

# Prepare Your Cisco 300-540: Designing and Implementing Cisco Service Provider Cloud Network Infrastructure Exam with Verified 300-540 Visual Cert Exam Effectively

BONUS!!! Download part of Itcerttest 300-540 dumps for free: <https://drive.google.com/open?id=1IV5gX-v3O14nuqhMrInjR7IjeC5bt15W>

When preparing for the 300-540 exam, a good source of information is what candidates need most, and the price of the materials is one of the important factors to be considered when a candidate choosing. In contrast to most exam preparation materials available online, our 300-540 exam materials of Itcerttest can be obtained at a reasonable price so that each candidate who prepares to take the 300-540 exam can afford it. It will not let any one of the candidates be worried about the price issue, and its quality and advantages exceed all our competitors' similar products. We will never reduce the quality of our 300-540 Exam Questions because the price is easy to bear by candidates and the quality of our exam questions will not let you down. They will prove the best choice for your time and money.

## Cisco 300-540 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• High Availability: This section of the exam measures the skills of Cloud Infrastructure Architects and covers the design and implementation of redundancy and resiliency mechanisms in virtualized network functions and distributed cloud platforms. It includes data plane redundancy for VNFs, high availability within a single VIM control plane, and resilient compute, vNIC, and top-of-rack switching. The exam requires an understanding of multi-homing, EVLAG configurations, virtual private cloud deployment, and ECMP strategies for NFVI integrations with physical routing protocols such as BGP, OSPF, and IS-IS. Candidates must also recommend suitable high-availability models involving DNS, routing, and load balancing.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>Virtualized Architecture: This section of the exam measures the skills of Cloud Network Engineers and covers the foundational concepts of virtualized infrastructures used in modern service provider and cloud environments. Candidates are expected to understand constraints in IaaS designs, determine appropriate cloud service models, and demonstrate awareness of container orchestration compared to traditional virtual machines. The exam also evaluates the ability to implement key virtualization functions such as NFV, VNF, NSO, and virtualized Cisco platforms. Learners must be able to deploy NFV with automation tools, manage VNF onboarding, work with NSO-driven orchestration, and use protocols like NETCONF, RESTCONF, REST APIs, and gNMI within automated cloud ecosystems. A general understanding of supporting platforms such as OpenStack also forms part of the required knowledge in this domain.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Service Assurance and Optimization: This section of the exam measures the skills of Cloud Operations Engineers and covers assurance mechanisms used to maintain performance, stability, and visibility across NFVI environments. It includes network assurance concepts such as MANO frameworks, VNF workload monitoring, VIM control plane KPIs, and streaming telemetry with gRPC and gNMI. Candidates must understand cloud infrastructure performance monitoring tools, including SR-PM, NetFlow, IPFIX, syslog, SNMP traps, RMON, cloud agents, and automated fault management systems. The domain also touches on diagnosing NFVI-related errors and optimizing VNFs using techniques such as SR-IOV and software-accelerated virtual switching technologies like DPDK and VPP.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Security: This section of the exam measures the skills of Network Security Engineers and covers the implementation of infrastructure-level protection in cloud and NFVI ecosystems. It includes topics such as ACLs, uRPF, RTBH, router hardening, BGP flowspec, TACACS, and MACSEC. Candidates should understand DoS mitigation methods and apply security practices within NFVI, focusing on API protection, securing the control and management plane, and segmentation strategies in service provider cloud environments. The domain also evaluates basic knowledge of TLS, mTLS, and general cloud security solutions related to DNS protection, zero-day defenses, and malware detection.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Cloud Interconnect: This section of the exam measures the skills of Service Provider Network Engineers and covers how large networks interconnect with cloud platforms and carrier-neutral facilities. Candidates are expected to understand various connectivity options to cloud providers, customer sites, and other neutral facilities, as well as evaluate WAN connectivity models such as direct connect, MPLS or segment routing, and IPsec VPN links. The domain also includes the ability to troubleshoot advanced data center interconnect solutions, including EVPN VXLAN, EVPN over SR</li> <li>MPLS, ACI-based connectivity, and pseudowire architectures supporting cloud-to-cloud and cloud-to-edge communication.</li> </ul>

## Free PDF 2026 300-540: Pass-Sure Designing and Implementing Cisco Service Provider Cloud Network Infrastructure Visual Cert Exam

You will be cast in light of career acceptance and put individual ability to display. When you apply for a job you could have more opportunities than others. What is more, there is no interminable cover charge for our 300-540 practice engine priced with reasonable prices for your information. Considering about all benefits mentioned above, you must have huge interest to our 300-540 Study Materials. You should take the look at our 300-540 simulating questions right now.

## Cisco Designing and Implementing Cisco Service Provider Cloud Network Infrastructure Sample Questions (Q101-Q106):

### NEW QUESTION # 101

FaaS is an ideal cloud service model for:

- A. Data-intensive, long-running processes
- B. Large, monolithic applications
- C. Applications requiring extensive customization of the underlying OS
- D. Event-driven, short-lived microservices**

**Answer: D**

**NEW QUESTION # 102**

What role does NSO play in network virtualization?

- A. Reduces network flexibility and scalability
- B. Acts as a physical network switch
- C. Decreases automation and orchestration capabilities
- D. Provides centralized management and automation of network services

**Answer: D**

**NEW QUESTION # 103**

The primary function of DNS security is to:

- A. Increase website loading speeds
- B. Store data more efficiently
- C. Reduce the cost of internet services
- D. Protect against domain name system attacks

**Answer: D**

**NEW QUESTION # 104**

Which two network segments are needed to support Cisco VIM? (Choose two.)

- A. Data plane
- B. Storage
- C. Host
- D. Provisioning
- E. Heartbeat

**Answer: B,D**

Explanation:

Comprehensive and Detailed Explanation From Cisco NFVI + VIM Architecture Cisco VIM (Virtual Infrastructure Manager) operates as part of Cisco NFVI and requires specific mandatory network segments to deploy OpenStack-based NFVI environments.

The essential required networks for Cisco VIM include:

#Provisioning network

- \* Used during bare-metal install of compute and controller nodes
- \* Handles PXE boot, image deployment, and VIM's management reachability

#Storage network

- \* Used for Cinder, Swift, Ceph, and Glance back-end storage replication
- \* Ensures predictable latency and bandwidth for NFVI workloads

Other networks exist in VIM (Management, API, Tenant, External), but the question asks for the required foundational segments.

Why the other options are incorrect:

- \* Data plane(B) - used inside NFV workloads but not a required VIM infrastructure network.
- \* Heartbeat(C) - not a defined VIM network segment.
- \* Host network(D) - not a Cisco VIM terminology; provisioning network handles host onboarding

**NEW QUESTION # 105**

Which protocol is primarily used for collecting and exporting network traffic information?

- A. gRPC
- B. RMON
- C. SNMP

- D. NetFlow

**Answer: D**

## NEW QUESTION # 106

.....

You will feel comfortable and pleasant to shop on such a good website. All the contents of our 300-540 training dumps are organized logically. Each small part contains a specific module. You can clearly get all the information about our 300-540 study guide. If you cannot find what you want to know, you can have a conversation with our online workers. Your questions on 300-540 Exam Dumps will be answered accurately and quickly. We are still working hard to satisfy your demands.
