

# Exam 1Z0-1072-25 Simulator | 1Z0-1072-25 Complete Exam Dumps

DOWNLOAD the newest ValidVCE 1Z0-1072-25 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1lMi-gliWbPXXKQy1TNIA8yfgY-Sh2nExM>

It is heartening to announce that all ValidVCE users will be allowed to capitalize on a free Oracle 1Z0-1072-25 exam questions demo of all three formats of the Oracle 1Z0-1072-25 practice test. It will make them scrutinize how our formats work and what we offer them, for example, the form and pattern of Oracle 1Z0-1072-25 Exam Dumps, and their relevant and updated answers. It is convenient for our consumers to check ValidVCE Oracle 1Z0-1072-25 exam questions free of charge before purchasing the Oracle Cloud Infrastructure 2025 Architect Associate practice exam.

Workers and students today all strive to be qualified to keep up with dynamically changing world with 1Z0-1072-25 exam. In doing so, they often need practice materials like our 1Z0-1072-25 exam materials to conquer exam or tests in their profession. Without amateur materials to waste away your precious time, all content of 1Z0-1072-25 practice materials are written for your exam based on the real exam specially. So our 1Z0-1072-25 study guide can be your best choice.

## Updated Exam 1Z0-1072-25 Simulator, 1Z0-1072-25 Complete Exam Dumps

There are some prominent features that are making the Oracle 1Z0-1072-25 exam dumps the first choice of Oracle 1Z0-1072-25 certification exam candidates. The prominent features are real and verified Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) exam questions, availability of Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) exam dumps in three different formats, affordable price, 1 year free updated Oracle 1Z0-1072-25 exam questions download facility, and 100 percent Oracle 1Z0-1072-25 exam passing money back guarantee.

## Oracle 1Z0-1072-25 Exam Syllabus Topics:

---

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• Compute: This section measures skills of cloud architects responsible for designing scalable and resilient infrastructure, covering compute instance configuration, autoscaling policies, and OS management. It evaluates understanding of OCI compute image options, infrastructure maintenance processes, and strategies for optimizing instance performance across availability domains.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• Identity and Access Management (IAM): This domain validates skills of security architects implementing granular access controls, emphasizing IAM policy creation, compartment organization, and dynamic group configuration. It covers identity domain management, network source restrictions, and tag-based access mechanisms to enforce least-privilege principles across OCI resources</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• Storage: Designed for storage administrators managing enterprise data solutions, this section tests proficiency in deploying Block</li> <li>• File</li> <li>• Object Storage with lifecycle management, cross-region replication, and tiered storage strategies. It includes configuring volume groups, snapshots, versioning, and security controls while analyzing storage performance metrics and cost optimization techniques.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Networking: Targeting network architects designing secure cloud architectures, this domain focuses on Virtual Cloud Network (VCN) implementation, including subnet design, IP address management, and routing through gateways (NAT, service, internet). It assesses expertise in VPN</li> <li>• FastConnect deployment, DNS configuration, load balancer setup, and advanced tools like Network Path Analyzer for troubleshooting latency or connectivity issues.</li> </ul>

## Oracle Cloud Infrastructure 2025 Architect Associate Sample Questions (Q38-Q43):

### NEW QUESTION # 38

Why is the Network Visualizer tool valuable for managing virtual network infrastructure on OCI?

- A. It generates automated reports on network performance metrics.
- B. It provides detailed information about the physical network components.
- C. It offers real-time monitoring of network traffic.
- **D. It visualizes the topology of all VCNS in a selected region and tenancy.**

**Answer: D**

Explanation:

The Network Visualizer tool in Oracle Cloud Infrastructure is valuable because it visualizes the topology of all Virtual Cloud Networks (VCNs) in a selected region and tenancy.

Topology Visualization: The Network Visualizer provides a graphical representation of the network components and their relationships within a VCN, including subnets, route tables, gateways, and security lists. This visualization helps users understand the network architecture and troubleshoot issues effectively.

Other Options:

Real-time monitoring of network traffic (B), detailed information about physical network components (C), and automated reports on network performance metrics (D) are not the primary functions of the Network Visualizer. These functionalities are typically handled by other OCI services or tools.

Relevant OCI Documentation:

Network Visualizer Overview

This documentation details the features and benefits of the Network Visualizer tool in OCI.

### NEW QUESTION # 39

Which of the following is a valid RFC 1918 CIDR prefix that can be used for creating an Oracle Cloud Infrastructure (OCI) Virtual Cloud Network (VCN)?

- A. 192.268.0.0/24
- **B. 192.168.0.0/16**

- C. 10.0.0.0/8
- D. 0.0.0.0/0

**Answer: B,C**

Explanation:

RFC 1918 defines IP address ranges that are reserved for private networks, which cannot be routed on the public internet. In Oracle Cloud Infrastructure (OCI), these private IP address ranges can be used to create Virtual Cloud Networks (VCNs). The valid RFC 1918 CIDR prefixes include:

192.168.0.0/16: A private IP range often used in home networks.

10.0.0.0/8: A large private IP range commonly used in enterprise networks.

Invalid Options:

B . 0.0.0.0/0: This CIDR represents all IP addresses and is not a valid private IP range.

C . 192.268.0.0/24: This is not a valid IP address range as the octet "268" is outside the allowable range of 0-255.

Reference:

Oracle Cloud Infrastructure Documentation: VCN Overview

RFC 1918: Address Allocation for Private Internets

## NEW QUESTION # 40

Which image option allows you to create identical instances with minimal effort?

- A. Select an image from the OCI Marketplace
- B. Use Oracle-provided images
- C. Create a custom image
- D. Bring your own image

**Answer: C**

Explanation:

When you need to create identical instances with minimal effort, creating a custom image is the best option.

Custom Images: A custom image captures the exact configuration of an instance, including the OS, software, configurations, and data. By using a custom image, you can easily replicate the same setup across multiple instances, ensuring consistency and reducing the need for manual configuration each time.

Other Options:

Bring Your Own Image: This allows you to import your custom OS image into OCI, but it's more suited for cases where you are migrating from another environment.

Select an Image from the OCI Marketplace: This provides pre-configured images from Oracle or third parties, but they may require additional setup to match your specific requirements.

Use Oracle-Provided Images: These are basic images provided by Oracle, which may not include the specific customizations you need.

Relevant OCI Documentation:

Custom Images Overview

This resource explains how to create and use custom images for quickly deploying identical instances.

## NEW QUESTION # 41

You want to protect your VM instance from low-level threats, such as rootkits and bootkits. What should you do?

- A. Create a burstable instance.
- B. Use Vulnerability Scanning Service.
- C. Create a shielded instance.
- D. Use in-transit encryption.

**Answer: C**

Explanation:

To protect your VM instance from low-level threats, such as rootkits and bootkits, you should create a shielded instance in Oracle Cloud Infrastructure (OCI). Shielded instances are designed to provide enhanced security features, including:

Secure Boot: Ensures that the instance boots only with trusted software.

Measured Boot: Records boot metrics, allowing verification that the instance has not been tampered with.

Trusted Platform Module (TPM): Provides additional security through cryptographic functions.

These features help protect against low-level threats that could compromise the integrity of the instance at boot time.

Reference:

Oracle Cloud Infrastructure Documentation: Shielded Instances

### NEW QUESTION # 42

How will moving a database instance to a different compartment impact user access?

- A. IAM policies are not tied to compartments.
- **B. Access will be revoked for all users.**
- C. Compartments prevent resource movement.
- D. Compartments are not covered by IAM policies.

**Answer: B**

Explanation:

In Oracle Cloud Infrastructure (OCI), when you move a database instance to a different compartment, the following impact on user access occurs:

**Impact of Moving Resources:** When you move a resource, like a database instance, to a different compartment, the IAM policies that grant access to that resource in the original compartment no longer apply. This effectively revokes access for users or groups unless equivalent policies are in place in the new compartment.

**Restoring Access:** To restore access, you would need to create new IAM policies in the destination compartment that grant the necessary permissions to the users or groups who need access.

Relevant OCI Documentation:

Managing Compartments

Moving Resources

These resources provide detailed steps on how compartment changes impact resource access and management.

### NEW QUESTION # 43

.....

We also fully consider the characteristics of the user on studying the 1Z0-1072-25 exam questions. For example, many people who choose to obtain a 1Z0-1072-25 certificate don't have a lot of time to prepare for the exam. Based on this point, our team of experts really took a lot of thought in the layout of the content. The contents of 1Z0-1072-25 Exam Materials are carefully selected by experts. We hope you can get the most effective knowledge in the shortest possible time.
