change Dependency.
- **E. Hard Dependency.**

Answer: B,E

Explanation:

Explanation

The Project Management application supports two types of external dependencies: hard dependency and soft dependency. A hard dependency is a dependency that must be met before a task can start or finish. A soft dependency is a dependency that is preferred but not mandatory for a task to start or finish. You can find more information about these dependency types in the Product Documentation for ServiceNow.

NEW QUESTION # 53

Which plugin activates the Ideas module to gather and evaluate ideas efficiently, and quickly identify ideas for implementation?

- A. Test Management 2.0
- B. Resource Management
- **C. Ideation with PPM**
- D. Agile Development 2.0

Answer: C

Explanation:

Explanation

According to the Innovation Management document, the plugin that activates the Ideas module to gather and evaluate ideas efficiently, and quickly identify ideas for implementation is Ideation with PPM. This plugin enables the Innovation Management application, which allows organizations and employees to collect, vote on, manage, and collaborate on ideas from a centralized location. The other options are not correct, as they are not plugins that activate the Ideas module. Test Management 2.0 is a plugin that enables the Test Management

2.0 application, which allows users to create, plan, and execute tests. Agile Development 2.0 is a plugin that enables the Agile Development 2.0 application, which allows users to manage scrum or development work throughout the lifecycle. Resource Management is a plugin that enables the Resource Management application, which allows users to manage resource plans and allocations.

NEW QUESTION # 54

If Scenario Planning for PPM is installed, a portfolio manager can access the Portfolio Planning Workbench by navigating to which of the following?

Choose 2 answers

- **A. Portfolio Planning Workbench module**
- **B. Portfolio Planning related link**
- C. Program Workbench
- D. Project module

Answer: A,B

Explanation:

Explanation

According to the Scenario Planning for PPM document, a portfolio manager can access the Portfolio Planning Workbench by navigating to either the Portfolio Planning related link on the portfolio form or the Portfolio Planning Workbench module under the Portfolio Planning application menu. The other options are not correct, as they do not lead to the Portfolio Planning Workbench. The Project module is under the Project Portfolio Management application menu and the Program Workbench is under the Program Management application menu.

NEW QUESTION # 55

Which of the following can be used to calculate planned cost when creating a resource plan?

Choose 2 answers

- A. Project rate
- B. Demand rate
- C. Default rate
- D. Rate card

Answer: A,D

Explanation:

According to the ServiceNow documentation¹, a rate card is a table that defines the hourly cost of labor for different roles or resources. A project rate is a fixed rate that is applied to all resources assigned to a project, regardless of their roles or individual rates. Both of these can be used to calculate the planned cost of a resource plan by multiplying the hours allocated to each resource by the corresponding rate. The other options are incorrect because:

A . Demand rate: A demand rate is a rate that is applied to a demand, not a resource plan. It is used to estimate the cost of fulfilling a demand before it is converted into a project².

C . Default rate: A default rate is a rate that is applied to a resource when no other rate is specified. It is not a valid option for calculating the planned cost of a resource plan, as it is only used as a fallback option³.
