VMCE_v12 New Practice Questions Authoritative Questions Pool Only at GetValidTest

If you haplessly fail the VMCE_v12 exam, we treat it as our blame then give back full refund and get other version of practice material for free. In contrast we feel as happy as you are when you get the desirable outcome and treasure every breathtaking moment of your review. If you still feel bemused by our VMCE_v12 Exam Questions, contact with our courteous staff who will solve your problems any time and they will give you the right advices on our VMCE_v12 study materials.

Veeam Certified Engineer v12 Sample Questions (Q126-Q131):

NEW QUESTION # 126

A backup job is configured at Site A with 14 days of retention specified. The business requirements are:

- Virtual machine backups must be copied to a secondary location
- Six months of historical data to be kept at a secondary location
- Restore virtual machines from any given day within the previous two months
- Restore virtual machines from any given week within the previous six months

Which backup copy jobs should be set to meet the requirements?

- A. Use periodic copy (pruning) mode, keeping 62 days of retention and six monthly GFS restore points.
- **B. Use immediate copy (mirroring) mode, keeping 62 days of retention and 26 weekly GFS restore points.**
- C. Use immediate copy (mirroring) mode, keeping 180 days of retention.
- D. Use periodic copy (pruning) mode, keeping 180 days of retention.

Answer: B

Explanation:

The requirements are that the job "Restore virtual machines from any given week within the previous six months" This means you need "26 weekly GFS restore points" not "six monthly GFS restore points".

NEW QUESTION # 127

If you need to run a script to stop a service in order to get an application-consistent backup on a Windows server, where can the script be run?

- A. In the guest processing setting of the job, enable application-aware processing and add a pre-freeze script to the VM
- **B. Copy the script to the VM and schedule the script to run prior to the start of the backup job using the Windows Task Scheduler in the VM**
- C. In the virtual machines setting of the job, add a script in the scripts tab under "Run the following script before the job:"
- D. Configure the script to run on the Veeam Backup & Replication server using the Windows Task Scheduler

Answer: B

NEW QUESTION # 128

A customer has an Amazon Simple Storage Service compatible object storage repository in their secondary site. Backup jobs on the main site are configured with weekly full backups to a hardened repository with XFS and a retention of 14 days. The requirement is to keep only backups older than 14 days but no more than 30 days in the Amazon S3 repository.

What must the systems engineer do to meet these requirements?

- A. Create a backup copy job (Immediate mode) to the Amazon S3 repository with 30 days retention, scheduled every 2 weeks.
- **B. Increase the retention to 30 days and set the Amazon S3 repository as the Capacity Tier of the Scale-out Backup Repository, with Move mode set to 14 days.**
- C. Set the Amazon S3 repository as the Capacity Tier of the Scale-out Backup Repository, with Move mode set to 30 days.
- D. Create a backup copy job (Periodic mode) to the Amazon S3 repository with 14 days retention, scheduled daily.

Answer: B

Explanation:

Using move mode at 14 days with 30 day retention means backups are removed after 30 days still, but only 'move' to the S3 after 14 days.

NEW QUESTION # 129

An engineer needs to test the impact of operating system updates on app functionality in an isolated non-production environment. What Veeam Backup and Replication feature can be used to facilitate this?

- A. Instant Recovery
- B. Direct Storage Snapshots
- C. Replication
- **D. Virtual Labs**

Answer: D

Explanation:

Virtual Labs is the ideal feature for testing the impact of operating system updates in an isolated environment.

Virtual Labs allow you to create a secure, isolated copy of your production environment where you can test updates, patches, and other changes without affecting the live environment. References: Veeam Backup & Replication Documentation, Veeam Virtual Lab Guide

NEW QUESTION # 130

An infrastructure with 50 VMs has a power outage. After the VMware cluster has booted up again, 10 large VMs are orphaned.

However, all VM disk files are still on the datastores. What is the quickest way to bring back those VMs with the least possible data loss?

- A. Perform Instant VM Recovery with quick rollback with automatic Power On VM at the end.
- B. Use the "Restore guest files" option to restore the VM configuration files.
- **C. Perform Restore VM Files and only restore the VM configuration files.**
- D. Remove the existing VM disk files from the datastore and perform Instant VM Recovery

Answer: C

Explanation:

In a situation where VMs are orphaned after a power outage but their disk files remain intact on the datastores, the most efficient way to restore these VMs with minimal data loss is C: Perform Restore VM Files and only restore the VM configuration files. This approach involves using Veeam Backup & Replication to restore only the necessary VMX files (for VMware) or equivalent configuration files for other hypervisors, which contain the settings and configuration of the VMs. Since the disk files are still present and intact on the datastores, restoring the configuration files allows the VMs to be re-registered with the hypervisor and brought back online quickly, without the need to transfer or restore the entire VM disk files, thus minimizing downtime and data loss.

NEW QUESTION # 131

.....

Our VMCE_v12 simulating exam is perfect for they come a long way on their quality. On one hand, we have engaged in this career for over ten years and have become the leader in this market. On the other hand, we never stop developing our VMCE_v12 study guide. And our VMCE_v12 Training Materials have the function to remember and correct your errors. If you commit any errors, Our VMCE_v12 learning questions can correct your errors with accuracy rate more than 98 percent.

VMCE_v12 Reliable Test Questions: https://www.getvalidtest.com/VMCE_v12-exam.html

Yes, it couldn't be better if you purchase VMCE_v12 reliable braindumps, Veeam VMCE_v12 New Practice Questions I believe our test dump is high-quality with low-price, VMCE_v12 exam preparation software is the best way to prepare for your VMCE_v12 certification exam, The perfect Veeam VMCE_v12 dumps from GetValidTest are conducted to make well preparation for your exam and get the desired result, They are only available with VMCE_v12 exam questions format.

An executing command takes over the Terminal window with a text interface, VMCE_v12 shows the results of the command, and returns to the prompt, or performs some work and returns to the prompt when complete.
