PRINCE2 Agile Foundation Sample Questions (Q138-Q143):

NEW QUESTION # 138

Which is a collaborative technique for defining decision-making within teams?

- A. Magic estimation
- **B. Delegation poker**
- C. Team skills matrix
- D. Personas

Answer: B

Explanation:

Delegation poker is a collaborative game used to define and clarify decision-making authority within teams. It helps teams agree on who has the power to make decisions for specific areas, from the team level to senior management. Using cards representing different levels of delegation, team members discuss and align expectations, ensuring clarity and reducing conflicts.

This technique fosters transparency, shared ownership, and empowerment, which are critical for agile teams operating under PRINCE2 governance. It also helps balance autonomy and control, supporting the principle of manage by exception.

Other options: a team skills matrix documents competencies, personas represent user archetypes for design, and magic estimation is a sizing technique - none focus on decision authority.

Delegation poker aligns well with PRINCE2 Agile's emphasis on defined roles and empowered teams.
