We have been always trying to make every effort to consolidate and keep a close relationship with customer by improving the quality of our AD0-E725 practice materials. So our AD0-E725 learning guide is written to convey not only high quality of them, but in a friendly, helpfully, courteously to the points to secure more complete understanding for you. And the content of our AD0-E725 study questions is easy to understand.

### Adobe AD0-E725 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Cloud: This section of the exam measures the skills of Cloud Architects and covers the deployment and management of Adobe Commerce on cloud infrastructure. It requires explaining the fundamental cloud architecture, performing setup and configuration tasks, and utilizing the Adobe Commerce Cloud CLI tool to manage the environment effectively.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Section 1: Architecture: This section of the exam measures the skills of Backend Developers and covers the core structural concepts of Adobe Commerce. It involves demonstrating effective cache implementation, understanding key code components like plugins and observers, and managing multi-site configurations on a single instance. The domain also includes explaining the use of Git patches, critical security features, the CRON scheduling system, and how indexing functions within the platform.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• External Integrations: This section of the exam measures the skills of Integration Specialists and focuses on connecting Adobe Commerce with external SaaS services. It encompasses the skills needed to customize data flows, utilize Adobe App Builder for extensibility, and implement Adobe I</li> <li>• O events and webhooks to create automated and connected business processes.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Customizations: This section of the exam measures the skills of Solutions Engineers and involves modifying and extending platform functionality. This includes customizing core areas like the product catalog, checkout process, and admin panel, as well as manipulating data entities, customizing APIs, working with message queues, and writing integration tests to ensure code quality and functionality.</li> </ul>

## The latest Adobe certification AD0-E725 exam practice questions and answers

Prep4SureReview is here to provide you with AD0-E725 exam dumps. These Adobe AD0-E725 practice test materials will help you secure the AD0-E725 credential on the first attempt. Prep4SureReview resolves every problem of the test aspirants with reliable Adobe AD0-E725 Practice Test material. This AD0-E725 practice exam imitates the Adobe AD0-E725 real exam pattern. Thus, it helps you kill Adobe AD0-E725 exam anxiety.

### Adobe Commerce Developer Expert Sample Questions (Q42-Q47):

#### NEW QUESTION # 42

A Developer discovers the following code snippet in default.xml layout:

```
<referenceBlock name="content">
<block name="custom" template="example.phtml" cacheable="false" />
</referenceBlock>
```

Which caching behavior will occur?

- A. All pages will be marked as non-cacheable.
- B. Only the custom block will not be cached.
- C. The content block and all its child blocks will become cacheable.

**Answer: A**

#### NEW QUESTION # 43

A client expresses disappointment with the underreported engagement and revenue metrics reported by Product Recommendations. Which limitation or consideration of this service should be communicated to the client?

- A. Product Recommendations requires the purchase of an additional license to enable real-time reporting.
- B. Ad blockers and privacy settings can prevent Product Recommendations from capturing shopper behavior.
- C. Product Recommendations does not support insightful engagement and revenue metrics; an additional service contract is required for this feature.

**Answer: B**

#### NEW QUESTION # 44

A Developer applies multiple quality patches to an Adobe Commerce Cloud store. After deployment, the Developer discovers that one of the patches is causing issues.

What is the correct procedure to safely remove or revert the problematic quality patch?

- A. Delete the quality patch from the file magento.app.yaml.
- B. Execute command in magento-cloud:  
./vendor/bin/ece-patches revert <patch-id>

- C. Delete the quality patch from the file `magento.env.yaml`.

**Answer: B**

Explanation:

The Quality Patches Tool (QPT) in Adobe Commerce Cloud provides a way to apply and revert patches. To safely remove a problematic patch, run:

```
/vendor/bin/ece-patches revert <patch-id>
```

This ensures that the patch is properly removed without affecting other applied patches.

A and C are incorrect because patches are not managed via YAML config files.

Reference:

Adobe Commerce Cloud DevDocs - Quality Patches Tool

#### NEW QUESTION # 45

A Developer is integrating a custom third-party gift card system into the Adobe Commerce checkout. During checkout, a customer enters a store-bought gift card for payment, and depending on external API checks, the gift card is verified and allowed to be used on the order.

Which approach should be used for the internal processing of such functionality?

- A. Create an Adobe Commerce gift card account and manage the account using the gift card repositories.
- **B. Create a unique voucher code for each gift card usage request which grants a discount on the order's total.**
- C. Directly subtract the gift card amount from the order, keeping no history of the discount transaction.

**Answer: B**

Explanation:

The correct way to integrate external gift cards is to generate a unique discount (voucher code) that maps to the validated gift card value. This approach ensures that the transaction is recorded in Magento's discount system, preserving order and accounting integrity.

A is incorrect because Adobe Commerce gift card accounts are native to the Commerce Gift Card module and not applicable to external systems.

C is incorrect as directly subtracting amounts without transaction history violates best practices and auditability.

B is correct: mapping external validation into a voucher/discount ensures proper tracking.

Adobe Commerce DevDocs - Custom payment/discount integrations

#### NEW QUESTION # 46

A customer wants their Adobe Commerce Cloud platform to be upgraded to the latest available official version. They would like to assess the compatibility of their current version compared to the upgraded version.

How should the Developer gather this information and compile an upgrade plan for the customer?

- A. Run the Site-Wide Analysis Tool (SWAT) which provides detailed information on the system.
- B. Familiarize themselves with the minimum system requirements of Adobe Commerce.
- **C. Run the command `bin/magento upgrade:compatibility:report` to export the needed information.**

**Answer: C**

Explanation:

Adobe Commerce provides a built-in Upgrade Compatibility Tool (UCT) that allows developers to check for potential code incompatibilities before performing a version upgrade.

The UCT:

- \* Analyzes the current codebase against the target upgrade version.

- \* Reports on deprecated classes, methods, and APIs that could break during the upgrade.

- \* Produces a compatibility report (HTML/CSV/JSON) that can be shared with customers as part of the upgrade plan.

This tool is specifically designed to help developers assess upgrade risks and is the official Adobe Commerce-recommended method for preparing upgrade assessments.

- \* Option A (SWAT): The Site-Wide Analysis Tool provides performance, configuration, and health insights, but it does not analyze code compatibility for upgrades.

- \* Option B (minimum system requirements): This ensures the environment is technically capable of running the new version but does

not provide insights into custom code and extension compatibility.

Official Documentation Extracts:

\* "The Upgrade Compatibility Tool helps you identify potential issues in your custom code when upgrading to a new Adobe Commerce release. It scans your codebase and produces a report highlighting possible code changes that may be required."- Adobe Commerce DevDocs: Upgrade Compatibility Tool

\* "Run bin/magento upgrade:compatibility:report to generate the upgrade compatibility report. The report provides details about deprecated and removed code, APIs, and incompatibilities."- Adobe Commerce CLI Reference

## NEW QUESTION # 47

.....

The Adobe Commerce Developer Expert (AD0-E725) practice questions give you a feeling of a real exam which boost confidence. Practice under real Adobe Commerce Developer Expert (AD0-E725) exam situations is an excellent way to learn more about the complexity of the Adobe Commerce Developer Expert (AD0-E725) exam dumps. You can learn from your Adobe Commerce Developer Expert (AD0-E725) practice test mistakes and overcome them before the actual Adobe Commerce Developer Expert (AD0-E725) exam. The software keeps track of the previous Adobe Commerce Developer Expert (AD0-E725) practice exam attempts and shows the changes of each attempt.
