## The Open Group TOGAF Business Architecture Foundation Exam Sample Questions (Q27-Q32):

### NEW QUESTION # 27

What is presented as striking a balance between positive and negative outcomes resulting from the realization of either opportunities or threats?"

- A. Risk Management
- B. Architecture Security
- C. Agile development
- D. Transition Management

**Answer: A**

Explanation:

Risk Management is the discipline that addresses the identification, assessment, and prioritization of risks followed by coordinated application of resources to minimize, control, and monitor the impact of unfortunate events or to maximize the realization of opportunities. It is about striking a balance between the positive outcomes of opportunities and the negative outcomes of risks, ensuring that the enterprise can achieve its objectives while keeping potential threats under control.

### NEW QUESTION # 28

Which of the following supports the need to govern Enterprise Architecture?

- A. The TOGAF standard cannot be used without executive governance.
- B. The Architecture Project mandates the governance of the target architecture.
- C. Best practice governance enables the organization to control value realization.
- D. The stakeholder preferences may go beyond the architecture project scope and needs control.

**Answer: C**

Explanation:

One of the reasons that supports the need to govern Enterprise Architecture is that best practice governance enables the organization to control value realization. Value realization is the process of ensuring that the expected benefits from implementing an Enterprise Architecture are achieved and sustained over time. Best practice governance provides a framework and mechanisms for monitoring and evaluating the performance and outcomes of Enterprise Architecture initiatives, as well as ensuring alignment with strategic objectives and stakeholder expectations.

### NEW QUESTION # 29

What are the four architecture domains that the TOGAF standard deals with?

- A. Capability, Segment, Enterprise, Federated
- B. Baseline, Candidate, Transition, Target
- C. Application, Data, Information, Knowledge
- D. Business, Data, Application, Technology

**Answer: D**

Explanation:

TOGAF defines four core architecture domains: Business, Data, Application, and Technology. These domains collectively represent the key areas covered in enterprise architecture, where the Business Architecture defines business strategy and organizational goals;

Data Architecture addresses data management and structure; Application Architecture focuses on system and software applications; and Technology Architecture outlines the IT infrastructure.

References: TOGAF Standard, Architecture Domains (Chapter 3).

TOGAF, as a comprehensive Enterprise Architecture framework, divides the architecture landscape into four interrelated domains:

\* Business Architecture: This domain focuses on the organization's strategic goals, business processes, and organizational structure. It defines how the business operates and creates value.

\* Data Architecture: This domain deals with the structure, organization, and management of data assets within the enterprise. It includes logical and physical data models, data storage, and data security.

\* Application Architecture: This domain describes the applications used to support the business, their interactions, and their alignment with business processes. It provides a blueprint for the application portfolio.

\* Technology Architecture: This domain covers the technology infrastructure that supports the applications and data. It includes hardware, software, networks, and IT services.

These four domains provide a holistic view of the enterprise and how its different components work together.

### NEW QUESTION # 30

Complete the sentence. The classification model of the Architecture Landscape is divided into levels known as \_\_\_\_\_

- A. Gaps, Plateaus, and Target Architectures
- B. Baseline, Transition, and To Be Architectures
- C. Segment, Strategic, and Capability Architectures
- **D. Transitional, Complete, and Incremental Architectures**

**Answer: D**

### NEW QUESTION # 31
