The clients can not only download and try out our products freely before you buy them but also enjoy the free update and online customer service at any time during one day. The clients can use the practice software to test if they have mastered the HPE0-V25 Test Guide and use the function of stimulating the test to improve their performances in the real test. So our products are absolutely your first choice to prepare for the test HPE0-V25 certification.

HPE Hybrid Cloud Solutions Sample Questions (Q23-Q28):

NEW QUESTION # 23

Your customer needs the flexibility of an HPE GreenLake solution that can report on the usage, spending and capacity planning of their workloads Which tool will provide this information?

- A. HPE GreenLake Data Ops Manager

- B. HPE GreenLake for Compute Ops Management
- **C. HPE GreenLake Central**
- D. HPE GreenLake Intent Based Provisioning

Answer: C

Explanation:

HPE GreenLake Central: HPE GreenLake Central is a management tool designed to provide a unified view of the usage, spending, and capacity planning across all workloads managed under HPE GreenLake. It offers comprehensive reporting and analytics, making it ideal for managing and optimizing hybrid IT environments.

NEW QUESTION # 24

How does HPE GreenLake platform benefit customers? (Select two.)

- A. Manages entirely through HPE OneView services to allocate the correct industry and portfolio experts for the required task
- B. Provides management through CloudPhysics for infrastructure projects
- **C. Allows a simple point-and-click automated provisioning via a self-service portal**
- **D. Enables customers to manage capacity ahead of demand**
- E. Provides a dedicated backup service at no cost for all HPE GreenLake workloads to provide data protection across the platform

Answer: C,D

Explanation:

Understanding the Benefits of HPE GreenLake:

HPE GreenLake is an as-a-service offering that provides a flexible, pay-per-use model for IT resources.

It aims to simplify IT management and provide a cloud-like experience on-premises.

Option Analysis:

A: Manages entirely through HPE OneView services: HPE OneView is a management tool for infrastructure automation, but it is not specifically a core feature of GreenLake.

B: Allows a simple point-and-click automated provisioning via a self-service portal: This is a key feature of HPE GreenLake, providing ease of use and quick resource provisioning.

C: Provides management through CloudPhysics: CloudPhysics is a different tool focused on analytics and planning, not specifically a part of GreenLake.

D: Enables customers to manage capacity ahead of demand: HPE GreenLake offers capacity management to anticipate and scale resources as needed.

E: Provides a dedicated backup service at no cost for all HPE GreenLake workloads: While GreenLake offers various services, dedicated backup service at no cost is not a standard offering across all workloads.

Why B and D are the Correct Answers:

B: Automated Provisioning: The self-service portal in HPE GreenLake allows users to provision resources quickly and efficiently, improving operational agility.

D: Capacity Management: HPE GreenLake provides tools to monitor and manage capacity, ensuring that resources are available ahead of demand, preventing over-provisioning or under-provisioning.

NEW QUESTION # 25

Are HPE Nimble Storage arrays designed for high-performance workloads?

- **A. Yes**
- B. No

Answer: A

Explanation:

HPE Nimble Storage arrays provide organizations with high-performance storage solutions for both traditional and modern workloads. They leverage advanced technologies, including flash storage and predictive analytics, to deliver high performance, scalability, and availability. HPE Nimble Storage arrays also support integration with other HPE storage solutions, making it easier for organizations to manage their storage resources more effectively.

NEW QUESTION # 26

If an organization wants to automate IT operations, which HPE solution would be the most appropriate?

- A. HPE Nimble Storage
- **B. HPE OneView**
- C. HPE ProLiant
- D. HPE Synergy

Answer: B

Explanation:

HPE OneView is a software-defined management solution that enables organizations to automate and streamline IT operations. It provides a unified API that allows for integration with other management tools and can help organizations to reduce manual errors and improve overall efficiency.

NEW QUESTION # 27

You need to describe the benefits of HPE GreenLake to your customer.

What details should you provide?

- A. HPE GreenLake allows customers to manage their accounts point-and-click automated provisioning from a mobile application.
- **B. HPE GreenLake can increase financial flexibility, free up capital, and provide better cost control through its Pay-per-Use policy.**
- C. HPE GreenLake provides infinite scale to the customer at no additional cost with its scale up policy.
- D. HPE GreenLake enables the customer to be managed by HPE, HPE Partners, and other 3rd party vendors through its open management policy.

Answer: B

Explanation:

Pay-per-Use policy: HPE GreenLake offers a consumption-based IT model that provides significant financial benefits. It increases financial flexibility by aligning costs with actual usage, frees up capital that can be invested elsewhere, and offers better cost control by reducing upfront expenses and providing predictable monthly payments based on consumption.
