

# Efficient Certification 3V0-22.25 Exam Infor Spend Your Little Time and Energy to Pass 3V0-22.25 exam once

Free update for 365 days is available for 3V0-22.25 study guide, so that you can have a better understanding of what you are going to buy. Through free demo, you can also know what the complete version is like. In addition, with experienced experts to compile the 3V0-22.25 Exam Dumps, quality can be guaranteed. Therefore, if you choose us, you can use them at ease. We have online and offline chat service staff, who are quite familiar with 3V0-22.25 study guide, if you have any questions, you can consult us.

It is apparent that a majority of people who are preparing for the 3V0-22.25 exam would unavoidably feel nervous as the exam approaching. If you are still worried about the coming exam, since you have clicked into this website, you can just take it easy now, I can assure you that our company will present the antidote for you--our 3V0-22.25 Learning Materials. Our company has spent more than 10 years on compiling study materials for the exam in this field, and now we are delighted to be here to share our study materials with all of the candidates for the exam in this field.

## Exam 3V0-22.25 Cost | Exams 3V0-22.25 Torrent

We are committed to using RealValidExam VMware 3V0-22.25 Exam Training materials, we can ensure that you pass the exam on your first attempt. If you are ready to take the exam, and then use our RealValidExam VMware 3V0-22.25 exam training materials, we guarantee that you can pass it. If you do not pass the exam, we can give you a refund of the full cost of the materials purchased, or free to send you another product of same value.

## VMware Advanced VMware Cloud Foundation 9.0 Operation Sample Questions (Q67-Q72):

### NEW QUESTION # 67

A VCF Operator needs to find all logs containing the word "Error" but explicitly wants to exclude any logs containing the word "Maintenance" to reduce noise during a scheduled window.

How is this negative query constructed in the Interactive Analytics search bar?

- A. Use the "Add Filter" option, select "Text", set the operator to "does not contain", and enter "Maintenance". This allows for precise negative filtering while keeping the main search term "Error" in the primary search bar or as a separate "contains" filter.
- B. Type Error NOT Maintenance.
- C. It is not possible to exclude terms; you must export to Excel.
- D. Type Error -Maintenance.

Answer: A

### NEW QUESTION # 68

Which specific architectural requirement must be met before an administrator can click the "Enable HA" button to convert a single-node VCF Operations instance into a High Availability cluster?

- A. The cluster must have at least one remote Cloud Proxy deployed.
- **B. At least one additional node must be deployed and joined to the cluster to act as the "Master Replica".**
- C. The "Witness Node" must be deployed and registered.
- D. A Load Balancer VIP must be configured and validated in NSX.

**Answer: B**

#### NEW QUESTION # 69

A customer has a "Standard" VCF Operations cluster with 4 nodes. They want to convert it to "Continuous Availability" (CA).

Which step is part of the conversion process?

- **A. Administrators must manually tag each node with a "Fault Domain" assignment (e.g., FD-1 or FD-2) and deploy a new Witness Node before enabling CA in the UI.**
- B. CA is enabled by a license key change only; no infrastructure changes are needed.
- C. The cluster must be backed up and restored to a new CA-enabled deployment; in-place conversion is not supported.
- D. The existing 4 nodes are all placed in Fault Domain 1, and 4 new nodes must be added to Fault Domain 2.

**Answer: A**

#### NEW QUESTION # 70

A Cloud Admin is designing a monitoring strategy for a "Dark Site" (No Internet Access) Workload Domain. The design includes deploying Telegraf agents on guest VMs for application monitoring.

# Constraints

- Guest VMs are on an isolated network with NO route to the VCF Operations Analytics Cluster.
- Guest VMs CAN route to a local management subnet within the Dark Site.
- A Cloud Proxy is deployed on that local management subnet.

How should the architect design the data flow to enable Application Monitoring?

- A. Install a second NIC on every Guest VM connected to the Management Network to talk directly to the Analytics Cluster.
- B. Use a "Store and Forward" USB drive mechanism to manually import metrics.
- **C. Configure the Telegraf Agents to use the local Cloud Proxy as their Gateway/Endpoint. The Cloud Proxy will bridge the isolated Guest network and the central Analytics Cluster.**
- D. Deploy a NAT Gateway on the Edge Router to allow Guest VMs to reach the internet-based VMware SaaS collectors.

**Answer: C**

#### NEW QUESTION # 71

An organization requires a solution to track the daily operational costs of their Private Cloud and bill internal departments based on their actual resource consumption (Showback/Chargeback).

# Requirement

- Define cost drivers for Hardware, Licensing, and Facilities.
- Generate monthly reports for "Finance Dept" and "HR Dept".
- Base costs on Allocation vs. Demand models.

Which VCF component provides the native capability to model these costs and generate the required billing reports?

- A. VCF Lifecycle
- B. VCF Operations for Logs
- C. SDDC Manager
- **D. VCF Operations**

**Answer: D**
