If you fail to pass the exam by using Sharing-and-Visibility-Architect exam materials, we will give you full refund.

Salesforce Certified Sharing and Visibility Architect Sample Questions (Q54-Q59):

NEW QUESTION # 54
How would you make sure Visualforce page is security proof? Choose 3 answers

- A. Use web application tool for security
- B. Manually check for cross site
- C. Submit to force security scanner
- D. Use debug to check hijacked requests
- E. Manually check for sql injection

Answer: A,C,D

Explanation:
Explanation
According to this source, submitting to Force.com Security Scanner, using web application security tools, and using debug logs to check hijacked requests are some of the ways to make sure Visualforce pages are secure.
The other options are not sufficient or recommended.

NEW QUESTION # 55
Universal Containers has a custom Job object with a private sharing model. Based on the size and location of the Job, different teams must have access to edit the specific Job record. To support this requirement, Apex Managed Sharing has been implemented to share records with the required users. Since the teams change frequently, managed sharing recalculations need to be manually run frequently. What can the Architect do to optimize this process?

- A. Change the sharing model on the Job object to Public Read/Write.
- B. Create a custom Visualforce page to edit the jobs and specify Without Sharing on the controller.
- C. Create a scheduled job to automatically run the sharing recalculations on a nightly basis.
- D. Create public groups for each team, and share the jobs with the groups instead of users.

Answer: D

NEW QUESTION # 56
Sales reps at Universal Containers sometimes create large files as a part of the sales process that are too large to share over email. They would like users to be able to share files with customers, but the CISO has requested that any file links shared must be password-protected.
How can this be accomplished?

- A. Create a content delivery; during creation, the user should select the option to require 3 password to access content.
- B. Utilize an AppExchange product for delivering password protected files to customers
- C. Set up an Experience Cloud site for customers to access files and share the file with customers via Chatter. Customers can then log in ta the site to access the content.

Answer: A

Explanation:
Content Delivery is a Salesforce feature designed for secure file sharing. When creating a content delivery, users can require a password for access, ensuring compliance with the CISO's requirement.

* Option A: While AppExchange products could provide similar functionality, Salesforce's native Content Delivery feature already meets the requirement without additional cost or complexity.
* Option B (Correct): Content Delivery allows the sharing of files via secure, password-protected links.
* Option C: Setting up an Experience Cloud site is an excessive and unnecessary solution for this simple file-sharing requirement.
:
Content Deliveries and Password Protection

NEW QUESTION # 57

Universal Containers created a public group with certain sales engineers to help on complex deals, as well as a sharing rule to grant access to these opportunities. The Opportunity organization-wide default is Private, What is the impact of these sharing settings?

* A. Other sales engineers who are in the same Role Hierarchy as the sales engineers of the public group will also have access to these records.
* B. Subordinates of managers who have sales engineers in the public group will also have access to these records.
* C. Sales engineers and their managers in the Role Hierarchy will also have access to these records.

Answer: B

Explanation:
Explanation
When a sharing rule grants access to a public group, the access is also extended to the subordinates of the users in that group, according to the role hierarchy1. Therefore, subordinates of managers who have sales engineers in the public group will also have access to these records. Other sales engineers who are in the same role hierarchy as the sales engineers of the public group will not have access to these records, unless they are subordinates or managers of the users in the public group. Sales engineers and their managers in the role hierarchy will not have access to these records, unless they are part of the public group or its subordinates.

NEW QUESTION # 58

Users at Universal Containers are complaining that a field has disappeared from the Account page after last weekend's deployment. The page layout did not change with this deployment.
How should the admin troubleshoot this issue?

* A. View Field Accessibility in the Object Manager.
* B. Run a Who Sees What report, filtering on Account.
* C. Leg in as 3 user and check several accounts to isolate the problem records.

Answer: A

Explanation:
If a field disappears from the Account page, the likely cause is that its visibility has been restricted through Field-Level Security (FLS) or a related profile/permission set update. Using Field Accessibility in Object Manager allows the admin to review and troubleshoot field permissions across profiles.
* Option A: A "Who Sees What" report is used for record visibility, not field visibility.
* Option B: Logging in as a user might help confirm the issue but doesn't provide insights into why the field is missing.
* Option C (Correct): Field Accessibility offers a comprehensive view of field-level security for troubleshooting.
:
Field Accessibility

NEW QUESTION # 59

......

dumps-torrent.html

Salesforce Reliable Sharing-and-Visibility-Architect Test Answers It support all operate systems, If not timely updating Sharing-and-Visibility-Architect Exam Cram Sheet training materials will let users reduce the learning efficiency of even lags behind that of other competitors, the consequence is that users and we don't want to see the phenomenon of the worst, so in order to prevent the occurrence of this kind of risk, the Sharing-and-Visibility-Architect Exam Cram Sheet practice test dump give supervision and update the progress every day, it emphasized the key selling point of the product, If you have any problem or advice about our Sharing-and-Visibility-Architect guide torrent, you can send email to us any time, and we will reply you within two hours.
