1z0-1057-25 Exams Torrent, 1z0-1057-25 Latest Test Fee

Our 1z0-1057-25 practice materials are on the cutting edge of this line with all the newest contents for your reference. Free demos

are understandable materials as well as the newest information for your practice. Under coordinated synergy of all staff, our 1z0-1057-25 practice materials achieved to a higher level of perfection by keeping close attention with the trend of dynamic market. They eliminated stereotypical content from our Oracle Project Management Cloud 2025 Implementation Professional practice materials. And if you download our 1z0-1057-25 practice materials this time, we will send free updates for you one year long.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q63-Q68):

NEW QUESTION # 63

Stigma consulting has been hired by a client to implement Project Management Cloud. Which role should they assign to a user for using the rapid implementation feature to set up the Project Financial Management offering by populating and uploading a Microsoft Excel workbook?

- **A. Project Integration Specialist**
- B. Project Application Administrator
- C. Project Administrator
- D. Project Executive

Answer: A

Explanation:

The Project Integration Specialist role should be assigned to a user for using the rapid implementation feature to set up the Project Financial Management offering by populating and uploading a Microsoft Excel workbook. This role allows the user to access the Functional Setup Manager and perform the common setups for project costing and billing using predefined templates and spreadsheets. The user can also monitor and validate the setup data using reports and dashboards. Reference:

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/implement-project-financial-management-applications.htm#OAPFM2356151>

NEW QUESTION # 64

You search for resources to fulfill a project resource request but are unable to proceed after receiving the following error message: "The search for resources cannot be completed because the project resource search index is not available. Contact your help desk." Identify the cause for this error message. (Choose the best answer.)

- A. The most recent update of the index finished successfully.
- **B. The index is in the process of being updated.**
- C. The index has been built.
- D. The index is not in the process.

Answer: B

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/fapfm/implementing-project-execution-management-applications.html#FAPFM1724547> Topic - Submitting the Process to Maintain Project Resource Search Index: Procedure Submit the Maintain Project Resource Search Index job set to update the resources that appear on the Search and Evaluate Resources page when a resource manager searches for resources to fulfill project resource requests. The job set consists of a set of processes that facilitate efficient and rapid searches for qualified resources.

Resource managers can't search for resources or view resource details if the search index isn't available for a project resource request with qualifications or keywords. For project resource requests without qualifications and keywords, resource managers can search for and evaluate resources based on resource availability even if the search index isn't current or available.

Caution: The search index isn't available if the Maintain Project Resource Search Index job set process fails, or while the process is running.

NEW QUESTION # 65

In a Project Draft Invoice preview, quantity (hours) and unit price (bill rate) are shown as fields on the invoice. Quantity and unit price are then used to calculate the line total, then the total price of the invoice.

After the invoice is transferred or created in Receivables, the invoice detail has a quantity of 1, and a unit price equal to the line total. The detailed Unit Price/Quantity does not come through on the Receivables invoice.

Identify the correct statement about details in the receivables invoice. (Choose the best answer.)

- A. The project sends only the invoice header to Receivables, not the invoice line description and distributions.
- B. The project sends the invoice line description and the invoice distributions to Receivables, but not the invoice header.
- C. The project sends the invoice header, invoice line description, and the invoice distributions to Receivables.
- **D. The project sends only the invoice header and invoice line description to Receivables, not the invoice distributions.**

Answer: D

Explanation:

When a project invoice is transferred or created in Receivables, the project sends only the invoice header and invoice line description to Receivables, not the invoice distributions. The invoice distributions contain the detailed information such as quantity, unit price, and line total. Therefore, the Receivables invoice does not show these details, but only shows a quantity of 1 and a unit price equal to the line total. Reference:

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-invoices.html#OAPFM2355931>

NEW QUESTION # 66

Your customer wants to see how quantity, cost, and revenue amounts are automatically distributed by using Spread Curve. Identify two period options that are available for this purpose. (Choose two.)

- **A. Project Accounting Periods**
- B. PA-GL Periods
- C. PA Calendar
- **D. Accounting Periods**
- E. Calendar Types

Answer: A,D

Explanation:

Reference https://fusionhelp.oracle.com/helpPortal/topic/TopicId_P_87F467307D50416BE040D30A68816855

Spread curves let you distribute quantity, cost, and revenue amounts automatically across accounting or project accounting periods. You assign a spread curve to each resource class. Planning resources (in the planning resource breakdown structure) inherit the spread curve setting from the associated resource class.

You can change the spread curve for the planning resource and for any corresponding task assignments, or budget or forecast lines.

NEW QUESTION # 67

In your customer site, the capitalized interest calculation is implemented on their project types. Which option represents the costs considered in the interest calculation? (Choose the best answer.)

- A. common costs on the project/task
- B. expenditure type exclusions on the Capitalized Interest rate schedules
- C. expenditure items whose cost spreads across multiple assets that are capitalized
- D. expenditure type exclusions on the Capitalized Interest rate name
- **E. expenditure items whose costs are applied to a single asset or multiple assets**

Answer: E
