IIC Principles and Practice of Insurance Sample Questions (Q10-Q15):

NEW QUESTION # 10

How are staff adjusters and independent adjusters similar?

- A. Both work on behalf of, and are paid by, the insurer
- B. Neither has any limitation on their authority to settle claims
- C. Both are licensed only in Quebec and New Brunswick
- D. Neither is allowed to perform an investigation

Answer: A

Explanation:

Both staff adjusters and independent adjusters work on behalf of the insurer when handling claims. A staff adjuster is an employee of the insurance company, while an independent adjuster is contracted by an insurer to investigate and adjust claims. Regardless of their

employment relationship, both types of adjusters operate under the insurer's authority, follow the insurer's procedures, and act in the insurer's interests when assessing damages, determining coverage, and recommending settlement amounts.

Option A is incorrect because both adjusters do perform investigations. Option C is incorrect-adjusters are licensed in most provinces, not only Quebec and New Brunswick. Option D is incorrect because both staff and independent adjusters have specific limitations on their settlement authority, which depend on the insurer's internal guidelines. Therefore, the similarity that applies universally is B.

NEW QUESTION # 11

Samuel is a broker who does NOT have claims-handling authority. He received a call from an insured at the scene of an auto accident. The insured was upset, and Samuel reassured her that everything would be fine because she had coverage. Later, the insurer denied the claim due to impaired driving. What should Samuel have done differently?

- A. Asked to speak to the police officer at the scene to determine legal implications
- B. Told the insured that the insurer would have to investigate before he could answer her concerns
- C. Asked the insured more details and informed her the claim would not be covered
- D. Told the insured to take immediate responsibility for the accident to uphold utmost good faith

Answer: B

Explanation:

Brokers without claims-handling authority must be extremely careful in the statements they make to insureds, especially at the time of a loss. Samuel improperly promised coverage, something he had neither the authority nor sufficient information to confirm. Claims are determined by the insurer based on policy wording, exclusions, and investigation. The proper action would have been to reassure the insured emotionally while clearly stating that the insurer must first investigate the circumstances before any determination of coverage can be made.

Option B is inappropriate; the insured should not admit liability at the scene. Option C is improper because a broker has no authority to intervene in a police investigation. Option D is also incorrect; Samuel cannot deny coverage, as this is solely the insurer's role. Therefore, the only correct response is A, which aligns with proper professional conduct and avoids misrepresentation.

NEW QUESTION # 12

Which statement best describes a valued contract?

- A. The insured can reject settlement offers and force a higher payout
- B. Settlements involve periodic payments due to the nature of valuation
- C. The policy pays the full cost of replacing items even if this amount exceeds policy limits
- D. Settlements are based on a predetermined amount agreed upon at contract formation

Answer: D

Explanation:

A valued contract is one in which the insurer and insured agree in advance on the value of the insured item. If a total loss occurs, the insurer pays this predetermined amount, regardless of the item's actual cash value at the time of loss. This type of contract is common in areas such as fine arts, antiques, life insurance, or items whose value is difficult to measure after loss. The purpose is to eliminate disputes over valuation after a loss occurs.

Option A incorrectly describes replacement cost coverage.

Option B misstates contract rights; insureds cannot force payouts beyond contractual terms.

Option C describes structured settlements, not valued contracts.

Thus, the correct definition is D.

NEW QUESTION # 13

Which statement best describes unearned premium?

- A. The earned premium that has been paid out as the broker's commission
- B. The accumulated premium that has not been paid out against a loss
- C. The premium that covers the policy period that has expired
- D. The premium that covers the policy duration that has not yet passed

Answer: D

Explanation:

Unearned premium is the portion of the premium that corresponds to the period of insurance not yet elapsed.

When an insured prepays a premium (often for a 12-month policy), the insurer earns that premium gradually over the policy term as time passes. Any amount relating to future coverage-coverage the insurer has not yet provided-is considered unearned premium. It represents a liability on the insurer's balance sheet because if the policy is cancelled, the insurer must refund the unearned portion to the insured, subject to policy terms.

Option A is the opposite: that describes earned premium, not unearned premium. Option B is incorrect because unearned premium is unrelated to claims payments; it is a time-based accounting concept. Option D is incorrect because broker commissions are not part of earned or unearned premium calculations; they are an expense paid out of the premium.

Therefore, the correct definition is C: the premium for the remaining period of insurance that has not yet passed.

NEW QUESTION # 14

Patrice works as a broker meeting a new client. He is building rapport by performing similar actions to those of his client. Which form of in-person communication is he engaging in?

- A. Copycatting
- B. Transparency
- C. Open listening
- D. **Mirroring**

Answer: D

Explanation:

Mirroring is a communication technique used to build rapport by subtly matching another person's body language, tone, gestures, or pace of speech. It is widely used in sales, client consultations, and negotiations.

When done professionally and subtly, mirroring helps clients feel understood and creates psychological comfort, making it easier to discuss needs and gather accurate underwriting information.

Option B, copycatting, implies obvious or exaggerated imitation and is not a recognized professional communication method. Option C, transparency, refers to openness and honesty, not physical or behavioural alignment. Option D, open listening, is active listening-important, but unrelated to mirroring physical actions.

Since Patrice is deliberately performing similar actions to his client, he is engaging in mirroring, making A the correct answer.
