Firstly, our experienced expert team compile them elaborately based on the real exam. Secondly, both the language and the content of our Google Google-Workspace-Administrator Study Materials are simple.

Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q71-Q76):

NEW QUESTION # 71

A user has traveled overseas for an extended trip to meet with several vendors. The user has reported that important draft emails have not been saved in Gmail, which is affecting their productivity. They have been constantly moving between hotels, vendor offices, and airport lounges.

You have been tasked with troubleshooting the issue remotely. Your first priority is diagnosing and preventing this from happening again, and your second priority is recovering the drafts if possible. Due to time zone differences, and the user's busy meeting schedule, you have only been able to arrange a brief Hangouts Meet with the user to gather any required troubleshooting inputs. What two actions should be taken on this call with the user? (Choose two.)

- A. Use the Email log search in the Admin panel.
- **B. Take screenshots of the user's screen when composing an email.**
- C. Check the Users > App Users Activity report.
- **D. Record a HAR file of the user composing a new email.**
- E. Ask the user to send an email to you so you can check the headers.

Answer: B,D

NEW QUESTION # 72

External sharing at your company is only permitted for the sales and marketing department. Engineering is not allowed to share externally. You need to configure the sharing settings to comply with this policy. What should you do?

- A. Configure Drive trust rules to restrict the engineering department from sharing externally.
- B. Create separate shared drives for each department with different external sharing settings.
- C. Use a data loss prevention (DLP) solution to control external sharing based on user groups.
- **D. Create organizational units (OUs) for each department. Configure different external sharing settings for each OU.**

Answer: D

Explanation:

By creating separate organizational units (OUs) for each department, you can apply different external sharing settings based on the department's requirements. For example, you can configure the sales and marketing department's OU to allow external sharing, while configuring the engineering department's OU to restrict external sharing. This approach allows you to enforce departmental policies efficiently without impacting other departments.

NEW QUESTION # 73

An employee left your organization for a competitor and was leaking confidential information externally. You must ensure that the former employee no longer has access to their Workspace account. The manager and the rest of their team still needs access to the documents that they created. You want to keep license costs to a minimum and preserve a legal hold on the Workspace account of the former employee. What should you do?

- A. Reset the password of the former employee to something complex, and keep the Workspace account license active.

- B. Rename the Workspace account of the former employee.
- **C. Disable the Workspace account of the former employee, and switch their license to the Archived user type.**
- D. Delete the Workspace account of the former employee.

Answer: C

Explanation:

In order to maintain the former employee's data, their license should switch to Archive User. Their account should be disabled so as to prevent further leaks. The next step is the creation of a matter in Google Vault for further investigation of the leaked data.

NEW QUESTION # 74

You have implemented a data loss prevention (DLP) policy for a specific finance organizational unit. You want to apply the same security policy to a shared drive owned by the finance department in the most efficient manner. What should you do?

- A. Change the scope of the policy to apply to all in the domain
- B. In the Admin console sharing settings, select the finance organizational unit and deselect Allow users outside the domain to access files in shared drives
- C. Assign the Shared Drive to the finance organizational unit
- **D. Create a new DLP policy for shared drive users**

Answer: D

Explanation:

Access the Admin Console: Sign in to your Google Admin console.

Navigate to DLP Settings: Click on "Security" and then "Data protection" to access Data Loss Prevention (DLP) settings.

Create New DLP Policy: Click on "Create policy" and configure the policy specifically for shared drive data.

Define Rules: Set up the necessary rules and conditions to match the existing DLP policy for the finance organizational unit.

Apply to Shared Drive: Apply this new policy to the shared drive used by the finance department.

Save and Activate: Save the policy and ensure it is active and enforced for the shared drive.

NEW QUESTION # 75

Your organization has implemented Single Sign-On (SSO) for the multiple cloud-based services it utilizes. During authentication, one service indicates that access to the SSO provider cannot be accessed due to invalid information.

What should you do?

- A. Verify the Subject attribute in the SAML Response matches the Assertion Consumer Service (ACS) URL.
- B. Verify the Recipient attribute in the SAML Response matches the Assertion Consumer Service (ACS) URL.
- **C. Verify the Audience Element in the SAML Response matches the Assertion Consumer Service (ACS) URL.**
- D. Verify the NameID Element in the SAML Response matches the Assertion Consumer Service (ACS) URL.

Answer: C
