NEW QUESTION # 62

If a known malicious domain is no longer associated with a specific IP address, which action will make the association inactive?.

- A. Update the indicator relationship description.
- B. Update the relationship type.
- C. Revoke the relationship.
- D. Expire the IP address indicator.

Answer: C

Explanation:

XSOAR's Threat Intelligence module represents connections between indicators-such as domain # IP mappings-usingrelationships.

The Admin Guide explains that relationships have attributes including direction, type, and state, allowing analysts to mark them as active or inactive. When an observed association (such as a malicious domain pointing to a particular IP address) is no longer valid, the platform provides the ability to revoke the relationship, which sets its state to inactive without deleting the indicator or removing historical context.

Revoking is the correct method because it preserves historical intelligence for correlation, investigations, and audit trails while preventing outdated relationships from impacting enrichment or automated processes.

Updating the relationship type (option B) merely changes classification, not the state. Expiring the IP address indicator (option C) affects the indicator itself—not the relationship—and does not correctly mark that the specific association has ended. Updating the description (option D) is cosmetic only and does not change operational behavior.

Thus, revoking the relationship (option A) is the documented and proper way to inactivate a domain-IP connection in XSOAR.

NEW QUESTION # 63

What is an example of a generic reputation command?

- A. !reputation
- B. !ip
- C. !enrichIndicator
- D. !getReputation

Answer: A

NEW QUESTION # 64

.....

Our XSOAR-Engineer study prep has inspired millions of exam candidates to pursue their dreams and motivated them to learn more high-efficiently. Many customers get manifest improvement. XSOAR-Engineer simulating exam will inspire your potential. And you will be more successful with the help of our XSOAR-Engineer training guide. Just imagine that when you have the certification, you will have a lot of opportunities to come to the bigger companies and get a higher salary.
